AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Texas historic tax credit was enacted by the legislature in 2013 and is administered by the Texas Historical Commission and the Comptroller of Public Accounts of the State of Texas. The Texas historic tax credit is worth 25 percent of eligible rehabilitation costs and is available for buildings that are designated historic under state or federal law. In 2015, the legislature amended the law to allow this tax credit to also be used by private sector nonprofit organizations.

The Texas historic tax credit can be taken against either of two state business taxes: the franchise tax or insurance premium tax. Because it is found in the same chapter as the franchise tax, there is concern that if the franchise tax is ever repealed this tax credit would be swept away with it. S.B. 1013 simply provides long-term protection in law by moving key provisions from the historic tax credit into another chapter in the Tax Code.

S.B. 1013 amends current law relating to the franchise and insurance premium tax credit for the certified rehabilitation of certified historic structures.

RULEMAKING AUTHORITY
