I find it incredibly gratifying to hear about this bill. I have been involved in purebred dogs for 40 years and usually legislature is AGAINST the dogs. To put a memorial monument on our Capital to honor these dogs is fantastic. I can see no down side. I appreciate Holland and his committee for putting this bill forward. A wonderful tribute to dogs - who give without question or requiring reward!!!

I would like to start with thanking you for sponsoring Texas House Bill 1677. My Dad and Husband both were in law enforcement. Although, they were not handlers of a canine they knew how special these partners could be to their protection. These canines work till their death if necessary for the protection of their partner and citizens in need.

We should all value the contribution that all working and detection dogs make to national security and the role they play in protecting the peace and security of our communities. We should all honor the breeders, trainers and handlers of these dogs and support efforts ensuring that specialized care is provided to protect the wellbeing of police dogs.

I own working dogs, Giant Schnauzers, and they would go to their grave protecting me and our home as these service animals do.

I strongly support Texas House Bill 1677 and hope they we are successful in establishing this memorial monument.

Thank you for your service.
