AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Under current law, the Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS) are required to biennially submit their own strategic plans along with the Coordinated Strategic Plan for Health and Human Services, which combines the HHSC and DSHS strategic plans into one document. When the original statutes governing the strategic planning process and reporting were passed, HHSC had no program areas of its own and served only as an oversight agency for other health and human service agencies. Eliminating the requirement to submit the Coordinated Strategic Plan for Health and Human Services would improve operational efficiency, reduce staff burden, and allow staff to focus on the HHSC and DSHS strategic plans.

S.B. 956 repeals the requirement for HHSC to submit a Coordinated Strategic Plan for Health and Human Services.

HHSC supports this legislation. There is no known opposition to this legislation.

S.B. 956 amends current law relating to repealing the coordinated strategic plan for health and human services in this state, including related conforming amendments.
