## **Fiscal Analysis**

The bill would require the parental child safety placement (PCSP) agreement to automatically terminate on the earlier of the 30th day after either the date that the agreement is signed or the child is placed with the caregiver.

Lastly, the bill would require the Department of Family and Protective Services (DFPS) to include children who are placed with a caregiver under a PCSP agreement in any report and report the number of cases in which a court under Section 264.203 orders the parent, managing conservator, guardian, or other member of the child's household of a child who is placed with a caregiver under a PCSP to participate in services.

## **Methodology**

This analysis also assumes the need of 2.0 contracted full time equivalents in fiscal year 2024 to update the Information Management Protecting Adults and Children in Texas (IMPACT) system to allow for new reporting requirements. It is assumed 3,521 hours would be required to complete the IT changes.

This analysis is unable to determine how the restriction of the PCSPs to 60 days will affect the number of children entering DFPS conservatorship. After 60 days, DFPS would need to evaluate if the child could safely return home, or move forward with a legal removal if the risk has not been mitigated and immediate danger is still present.

## **Technology**

Included in estimated costs are \$340,908 in General Revenue Funds in fiscal year 2024 for technology modifications.

## **Local Government Impact**

No fiscal implication to units of local government is anticipated.
