Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

During the interim period, members of the Senate served on the Senate Select Committee to Protect All Texans after the horrific events that occurred at Robb Elementary School. One of the many issues that was discussed is the need to empower schools to do more to address truancy. S.B. 1630 establishes common sense practices that will help address truancy.

S.B. 1630 will require each school district to establish and implement an attendance policy to inform parents and students at the beginning of the school year regarding the importance of attending school. S.B. 1630 will provide appropriate support to students who fail to attend school regularly, and lastly explain the benefits and detriments to not attending school including any criminal repercussions. Next, the bill requires the school to adopt a notification system to notify parents whenever there is an excused or unexcused absence via text, email, or first-class mail.

S.B. 1630 also requires a meeting between a parent of a student enrolled in the district or school with a school counselor, principal, or appropriate administrator at the school when a student violates the established attendance policy. This is important to determine if any issues at home are contributing to the student's failure to attend school. If the parent fails to attend the meeting, then a school attendance officer can make a home visit or contact the parent to investigate the student's behavior and living conditions to report back to the appropriate staffer at the school.

Lastly, S.B. 1630 requires schools to establish guidelines to identify students in need of additional support and refer the student to in-school or out-of-school services aimed at addressing their failure to attend school regularly.

C.S.S.B. 1630 amends current law relating to an attendance policy adopted by public schools to prevent truancy.
