AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Assessing valuable information on pregnancy-related resources can be overly burdensome to some expectant mothers who are already stretched thin on time.

This bill requires the Health and Human Services Commission to compile its information on pregnancy-related resources, such as prenatal and postnatal care, adoption agencies, as well as information about financial assistance programs, and utilize the expertise of the Department of Information Resources to create a publicly accessible Texas.gov website and mobile application to contain this comprehensive searchable information. The goal is to empower each mother with the information she needs to provide the best future for her child, because in Texas, every mother matters.

As proposed, S.B. 2381 amends current law relating to the development of a webpage and mobile application for the provision of pregnancy-related resources and information.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
