Self - Retired
Georgetown, TX

Dear Representatives,

I urge you to vote for HB 1181 in an effort to protect children from pornography on the internet.

I also recommend that you amend the bill to apply to children under the age of 18, instead of 13. It is not appropriate for children under the age of 18 to view pornographic material. It is especially demeaning to girls, who tend to be objectified and even assaulted in this type of material.

How can we expect children to become responsible adults who treat others with respect if we allow them to watch content that is prurient, demeaning or worse?

Please stand up for the children of Texas and support HB 1181.

Thank you for your consideration.

Joy Davis
Pure Justice
Houston, TX

To The Honorable State Representatives,

My name is Joy Davis and I am the organizer for Pure Justice. We are in support of this bill. Implicit bias training is important for justices and judges of state courts, judicial officers, certain court personnel, and attorneys licensed to practice law in this state. because it helps them to recognize and address any unconscious biases they may hold that could impact their decision-making. Judges and anyone with the important tasks of working in the criminal justice system are tasked with making fair and impartial decisions based on the law and evidence presented in court. However, research has shown that even well-intentioned individuals can hold implicit biases that affect their judgements and actions. By undergoing implicit bias training, they can become more aware of their own biases and develop strategies to mitigate their impact on their decision making. This can help to ensure that their decisions are based solely on the facts of the case and the law, rather than on any personal biases or prejudices. By demonstration a commitment to fairness and impartiality judges can also help to create a more just and equitable society.

I oppose HB1627 because it is a racist bill that favors one race over another. CRT is a Marxist concept and it antithetical to equal treatment under the law.

Sherry Eller
