Fiscal Analysis

The bill would transfer investigations of abuse, neglect, or exploitation of certain children receiving services or residents of certain facilities from the Department of Family and Protective Services (DFPS) to the Health and Human Services Commission (HHSC).

The bill would require the transfer of funding and resources from DFPS to HHSC to perform the functions required and amended by the bill no later than December 1, 2024.

The bill would take effect September 1, 2023

Methodology

It is assumed the transfer of funding and resources from DFPS to HHSC would have no net cost to General Revenue and are not reflected in the table above. It is assumed the transfer from DFPS to HHSC would take place beginning in fiscal year 2024, and include an estimated \$610,814 in All Funds in fiscal year 2024 and \$579,644 in All Funds in fiscal year 2025, including employee benefits. Amounts stated are primarily associated with the transfer of personnel, including 6.0 Protective Services Intake Specialist V full-time-equivalents (FTEs) per fiscal year to respond to calls related to the reporting of abuse and neglect, and 0.2 Program Specialist V FTEs per fiscal year for indirect agency functions. Amounts transferred or received in All Funds may vary based on actual transfers made between the agencies pursuant to Section 24 of the bill, or according to federal matching rates available to the state agencies to discontinue or perform the functions required by the bill.

According to DFPS, there would be one-time costs and personnel to account for the transfer of certain investigations required by the bill. These costs are primarily related to technology and are described in the section below.

It is assumed that HHSC can perform all other functions of the bill with existing resources.

Technology

Total technology costs are estimated to be \$267,871 in fiscal year 2024 and \$26,589 in fiscal year 2025. According to DFPS, there would be additional one-time costs to update the Information Management Protecting Adults and Children in Texas (IMPACT) and Statewide Intake (SWI) applications to account for the transfer of certain investigations required by the bill, and to transfer documentation. Costs reported are primarily related to updates to IMPACT.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
