### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Some have claimed that the prohibition of certain residential properties has created an arbitrary obstacle from individuals accessing information about their own property. Interested parties have stated that allowing a basic sketch of property to be posted online would enable a property owner to more easily access appraisal information that could assist the owner in contesting property taxes. In an effort to address this issue, the bill seeks to provide property owners online access to certain basic property information without resulting in the disclosure of vulnerable property features.

S.B. 348 amends current law relating to the prohibition on posting on the Internet information held by an appraisal district regarding certain residential property.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
