WATER DEVELOPMENT POLICY IMPACT STATEMENT

87TH LEGISLATIVE REGULAR SESSION

May 3, 2021

TO: Honorable Joe Deshotel, Chair, House Committee on Land & Resource Management

FROM: Jerry McGinty, Director, Legislative Budget Board

IN RE: HB4645 by Cyrier (Relating to the creation of the Wildwood Municipal Utility District; granting a limited power of eminent domain; providing authority to issue bonds; providing authority to impose assessments, fees, and taxes.), **Committee Report 1st House, Substituted**

The Legislative Budget Board, in cooperation with the Texas Water Development Board (TWDB) and the Texas Commission on Environmental Quality (TCEQ), has determined that:

This bill creates Wildwood Municipal Utility District (District) with the powers and duties of a standard municipal utility district under Water Code Chapters 49 and 54.

Population: The very specific description of the proposed boundaries does not allow staff to develop precise population estimates.

Population growth in the specific area since the 2010 census is unknown. The 2010 population estimate for areas of Bastrop County served by small water systems or private wells ('County-Other') was 5,868. The Bastrop County-Other population projections adopted for the 2022 State Water Plan projects the population to grow to 9,006 in 2030 and 10,575 in 2040.

Location: The proposed district's initial boundaries are described with a combination of Original Texas Land Surveys, Official Public Records of Bastrop County, Plat Records of Bastrop County, Deed Records of Bastrop County, and metes and bounds. Due to the complexity of these boundaries for the various subareas of the district, staff is only able to determine the general location of the proposed district.

The proposed district's area is approximately 0.65 square miles in west Bastrop County, along the eastern border of Travis County, located west of the City of Bastrop, and east of the City of Austin. The proposed boundary appears to be near the Intersection of State Highway 71 and Tucker Hill Lane. The proposed district's boundary appears to overlap Aqua Water Service Corporation's water utility service area.

Comments on Powers/Duties Different from Similar Types of Districts: The District must receive consent to the creation of the District from each municipality in whose corporate limits or extraterritorial jurisdiction the District is located prior to holding a confirmation election. The bill grants the District authority for road projects. The bill allows the District to divide. The bill specifies that at the time of issuance, the total principal amount of bonds or other obligations issued or incurred to finance road projects and payable from ad valorem taxes may not exceed one-fourth of the assessed value of real property in the District. If the bill does not receive a two-thirds vote of all members elected to each house, the District may not exercise the power of eminent domain.

Overlapping Services: TCEQ does not have mapping information for water and/or wastewater providers because this function was transferred from the TCEQ to the Public Utility Commission on September 1, 2014. As a result, TCEQ is unaware of possible overlapping service providers.

TCEQ's Supervision: As with general law districts, the TCEQ will have general supervisory authority, including

bond review authority and review of financial reports.

Water Use: Within Bastrop County, 89% of the total water use was supplied by groundwater (Carrizo-Wilcox Aquifer), and municipal was the largest volume water use category comprising 45% of the county total water use in 2018. The water source the proposed district might pursue is unknown.
