AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In 2019, Texas passed H.B. 1597, allowing military family students with orders assigning them to Texas to enroll in school before actual arrival allowing military family students to participate in high demand programs and classes. The legislation currently states "shall provide to the school district proof of residence in the district's attendance zone not later than the 10th day after the arrival date specified in the order."

The extremely competitive housing market has changed housing availability in communities across Texas, which creates significant challenges for incoming military families. Historically, 70-75% of military families live off the military installation in local communities. Many military families are experiencing long lead times to find housing frequently taking up to 90 days to find housing. This creates a challenge for military family students to remain in the same school. This bill modifies the current Texas code to change "10 days" to "90 days" to provide school districts proof of residence. This accounts for the long lead time to find housing and allows military family students to remain stable in school.

As proposed, S.B. 1008 amends current law relating to establishing residency for purposes of admission into public schools.
