Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Burn Pits 360 Veterans Organization (organization) has worked for years to help ensure service members and veterans exposed to toxins from open-air burn pits find the medical care and resources they need. The organization was integral in helping to pass legislation during the 86th Legislative Session that authorized the creation of the Texas open burn pit registry (registry) to serve as a critical tool in helping service members, veterans, and medical providers determine the long-term effects of exposure to airborne hazards. To ensure the registry's benefits are fully realized and to honor this great organization, H.B. 1315 creates a Burn Pits 360 Veterans Organization specialty license plate with proceeds from sales directed towards the creation and maintenance of the registry.

H.B. 1315 adds Section 504.331 to the Transportation Code to create the Burn Pits 360 Veterans Organization specialty license plate. Fees collected from the issuance of a license plate would be directed to the open burn pit registry fund. The bill also amends Section 99.008, Health and Safety Code, to create the open burn pit registry fund to create and maintain the registry.

(Original Author's/Sponsor's Statement of Intent)

C.S.H.B. 1315 amends current law relating to the creation of the open burn pit registry fund and the issuance of specialty license plates to honor members of the United States armed forces exposed to open burn pits.
