### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

H.B. 1905 makes available to child care facilities and other organizations providing out-of-time school care, such as 4-H, after school programs, summer camps, and youth sports organizations, active shooter training courses provided by school districts under Section 25.0815 of the Texas Education Code.

The legislation requires school districts to make this training available at no cost to such organizations and to cover the costs from money made available for this purpose by the Texas Education Agency (TEA).

The bill gives TEA the authority to solicit and accept gifts, grants, or donations from public and private sources to defray the cost of offering active shooter training to child care facilities and out-of-time school care organizations.

H.B. 1905 amends current law relating to allowing school districts to make available certain school safety training courses to employees of certain private schools, child-care facilities, or organizations providing out-of-school-time care.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
