AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Health and Human Services Commission (HHSC) Long-term Care Regulation (LTCR) is responsible for the licensing of nursing facility administrators (NFAs), the certification of certified nurse aides (CNAs), and the permitting of medication aides (MAs). Given the broad definition in the Occupations Code, all three of these programs are subject to Occupations Code Chapter 53, which allows an agency to determine whether a conviction is related directly to an individual's license. However, Health and Safety Code Chapter 250 identifies criminal convictions that bar an individual from working in an LTCR facility, and these convictions do not correspond with those in Occupations Code Chapter 53. Given the requirements to be considered for each individual applicant's conviction, it is possible to have someone licensed who cannot work in a long-term care facility or for a home and community support service agency.

S.B. 681 would exempt occupations regulated by LTCR from Occupations Code Chapter 53, thus aligning the convictions used to determine licensure/certification/permitting with the convictions used to determine employability.

S.B. 681 amends current law relating to the applicability of certain laws regarding the occupational licensing of individuals with criminal convictions to the licensing of certain long-term health care facility personnel.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
