Please seriously consider the mental health issues surrounding this type of incarceration. And as you do so, please think about these bills as if this was your special loved one that these bills would effect. As a NAMI volunteer who works to help this particular population, I ask that you do the right thing and vote leading with your humanity. Because we all know that inmates are people who need support, not the unnecessary descension of politically motivated discourse to the level of ad hominem and bigoted fallacious actions. Please vote with a heart for the downtrodden and disenfranchised, no matter what they're guilty in the eyes of God for. Thank you.
