

Amend Amendment No. 1 to SB 7 in added Section 81D.0035, Health and Safety Code, by striking Subsection (b) and substitute the following:

(b) A health care facility, health care provider, or physician may establish and enforce a reasonable policy including requiring the use of protective medical equipment by an individual who is an employee or contractor of the facility, provider, or physician and who is not vaccinated against COVID-19 based on the level of risk the individual presents to patients from the individual's routine and direct exposure to patients.
