I support this legislation but would like to see its scope expanded to include health care regulation and and issues relating to immigration and border security.

I am FOR HB 3046. When the federal government stops following the Constitution it is up to our State to uphold both our State Constitution and our US Constitution and defend the rights of all Texans.

Our President of the United States recently made the statement that the Constitution of the United States is not absolute. We have a federal government that presents itself as having no respect or understanding of the Constitution nor what it stands for. The President of the United States considers the Constitution to be an obstacle to implementing his agenda. I have found no other legal agreement or document that is not absolute or binding as written. I do agree that the Constitution is not absolute. The Constitution itself provides a legal path to amend the Constitution and as such no man has no authority to change it without going through the process outlined in Article V of the Constitution. I urge you to vote to send HB 3046 to the floor for a vote.
