We all know Harris, Bexar and other counties miserably failed to follow election law and procedure. Pass this legislation so We The People can hold these rogue counties accountable!

Elections information must be subject to a FOIA request. Unfortunately, some Election Administrators hold back information. What are they trying to hide? Elections NEEDS to have transparency!

We are for this bill. Please vote for it. This bill will make certain that election records can be obtained even if the election is in litigation. This will prevent some parties from hiding behind the lawsuits to prevent the release of needed information and transparency around elections.

I support this Bill! The public has a right to know how an election is processed, how mail in ballots were processed, who processed them, and if the law was followed in processing the ballots. If there is nothing to hide in an election, then the information should be shown.

Please pass SB 1910. Elections information must be subject to a personal information request. We have seen bills that attempt to label PIR's as "vexatious requesters" due to too many PIR's. If PIR's are causing too much paperwork for clerks then make the information available for download instead of having to submit a PIR to get election data that should be transparently available to the public. This would be a much better alternative to penalizing Texans for submitting PIR's for information that should already be readily available to the public without a PIR.

SUPPORT 1910

Election records should be under the public information law. Evidently recent elections had called for those records and were denied access. Again, we have to create more laws to enforce laws that are already on the books. Obviously some have used the absence of the myriad of examples of public records to assume some records could be excluded. Not so! So here we go, trying to add more detail. Common sense is not so common anymore.
