Texas needs to be prepared for potential threats and strains on our electric grid. We have a surplus in the budget. Please put some of those dollars to critical use in shoring up our grid. To fail to do so could be catastrophic. Thank you.

I whole-heartedly support "...a constitutional amendment providing for the creation of the Texas energy fund and the authorization of other funding mechanisms to support the construction, maintenance, and modernization of electric generating facilities," because it is necessary to insure Texans are never 'left out in the cold' again.
