Fiscal Analysis

The bill would amend the Occupations code to require the Texas Department of Housing and Community Affairs to adopt procedures for a development owner to prepare and submit to the department a documentation packet to obtain Form 8609 for the purpose of receiving an allocation of housing tax credits. The bill also allows the department to administer an administrative penalty if the department determines that a development owner intentionally provided incorrect or inconsistent information in a documentation packet submitted to the department.

In addition, the bill would require the department to prepare and submit quarterly to the legislature a written report that includes: the total number of submitted cost certification packets, the total number of Forms 8609 that the department issued in various timeframes ranging from less than 120 days to more than 180 days, a detailed statement of the reasons for the department's delay in issuing Form 8609 in the time required, including complete copies of any requests for information, the average time the department required for issuing Form 8609, the total number of rejected applications for Form 8609, and a detailed statement of the reason for the department's rejection of each application.

Methodology

The bill requires the department to issue Forms 8609 within 120 days of receiving the documentation packet. Due to the shortened time frame for issuing the form, the agency would require two additional Asset Managers positions (\$71,050 per year per FTE with estimated benefits of \$21,231 per FTE). Also included in the estimate are one-time startup technology costs of \$5,000 and annual costs of \$3,000 for general supplies.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
