

PUBLIC COMMENTS

HB 2587

HOUSE COMMITTEE ON STATE AFFAIRS

---

Hearing Date: April 8, 2021 8:00 AM

---

Richard Mouser

Self, Software Consultant

Dime Box, TX

I urge all committee members to vote FOR moving this important bill through the process to the House floor for a vote as quickly as possible. I have seen many instances of censorship by social media companies targeting political speech. Fixing this problem is necessary so we can have discourse and close the artificially created gaps between various groups in our state and country.

I am FOR HB 2587 because censorship by the government or a private business that allows the opposite party free speech is wrong. We need more free speech and not o0ne sided speech.

Amanda Stoffels

self-educator

Keller, TX

Please protect the right to free speech. Censorship should not be allowed by any web-based or social media networks.

The Public notices purpose is to make the citizens aware of goverment actions and intent. There is no more important way to notify than in print and its digital platforms and allows for full disclosure of records

I support that bill and efforts to provide remedies for users who's freedom of expression has been censored by social media. Now is the time to begin addressing this, before it gets more ingrained and serious. We need a free marketplace of ideas. We need to counter viewpoint discrimination. Do not fear lawsuits. Be strong and courageous!
