Much like the separations of Church and State, so should be the scrutiny applied when attempting the slippery slope of mixing commercial enterprises with state owned, (READ: TAXPAYER OWNED) properties. The State Taxpayers will ALWAYS be providing taxes for the use of those elected and appointed officials to use FOR THE GOOD OF THE PEOPLE. Once the state decides to break-away from it's duties and enter into private contracts with commercial businesses on taxpayer owned properties, then you are dictating to WE, The People that our sovereignty no longer matters as long as a proven failure of a mode of transportation otherwise alters and in some cases destroys the state "managed" properties of WE, The People of the State of Texas. This Bill should fail.

I do not support this bill let free market develop and pay for these solutions.
