I am in favor of this bill. Women who are pregnant, regardless of their circumstances, deserve quality prenatal care. It is the most important Pro-Life stance we have. Neglecting them when they are in jail or TDCJ custody is inexcusable. I urge you to approve this bill.

I am speaking in favor of HB 1307 which concerns pregnant women in prison. I am sure you recognize that these women deserve professional health care & I ask that you support this bill. This is a human rights bill as stated by many Ob Gyns & the American College of Obstetrics.
