We like the consumer protections put in place with this bill. However, we'd like to see Section 2311.0206 (a) removed. We want these provisions to be put in place, not have the whole program exempted. Oftentimes lobby groups (the ones being regulated) can put pressure on the Commission to exempt or disband the program once the legislature's gone home. The point is to ensure these charging stations work when the consumer needs them to. Drivers need reliability. So let's remove their get out of jail free card, so to speak.
