

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 87TH LEGISLATIVE REGULAR SESSION

April 5, 2021

TO: Honorable Kelly Hancock, Chair, Senate Committee on Business & Commerce

FROM: Jerry McGinty, Director, Legislative Budget Board

IN RE: SB1750 by Hancock (Relating to coordinating severe weather preparedness in critical electric and natural gas infrastructure; authorizing an administrative penalty.), **As Introduced**

Estimated Two-year Net Impact to General Revenue Related Funds for SB1750, As Introduced : a negative impact of (\$4,497,120) through the biennium ending August 31, 2023.

The bill would make no appropriation but could provide the legal basis for an appropriation of funds to implement the provisions of the bill.

The bill relates to coordinating severe weather preparedness in critical electric and natural gas infrastructure, including authorizing an administrative penalty.

General Revenue-Related Funds, Five- Year Impact:

<i>Fiscal Year</i>	<i>Probable Net Positive/(Negative) Impact to General Revenue Related Funds</i>
2022	(\$3,297,600)
2023	(\$1,199,520)
2024	(\$1,124,640)
2025	(\$1,049,760)
2026	(\$1,049,760)

All Funds, Five-Year Impact:

<i>Fiscal Year</i>	<i>Probable Savings/(Cost) from General Revenue Fund</i>
2022	(\$3,297,600)
2023	(\$1,199,520)
2024	(\$1,124,640)
2025	(\$1,049,760)
2026	(\$1,049,760)

Fiscal Analysis

The bill would require public utilities, power generation companies, ERCOT, and entities that produce, transport, gather, store, or ship natural gas to submit winter preparedness emergency operations plans to the Public Utility Commission (PUC) and Railroad Commission (RRC). The PUC, RRC, and Texas Division of Emergency Management would be required to submit a joint report on power generation and natural gas weatherization, including recommendations to the lieutenant governor, speaker of the house, and members of

the legislature by September 30 of each even-numbered year. The PUC would be authorized to impose an administrative penalty on entities that do not file reports in a timely manner.

Methodology

The PUC estimates a cost of \$300,000 for a consultant, which will be funded by ERCOT and the non-ERCOT utilities through a PUC order. Other PUC workload can be absorbed using existing resources.

The RRC would need to develop a new online system to allow the submissions needed to regulate well and pipeline preparedness operation plans. The RRC would also need \$1,800,000 in FY 2022 for a professional services contract for the initial review of the plans and \$900,000 annually on-going to review revisions and newly submitted plans for new infrastructure components (new wells, gas plants, etc.).

Technology

The RRC anticipates software development costs of \$1,497,600 in FY 2022, \$149,760 in FY 2023, and \$74,880 in FY 2024. The RRC also anticipates an ongoing maintenance cost starting in FY 2023 of \$149,760.

Local Government Impact

The fiscal implications of the bill cannot be determined at this time.
