HB 1627

HOUSE COMMITTEE ON ENVIRONMENTAL REGULATION

---

Hearing Date: March 29, 2021 2:00 PM - or upon final adjourn./recess or bill referral if permission granted

My name is Deirdre Diamond and I am a representative of Gunter Clean Air which is a member group of Texans for Responsible Aggregate Mining. I support Hb 3603, HB 1627, and HB 1721. In our area we have six CBP with another two propose within a mile of each other. These bills help close loopholes and empower local communities to protect themselves from the careless application processes authorized through TCEQ. Our area is in desperate need of comprehensive legislative change regarding APOs and we would appreciate this committee moving HB 3603 to the house floor quickly. Likewise, HB 1627 and 1721 need to be moved quickly to the house floor as well. Thank you for considering my request.

Sincerely,

Deirdre Diamond

I represent A. L. Helmcamp, Inc. a Texas highway contractor. I am in opposition to this bill. Cities should provide for their own zoning.
