As the official representative for Houston Safari Club, I would like to express our support for HB 3081-Relating to the issuance of digital tags for the taking of certain animals. This process would streamline the harvest process, improve tracking of harvest rates, reduce costs related to paper and TPWD employee labor and improve the overall process, hopefully encouraging more hunters to purchase licenses in the state of Texas. In addition, this measure would meet the needs of our state's younger demographic who use an electronic device for almost every aspect of their daily lives.

Thank you.
