Fiscal Analysis

The bill would amend sections of the Government Code related the State Preservation Board (SPB). The bill would create the Texas State Buildings Preservation Endowment Fund that would be held outside the Treasury, managed by the Texas Treasury Safekeeping Trust Company (TTSTC), and administered by the Comptroller of Public Accounts (CPA). The fund would be created for the purposes of maintaining, preserving, rehabilitating, and restoring the buildings and grounds over which SPB has authority. Under the provisions of the bill, the new fund would be composed of money transferred or appropriated to the fund by the legislature; money transferred to the fund from former Capital Renewal Trust Fund, Governor's Mansion Renewal Trust Fund, and State Cemetery Preservation Trust Fund; certain gifts, grants, and donations; and returns received from investment of money in the fund.

TTSTC would be required to hold, manage, and invest the fund and determine the amount available for distribution from the fund to SPB in accordance with a distribution policy adopted by the Comptroller. The expenses incurred from managing the fund and its assets would be paid from the fund.

The bill would direct SPB to spend at least one-third of the funds distributed on projects at the Bob Bullock Texas State History Museum, with the exception of funds transferred from the former Capital Renewal Trust Fund, Governor's Mansion Renewal Trust Fund, and State Cemetery Preservation Trust Fund. Distributed funds could be used to acquire land in close proximity to the State Cemetery, with the written approval of the Legislative Budget Board (LBB). Money in the fund could not be used to pay salaries, employee benefits, costs associated with employee benefits, or administration, operating, or program costs of SPB or the buildings and grounds over which the SPB has authority.

Methodology

The unexpended balances from the Capital Renewal Trust Fund would be transferred to the CPA for deposit into the new Texas State Buildings Preservation Endowment Fund outside the Treasury on September 1, 2024. The SPB reported in the agency's 2024-25 Legislative Appropriations Request (LAR), estimated beginning FY 2024 balances of \$2.6 million, which is assumed as the estimated transfer for purposes of this analysis.

The Governor's Mansion Renewal Trust Fund and the State Cemetery Preservation Trust Fund would be abolished, and the unexpended balances would be transferred to the CPA for deposit into the new Texas State Buildings Preservation Endowment Fund outside the Treasury on September 1, 2024. The SPB reported in the agency's 2024-25 LAR, estimated beginning FY 2024 balances of \$0.5 million and \$10.7 million, respectively, for the Mansion Renewal Trust Fund and the Cemetery Preservation Trust Fund, which are assumed as the estimated transfers for purposes of this analysis.

The combined transfers from the three affected funds to the new endowment fund is estimated to be \$13.8 million.

In addition, there would be an indeterminate cost if the Legislature were to appropriate funds to the endowment fund as well as future indeterminate gains to the endowment fund from returns on investments.

Note: This legislation would do one or more of the following: create or recreate a dedicated account in the General Revenue Fund, create or recreate a special or trust fund either in, with, or outside the Treasury, or create a dedicated revenue source. The fund, account, or revenue dedication included in this bill would be subject to funds consolidation review by the current Legislature.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
