2027	(\$1,050,147)	7.0
2028	(\$1,050,147)	7.0

Fiscal Analysis

The bill would require the Department of Public Safety (DPS) to establish and maintain a crime laboratory portal system to facilitate the process for requesting and publishing crime laboratory records and for transferring records among crime laboratories, attorneys representing the state and parties authorized to access the records, including defense counsel.

The bill would require participation by all crime laboratories.

The bill would take effect September 1, 2023.

Methodology

According to DPS, the Crime Laboratory Division (CLD) would require 7.0 FTE positions including 6.0 System Analysts and 1.0 Program Specialist to build requirements, solicit outside vendor bids for programming, and to coordinate with other forensic laboratories and stakeholders to establish and administer the portal. This analysis includes \$553,052 in General Revenue each fiscal year for salary and benefits.

Other costs including consumable supplies, utilities, and capital expenditures total \$1,969,082 in fiscal year 2024. This includes a onetime capital expenditure of \$1,750,000 to implement the portal and update the CLD's existing records management system. Other costs total \$147,095 in fiscal year 2025.

According to the Office of Court Administration, any costs to the agency associated with the bill could be absorbed using existing resources.

Technology

According to DPS, \$1,750,000 in onetime funding in fiscal year 2024 would be needed to implement the portal and make changes to the CLD's existing records management system to participate in the portal. This estimate is based on systems implemented of similar size and scope by other DPS divisions. Maintenance and support costs are estimated to be \$350,000 each fiscal year beginning in fiscal year 2026.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
