### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

In 2003, the Texas Department of Insurance (TDI) adopted a rule to implement provisions in Sections 843 and 1301, Insurance Code. The rule requires a health plan or provider to notify the agency within five days of the catastrophic event and within ten days of resuming normal business operations. If the entity meets the notification requirements, TDI suspends the claim submission and payment deadlines.

The Texas Administrative Code defines a "catastrophic event" as an event that cannot be reasonably controlled or avoided and that causes an interruption of an entity's claims submission or processing activities for more than two consecutive business days. Events listed include: war; an accident, a fire, or explosion; organized labor stoppage; an earthquake, windstorm, or flood; or an act of God, civil, or military authority.

In March 2020, Governor Abbott suspended certain claim-handling deadlines, and TDI issued Bulletin #B-0007-20, which together extended claim-handling deadlines for an additional 15 days to help issuers respond to the COVID-19 outbreak. Governor Abbott rescinded the insurance-related statute and rule suspensions, effective September 2021, and the temporary claim-handling deadline extension was canceled.

Several health plans have said the rule is not clear and restricts their right to relief. Some health plans have attempted to assert their need to bypass prompt payment deadlines due to the "catastrophic event" beyond the expiration of the statutory suspension of these deadlines. As a result, some entities are avoiding paying large penalties to providers and the state. Therefore, S.B. 1286 amends statute to resolve uncertainty and authorize TDI to approve, disapprove, or limit requests for relief from claim-handling deadlines.

As proposed, S.B. 1286 amends current law relating to prompt payment deadlines for health benefit plan claims affected by a catastrophic event.
