I OPPOSE hb 4070. Current law requires certain information about human trafficking to be posted in public and private schools. this bill removes private schools from that requirement. the narrative that parent rights and transparency are the big push to financially support private schools this is completely hypocritical and dangerous for children who attend private schools.

As posted on-line, this bill lacks substance, It has an introduction and a conclusion, but no substance in the middle. What is to be posted? The bill should be amended to provide specific details so that schools know what is expected of them.

Oppose removing private school from the posting requirements related to trafficking of persons, online solicitation of a minor, and prostitution and to the dissemination of certain information. Perfect example is the child abuse that has occurred for over 50 years in the TX Catholic Church youth programs.
