IN RE: HB806 by VanDeaver (Relating to a study regarding the placement of rumble strips on highway shoulders.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would require the Texas Department of Transportation (TxDOT) to conduct a study to identify and assess the placement of rumble strips along highway shoulders, to permit the use of the shoulders by farm equipment, and submit to the legislature a report on the results and recommendations from the study no later than December 1, 2025. The bill would authorize TxDOT to collaborate with another state agency or a research division of a Texas institution of higher education to conduct the study. The provisions of the bill would expire on January 1, 2027.
