Qualifying judgments, as used in this rider, are judgments that are at least one year old from the date of entry of the court order and also include debts not reduced to judgment where there are collections on the debt by the Collections Division of the Office of the Attorney General if the debt is delinquent by more than one year or has been certified for collection to the Collections Division of the Office of the Attorney General. 3. **Updated Actuarial Valuation.** The Employees Retirement System shall contract with an actuary to perform a limited actuarial valuation of the assets and liabilities of the Employees Retirement System as of February 28 in those years when the Legislature meets in regular session. The purpose of the valuation shall be to determine the effect of investment, salary, and payroll experience on the unfunded liability, the amortization period, and the state contribution rate, which results in a 30-year amortization period of the Retirement System.

4. **State Contribution to Employees Retirement Program.** The amount specified above in A.1.1, ERS Retirement Program, is based on a state contribution of 9.5 percent of payroll for each fiscal year of the 2024-25 biennium, including annual membership fees of $3 for contributing members for each fiscal year. Included in appropriations made in this Act is a total of $794,680,908 in fiscal year 2024 and $846,946,995 in fiscal year 2025 for the ERS Retirement Program.

5. **State Contribution to the Law Enforcement and Custodial Officer Supplemental Retirement Fund (LECOS).** The amount specified above in A.1.2, LECOS Retirement Program, is based on 1.75 percent of covered payroll each fiscal year of the 2024-25 biennium for LECOS members.

6. **State Contribution to Judicial Retirement Program (JRS-2).** The amount specified above in A.1.3, Judicial Retirement System - Plan 2, is based on a state contribution of 19.25 percent of payroll for each fiscal year of the 2024-25 biennium for contributing members.

7. **State Contribution to Group Insurance for General State Employees.** Funds identified above for group insurance are intended to fund:

   a. the total cost of the basic life and health coverage for all active and retired employees;

   b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children; and

   c. the incentive program to waive participation in the Group Benefits Plan (Opt-Out).

   In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

   During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees, subject to any adjustment required by statute, enrolled for coverage during that month.

For each employee or retiree that waives participation in the Group Benefit Program and enrolls in allowable optional coverage, the Employees Retirement System shall receive $60 per month in lieu of the "employee-only" state contribution amount, and such amounts are included above in Strategy B.1.1, Group Benefits Program. The waived participant may apply up to $60 per month towards the cost of the optional coverage.

Each year, upon adoption of group insurance rates by the Board of Trustees, the Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2024-25 biennium.

8. **Excess Benefit Arrangement Account.** There is hereby appropriated to the Employees Retirement System all funds transferred or deposited into the Excess Benefit Arrangement Account established in the General Revenue-Dedicated Account No. 5039, for the purpose of paying benefits as authorized by Government Code, §815.5072.

9. **Transfer of Retirement Contributions and Group Insurance.** Appropriations made in this and other articles of this Act for Retirement and Group Insurance contributions shall be transferred by each agency from the Employees Retirement System to the agency based on estimated amounts by funding source for each fiscal year. Transfers should be made no later than September 15 of the year in which the payments are to be made. Adjustments and return of excess appropriation authority to the Employees Retirement System shall be completed by October 30 of the subsequent fiscal year.

10. **Federal Funds for Medicare Part D Prescription Drug Program.** The Employees Retirement System (ERS) is hereby authorized to receive employer reimbursements of all federal funds applicable to Medicare Part D prescription drug reimbursement relating to benefits administered by ERS. Any federal funds received by ERS shall be deposited to the Employees Life, Accident and Health Insurance and Benefits Fund No. 973, or to such fund as established by the Legislature or the State Comptroller of Public Accounts to pay health claims for retired employees.

11. **Appropriations for the Deferred Compensation Trust Fund and the TexaSaver Trust Fund.** All money deposited into the Deferred Compensation Trust Fund, Employees Retirement System No. 0945 and the TexaSaver Trust Fund No. 0946 pursuant to Government Code, §609.512 are hereby appropriated to the system for the 2024-25 biennium for the purposes authorized by law.

12. **Tobacco User Monthly Premium Fee.** The Employees Retirement System, pursuant to the provisions of Insurance Code, §1551.3075, shall automatically apply a $30 monthly tobacco user fee to any individual aged 18 or older covered under the state health plan unless the individual, during the individual's enrollment period, certifies that the individual does not use tobacco products. The Comptroller of Public Accounts shall deposit revenue from the fee (estimated to be $10,917,405 in each year of the 2024-25 biennium) into the Employees Life, Accident, Health Insurance and Benefits Trust Account.

13. **Notification of Contracts Greater than $10 Million.** It is the intent of the Legislature that the agency shall submit notice to the Legislative Budget Board at least ten business days prior to issuing a request for proposals for a contract, as defined in Article IX, Section 7.04 of this Act, with a value reasonably expected to exceed $10 million. The notice shall be provided consistent with the agency's fiduciary duties. The notice shall be provided on a form prescribed by the Legislative Budget Board. The notice shall include:

    a. a brief description of the request for proposals; and

    b. criteria that will be evaluated, as identified in the request for proposals.

    Additionally, the notice shall provide the following if ERS' processes have changed substantially from the prior request for proposals subject to this notice provision:

    a. an explanation of the agency's evaluation process;

    b. guidelines for evaluators;

c. methodology for evaluating additional factors not anticipated during planning; and

d. methods for verifying the mathematical accuracy of the evaluation.

In addition to the requirements of this rider, the agency shall comply with all reporting requirements under Article IX, Sec. 7.11, Notification of Certain Purchases or Contract Awards, Amendments, and Extensions, of this Act.

14. **Health Clinic at a State Agency or Institution of Higher Education.** Out of appropriations made in this and other articles of this Act for the Group Benefits Program, the board of trustees may operate or contract with a person to operate an onsite, or near-site, health clinic at a state agency or institution of higher education. The board may only operate or contract for a clinic if the board determines that:

    a. the clinic can be operated on a cost-neutral or cost-positive basis to the health plan;

    b. there is sufficient health plan participation in the area where the proposed clinic will operate; and

    c. no funds will be spent by the board for the cost of acquiring or building the clinic, capital expenses, or acquiring equipment.

15. **Health Related Institutions Savings.** It is the intent of the legislature that the HealthSelect of Texas network administered under the Employees Retirement System of Texas Group Benefits Program shall maintain competitive and favorable contracted provider rates with Health Related Institutions receiving appropriations under this Act. The Employees Retirement System may initiate and continue innovative value-based plan design models and partnerships with Health Related Institutions.

16. **Right to Shop Incentive.** It is the intent of the Legislature that the Employees Retirement System incentivize participants to shop for lower cost care within the health plan in order to achieve shared savings. In accordance with existing laws, the agency may contract with one or more third-party vendors for this purpose.

17. **Public Safety Death Benefits.** Notwithstanding the transfer provisions contained in Article IX of this Act, the Employees Retirement System is prohibited from transferring appropriated funds from Strategy A.1.5, Public Safety Death Benefits to other strategies.

18. **Analysis of High-Cost Hospital Claims.** It is the intent of the legislature that the Employees Retirement System (ERS) engage a third party vendor to analyze high cost hospital claims in fiscal year 2022 in order to determine any potential cost savings that could be realized through a review of claims over $100,000 using itemized charges and medical records of United States physicians and medical records. ERS shall provide a report on the findings of the analysis to members of the Senate Finance and Health and Human Services committees, the members of the House Appropriations and Insurance committees, the Legislative Budget Board, and the Governor no later than September 1, 2024.

Any General Revenue saved by this swap shall not be expended by DIR without prior written approval from the Legislative Budget Board (LBB) for similar purposes. (g) The Comptroller may prescribe accounting procedures and regulations to implement this section.

(h) The reimbursement requirements established by this section may be waived or delayed, either in whole or in part, by the Legislative Budget Board.

(i) DIR shall coordinate with the Legislative Budget Board on development of a methodology to implement this section and a methodology to determine the source of funds used for agencies' payments which are directly remitted to vendors for information technology and telecommunications products and services.

(j) DIR shall require participating agencies to provide to DIR, and those agencies shall submit to DIR, information regarding the specific funding sources from which agencies pay administrative costs charged for the use of DIR's telecommunications and/or data center services respectively and as applicable.

"Other direct and indirect costs" for these programs are estimated to be $3,790,737 for fiscal year 2024 and $3,799,886 for fiscal year 2025.

   (a) This requirement shall apply to revenues generated in the following strategies and deposited under the following revenue codes or account numbers.

Strategy	**Revenue Code or Account**
C.1.1. Food (Meat) & Drug Safety	Fees deposited into General Revenue to support C.1.1, Food (Meat) and Drug Safety, including fees deposited under the following Revenue Codes: 3142 (Food Service Worker Training); 3180 (Health Regulation Fees, for Tattoo/Body Piercing Studios); 3400 (Business Fees-Agriculture, for Milk Products); 3414 (Agriculture Inspection Fees, for Meat or Meat Products); 3554 (Food and Drug Fees, for Frozen Dessert Manufacture).

Fees deposited into General Revenue to support C.1.3, Radiation Control, including fees deposited under the following Revenue Codes: 3589 (Radioactive Materials and Devices for Equipment Regulation).

(b) Appropriations made to DSHS in this Act are contingent upon DSHS assessing fees sufficient to generate revenue to cover the General Revenue appropriations for the programs listed under Subsection a above as well as the related "other direct and indirect costs." In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

4. **Immunization of Employees.** Monies appropriated above to the Department of State Health Services may be expended for any immunization which is required of employees at risk in the performance of their duties.

5. **Texas.Gov Authority Appropriation.**

(a) The Department of State Health Services (DSHS) is authorized in accordance with Section 2054.252 of the Government Code to increase the occupational license, permit, and registration fees imposed on licensees by an amount sufficient to cover the cost of the subscription fee charged by the Texas.Gov Authority.

(b) Amounts appropriated above to DSHS include $706,128 in each fiscal year in revenue collected for license and certification fees in Strategy C.1.4, Texas.Gov, for the purpose of paying Texas.Gov subscription fees.

(c) In the event that actual and/or projected revenue collections from fee increases to cover the cost of Texas.Gov subscription fees are insufficient to offset the costs identified above, the Comptroller is directed to reduce the appropriation authority provided by this Act to DSHS to be within the amount of fee revenue expected to be available.

(d) For new licensing applications, DSHS is appropriated the additional revenue generated from occupational license, permit, or registration fees in excess of the Comptroller's biennial revenue estimate for the 2024-25 biennium for the sole purpose of payment to the Texas.Gov Authority contractor of subscription fees for implementing and maintaining electronic services for the department. DSHS, upon completion of necessary actions to access or increase fees, shall furnish an annual schedule of the number of license issuances or renewals and associated annual fee total, and any other supporting documentation to the Comptroller and the Legislative Budget Board. If the Comptroller finds the information sufficient to support the projection of increased revenues, a notification letter will be issued and the contingent appropriation made available for the intended purposes.

(e) DSHS shall notify the Legislative Budget Board and the Comptroller of Public Accounts in writing upon receiving an exemption from participating in Texas.Gov. Within 45 days of receiving an exemption, DSHS shall provide the Legislative Budget Board and the Comptroller with a report of the effective date, the reason for exemption, and all estimated expenditures for Texas.Gov costs in the fiscal year in which the exemption is made.

6. **Collection of Emergency Room Data.** Out of funds appropriated in Strategy A.1.5, Health Data and Statistics, the Department of State Health Services (DSHS) shall collect emergency room data as set forth in Chapter 108 of the Health and Safety Code. An appropriation is limited to revenue generated in fiscal year 2024 or fiscal year 2025 and does not include any balances that have accrued in the account or revenue object code.

   By March 1st of each year, DSHS may notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that DSHS projects will be received in excess of the amounts contained in the BRE for each of the accounts listed below, along with sufficient information to reflect how the estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenue, a finding of fact to that effect shall be issued to reflect the additional revenue available for each account.

3. **Cash Basis Expenditures Authorization.** Notwithstanding any other provision of this Act, the Health and Human Services Commission may expend Medicaid appropriations in all Strategies in Goal A, Medicaid Client Services, and in Strategy D.1.3, ECI Services, in each fiscal year without regard to date of service. The authorization is limited to expenditures in all Strategies in Goal A, Medicaid Client Services, and in Strategy D.1.3, ECI Services, for claims payments, premiums, cost settlements and other related expenses for Medicaid client services.

4. **Cost Comparison Report.** Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission (HHSC) shall develop a report analyzing state and federally-funded residential and nonresidential services in the Home and Community-based Services (HCS) waiver program, the Texas Home Living waiver program, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

(a) The report shall include the following:

(1) the monthly average cost to the state per person for individuals residing in state-operated and non-state-operated ICFs/IID, HCS waiver program, and Texas Home Living waiver program by Level of Need (LON) and facility size (private ICFs/IID only);

(2) a comparison of severity across settings; and

(3) the total number of persons, by LON, who transitioned from state-operated ICFs/IID to the HCS residential waiver program for the previous biennium, and their average monthly cost of service in the HCS waiver program.

(b) With respect to the cost to the state per person residing in a state-operated ICF/IID, HHSC shall include all costs, such as Statewide Cost Allocation Plan (SWCAP), maintenance and construction costs, employee benefit costs and other federally allowable administrative, medical, and overhead costs. With respect to the cost to the state per person in state-operated ICFs/IID, non-state-operated ICFs/IID, and the HCS and Texas Home Living waivers, HHSC shall include all Medicaid costs including acute care costs that are not included in the waiver rates for those programs and all costs to administer and license those programs. For state-operated ICFs/IID, the average monthly administrative and overhead costs shall be reported separately from the average monthly client care costs. HHSC shall identify the types of costs included in each category.

(c) Cost for waiver recipients will cover the time a person enrolled in the waiver through the time they are terminated from waiver services. The cost for ICF/IID services will cover the time a person is admitted to the facility to the time of discharge unless the person is admitted to an ICF/IID or waiver within 60 days of discharge. In that case, the Medicaid costs incurred during discharge will be counted toward the ICF/IID costs.

The report shall be submitted to the Legislative Budget Board and the Office of the Governor, and shall be posted on the Commission's website no later than August 31, 2024.

5. **Graduate Medical Education.** The Health and Human Services Commission (HHSC) may expend Appropriated Receipts - Match for Medicaid No. 8062 and matching Medicaid Federal Funds appropriated in Strategy A.4.1, Non-Full Benefit Payments, for Graduate Medical Education (GME) payments to state-owned teaching hospitals, contingent upon receipt of allowable funds from state-owned teaching hospitals to be used as the non-federal share for Medicaid GME. Transfers from state-owned teaching hospitals deposited as Appropriated Receipts - Match for Medicaid No. 8062 and expended in Strategy A.4.1, Non-Full Benefit Payments, shall be the only source of funds used for the non-federal share for Medicaid GME payments for state-owned teaching hospitals, and HHSC shall develop a payment methodology for Medicaid GME payments to state-owned teaching hospitals.

Strategic direction includes, but is not limited to, review of contract terms prior to execution of a new contract or amendment and reports from third-party quality assurance and independent verification and validation vendors. The Executive Commissioner or his or her designee shall chair the MES Executive Steering Committee. Membership of the MES Executive Steering Committee shall include similar executive level representatives, including the Chief Financial Officer, Information Resource Manager, technology sponsors, project managers, project contractors, staff of the Legislative Budget Board, and members of the Quality Assurance Team or their designee.

In addition, the MES Executive Steering Committee shall report any anticipated contract or project cost over-runs or delays to the Legislative Budget Board.

Notwithstanding the limitations of Article IX, Section 14.03, Transfers - Capital Budget, and any other transfer provisions of this Act, funds appropriated by this Act to the Health and Human Services Commission may not be expended in excess of the amounts identified in Rider 2, Capital Budget, for the MMIS capital budget project without prior written approval from the Legislative

Budget Board. Additional information requested by the Legislative Budget Board related to this approval shall be provided in a timely manner and shall be prepared in a format specified by the Legislative Budget Board. (ii) supporting documentation, including the person's medical and service records.

(b) Out of funds appropriated above in Goal A, Medicaid Client Services, for the waiver programs identified in Subsection (a) above, and subject to the terms of Subsection (c) below, HHSC may use General Revenue Funds to continue to provide services to a person who was receiving medical assistance waiver program services on September 1, 2005, at a cost that exceeded the individual cost limit specified in the medical assistance waiver program if:

(1) federal financial participation is not available to pay for such services; and

(2) continuation of those services is necessary for the person to live in the most integrated setting appropriate to the needs of the person.

(c) Authority provided in this rider is contingent upon HHSC submitting a report in writing to the Legislative Budget Board and the Office of the Governor on October 1 of each year. The report shall include the number of clients by program which exceeds cost limits and the unmatched General Revenue associated with each by fiscal year.

other state directed payment programs, supplemental, or other payments where the source of the non-federal share is intergovernmental transfers (IGTs) or certified public expenditures (CPEs), and any successor programs.

(a) HHSC shall report quarterly:

(1) Prospective payment estimates, aligning estimated payments reporting with the CMS-37. The report will include a prospective certification that the requisite matching state and local funds are, or will be, available for the certified quarter. The quarterly financial report provides a statement of the state's Medicaid funding requirements for a certified quarter through summary data by each program; and

(2) Expenditures made in the previous quarter, aligning expenditure reporting with the CMS-64. The report will include actual expenditures allowable under state and federal requirements. (d) In an effort to maximize the receipt of federal Medicaid funding, HHSC is appropriated and may expend IGTs received as Appropriated Receipts-Match for Medicaid No. 8062 for the purpose of matching Medicaid Federal Funds for payments to Medicaid providers and to offset administrative costs for programs HHSC administers for other entities.

(e) From funds appropriated elsewhere in the Act, HHSC shall provide a copy of the annual independent audit conducted of DSH and UC in compliance with federal requirements. HHSC shall provide a report of the audit's findings annually by June 30 to the Office of the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, the Senate Finance Committee members, the House Appropriations Committee members, and the Legislative Budget Board.

(1) Any amounts of such transferred funds not required for these payments shall be deposited by HHSC to the General Revenue Fund as unappropriated revenue.

(i) Notwithstanding the limitations in Article IX, Section 14.03, Transfers - Capital Budget, and Rider 95, Limitations on Transfer Authority, HHSC is authorized to transfer from an existing capital budget item or non-capital budget item to a new capital budget item not present in the agency's bill pattern to implement an electronic data collection and storage tool for the collection of information to support monitoring of local funds used in the Medicaid program, provided that HHSC determines that the project is necessary to meet the state's responsibilities under the Special Terms and Conditions for the Healthcare Transformation and Quality Improvement Program 1115 waiver.

16. **Rural Labor and Delivery Medicaid Add-on Payment.** Included in amounts appropriated above to the Health and Human Services Commission (HHSC) in Strategy A.1.3, Pregnant Women, $12,373,629 in General Revenue and $19,119,444 in Federal Funds in fiscal year 2024 and $12,549,990 in General Revenue and $18,943,083 in Federal Funds in fiscal year 2025 for HHSC to provide a $1,500 Medicaid add-on payment for labor and delivery services provided by rural hospitals.

For purposes of this rider, rural hospitals are defined as (1) hospitals located in a county with 70,000 or fewer persons according to the 2020 U.S. Census; or (2) a hospital designated by Medicare as a Critical Access Hospital (CAH), a Sole Community Hospital (SCH), or a Rural Referral Center (RRC) that is not located in a Metropolitan Statistical Area (MSA); or (3) a hospital that has 100 or fewer beds, is designated by Medicare as a CAH, a SCH, or a RRC, and is located in an MSA.

17. **Federal Provider Enrollment and Screening Fee.** Included in amounts appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, is $603,861 in Other Funds - Appropriated Receipts Match for Medicaid No. 8062 in each fiscal year generated from Provider Enrollment and Screening Fees. For the purpose of this provision, Provider Screening and Enrollment Fees are defined as payments from medical providers and suppliers required by the U.S. Centers for Medicare and Medicaid Services as a condition for enrolling as a provider in the Medicaid and CHIP programs but collected and received by the Health and Human Services Commission (HHSC).

(a) Appropriations made above include all unexpended and unobligated balances of Provider Enrollment and Screening Fees remaining as of August 31, 2023, and receipts collected in fiscal years 2024 and 2025.

(b) In the event that revenue from Provider Enrollment and Screening Fees should be greater than the amounts identified in this provision, HHSC is appropriated and authorized to expend these receipts, subject to the following requirements:

(1) Amounts available shall be expended prior to utilization of any other appropriated funds required to support provider enrollment;

(2) Amounts collected shall also be used to fund applicable employee benefits pursuant to Article IX provisions elsewhere in this Act; and

(3) Any unused fee balances shall be disbursed to the federal government, as required by federal law.

18. Use of Certain Additional Medicaid Revenues. Included in amounts appropriated above in Strategy A.1.5, Children, is Medicaid Program Income No. 705 and in Strategy A.1.2, Disability-Related, is Cost Sharing-Medicaid Clients No. 8075.

(a) **Definitions.** For the purposes of this provision and appropriation authority:

(B) refunds/rebates received from the Medicaid claims payment contractor or other sources; and

(C) managed care experience rebates generated in accordance with contractual agreements with health maintenance organizations who participate in Medicaid managed care.

(2) Cost Sharing-Medicaid Clients No. 8075 is defined as all cost sharing revenues generated by Medicaid clients as authorized in Section 32.064 of the Human Resources Code. These revenues may include enrollment fees, deductibles, coinsurance, and portions of the managed care plan premiums.

(b) Medicaid Program Income No. 705 and Cost Sharing-Medicaid Clients No. 8075 shall be expended as a first source, and General Revenue shall be used as a second source, to support the Medicaid program. In the event that revenues should be greater than the amounts identified in the method of finance above as General Revenue Fund-Medicaid Program Income No. 705, or Cost Sharing-Medicaid Clients No. 8075, the commission is appropriated and authorized to expend these General Revenue Funds, subject to the following requirements:

(1) Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes; and

(2) In the event General Revenue has been expended prior to the receipt of program income or cost sharing revenues, the commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of program income or cost sharing revenue balances.

19. Interest List Reporting. Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission shall post the following information regarding the Home and Community-based Services, Community Living Assistance and Support Services, Deaf-Blind Multiple Disabilities, Texas Home Living, and Medically Dependent Children Program waivers and STAR+PLUS on the commission's website:

(g) the type of services persons may require, based on the services provided by the program in which the person is interested.

20. **Hospital Reimbursement.** Contingent upon federal approval, and to the extent allowed by law, no funds appropriated above for the payment of inpatient hospital fees and charges under the medical assistance program may be expended, except under a prospective payment methodology for all Medicaid inpatient claims, excluding state-owned teaching hospital Medicaid inpatient claims, that employs sound cost reimbursement principles and:

    (a) enhances the Health and Human Services Commission's ability to be a prudent purchaser of health care;

    (b) reflects costs that are allowable, reasonable and medically necessary to deliver health care services to the state's Medicaid population;

    (c) reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;

    (d) promotes and rewards increased efficiency in the operation of hospitals;

    (e) emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles; and

    (f) recognizes, through add-on payments or other methods, the unique needs of individual hospitals, including rural hospitals.

21. **Health and Human Services Cost Containment.** It is the intent of the Legislature that the Health and Human Services Commission (HHSC) shall develop and implement cost containment initiatives to achieve savings of at least $350,000,000 in General Revenue Funds for the 2024-25 biennium throughout the health and human services system. These initiatives shall include:

    (a) increasing fraud, waste, and abuse prevention and detection;

    (b) seeking to maximize federal flexibility under the Medicaid program,

    (c) achieving other programmatic and administrative efficiencies, and

    (d) savings from services identified in Rider 125, Emergency Telemedicine Services for Individuals with Intellectual and Developmental Disabilities.

    HHSC shall provide an annual report on the implementation of cost containment initiatives to the Legislative Budget Board by December 1. It is the intent of the legislature that HHSC shall achieve savings without adjusting amount, scope, or duration of services or otherwise negatively impacting access to care. It is the intent of the legislature that prior to making any changes, HHSC shall consider stakeholder input, including complying with any statutory requirements related to rulemaking and public hearings. This rider shall not be construed as limiting HHSC's ability to maximize federal flexibility under the Medicaid program, including federal flexibility that may impact amount, scope, or duration of services.

22. **Access to Federal Data Services Hub.** To the extent allowable under state and federal law and regulations, the Health and Human Services Commission (HHSC) shall request a consumer report containing employment and income information through the Centers for Medicare and Medicaid Services Federal Data Services Hub for Medicaid eligibility determinations and redeterminations in order to achieve cost savings, improve timeliness, and minimize fraud.

23. **Medicaid Provider Rate Increases.** It is the intent of the Legislature that, when Medicaid provider rates are increased as a result of a legislative appropriation, managed care organizations reimburse the full amount of the appropriated funds to providers, to the extent allowed by federal laws and regulations.

24. **COVID-19 Nursing Facility Add-on Rate.** Included in the appropriations above are the following amounts that are only available to the Health and Human Services Commission (HHSC) contingent on the conclusion of the federally-declared COVID-19 public health emergency (PHE):

(b) $29,569,937 in General Revenue and $44,577,347 in Federal Funds ($74,147,284 in All Funds) in fiscal year 2024 and $30,032,821 in General Revenue and $44,824,659 in Federal Funds ($74,857,480 in All Funds) in fiscal year 2025 in Strategy A.2.4, Nursing Facility Payments.

HHSC shall only expend the funds in Subsections (a) and (b) to maintain the emergency add-on reimbursement rate increase for nursing facilities originally implemented for the duration of the PHE. HHSC may not expend funds appropriated under this section for nursing facility services until the Temporary Rate Increases for COVID-19 Response for Nursing Facilities, which were implemented on April 1, 2020, are no longer in effect. HHSC may not expend funds appropriated for nursing facility services in Medicaid managed care in lieu of payments that are currently authorized by the Centers for Medicare and Medicaid Services for the Quality Improvement Payment Program; and HHSC may not expend funds appropriated for nursing facility services in Medicaid fee-for-service that would not result in receipt of Federal Funds.

To receive reimbursement rate increases appropriated under Subsections (a) and (b), nursing facilities must report to HHSC on their biennial cost report information regarding the use of these funds, as specified by HHSC, including information related to efforts to improve or maintain client care and quality of services.

25. **Patient Driven Payment Model for Nursing Facility Services.** Beginning on September 1, 2024, the Health and Human Services Commission (HHSC) must develop and implement a Texas version of the Patient Driven Payment Model (PDPM) methodology for the reimbursement of long-term stay nursing facility services in the Medicaid program to achieve improved care for long-term stay nursing facility services, excluding services provided by a pediatric care facility or any state-owned facilities.

It is the intent of the Legislature that reimbursement rates for nursing facility services should incentivize client care and quality of services over resource utilization and that nursing facilities participating in the Medicaid program should utilize reimbursement rate increases to improve staff-to-client ratios, staff training and education, and wages for direct care staff, as staffing is a primary and fundamental driver of client outcomes.

Included in appropriations above are the following amounts to implement the Nursing Facility PDPM:

(2) In order to receive reimbursement rate increases appropriated under Subsection (a), nursing facilities must report to HHSC on their biennial cost report information regarding the use of these funds, as specified by HHSC, including information related to efforts to improve or maintain client care and quality of services; and

(b) $1,877,800 in General Revenue and $5,633,400 in Federal Funds ($7,511,200 in All Funds) in fiscal year 2024 and $1,877,800 in General Revenue and $5,633,400 in Federal Funds

Funding shall be used to provide enhanced capacity for shelter services as well as legal, mental health, housing, and economic stability services for victims of family violence and to offer community education and prevention programming.

The Health and Human Services Commission (HHSC) shall make clear their process for the inclusion of prescription drugs in the Medicaid and Children's Health Insurance Programs. In maintaining the prescription drug inclusion process, HHSC shall ensure that the timeline for review, including initiation of drug review, clinical evaluation, rate setting, Legislative Budget Board notification, and making the product available, does not extend past the 90th day of receipt of the completed application for coverage on the Texas Drug Code Index. (a) At least 30 calendar days prior to entering a 'funds gone' status for contract claims with Family Planning Program (FPP) providers, the Health and Human Services Commission (HHSC) shall notify the Legislative Budget Board and the Governor's Office. The notification must include if there are sufficient funds available within other programs in Strategy D.1.1, Women's Health Programs, to transfer into FPP to cover all FPP client services. In the event that funds are not available within Strategy D.1.1, Women's Health Programs, HHSC shall transfer funding for FPP client services pursuant to section (b) of this rider.

(b) Notwithstanding the transfer limitations in Rider 95, Limitations on Transfer Authority: Article IX, Section 14.01, Appropriation Transfers; and any other transfer limitations in this Act, HHSC is authorized to transfer funds from Goal A, Medicaid Client Services, to Strategy D.1.1, Women's Health Programs, for client services if HHSC determines that there is a demand based on program utilization.

(c) Transfers under the authority in Subsection (b) of this rider may be made only for direct client services and shall not be made to increase administration of women's health programs.

(d) Authority granted by this rider to transfer funds is contingent upon a written notification from HHSC to the Legislative Budget Board and the Governor's Office within 30 calendar days of making a transfer.

No later than 30 days after the end of each fiscal quarter, HHSC shall post on its website:

(a) the total count of infants aged 0-3 years old that are newly eligible to receive services during the reporting period, the number of newly authorized infants who became enrolled in services, the total number of eligible individuals, the total number enrolled, the number of service delivery hours provided to enrolled individuals, and the total number of ECI clients who aged out of the program; and

(b) a comparison of actual performance on each ECI performance measure included in the General Appropriations Act to the targeted performance included in that Act.

No later than September 1 of every even numbered year, HHSC shall provide a biennial report which:

HHSC shall only prepare and submit the Medicaid state plan amendment if HHSC determines that the 10.0 percent state match General Revenue cost of providing health home services would be offset by reductions in other Medicaid spending.

149. Institutions of Mental Disease Exclusion Waiver. Out of funds appropriated above, the Health and Human Services Commission (HHSC) shall prepare and submit an application to the Centers for Medicare and Medicaid Services (CMS) for approval of a Section 1115 Demonstration Waiver in order to receive federal financial participation for services furnished to Medicaid-eligible individuals in psychiatric hospitals or residential treatment settings that qualify as institutions of mental disease.

150. Maternal Health Deserts Report. Out of funds appropriated above, the Health and Human Services Commission (HHSC) shall study statewide access to maternity care. HHSC shall identify counties where access to maternity health care is absent or limited, provide detail on what services are provided, and make recommendations to improve access. In counties where access to maternity care is limited, HHSC shall assess the impact on maternal health outcomes and identify preventable outcomes related to severe maternal morbidity. HHSC shall include in their assessment the rate of maternal mortality and morbidity in counties with limited access to maternal care and make recommendations to reduce the prevalence of maternal mortality and morbidity within these counties. For the purposes of this study, a maternal health desert is any county with limited access to maternal care or is a county without a hospital, birth center, or clinic offering obstetric care or without any obstetric providers. Limited access to appropriate preventive, prenatal, and postpartum care is defined as a county with one or fewer hospitals or birth centers that provide obstetric care, few obstetric providers (fewer than 60 per 10,000 births), or a high proportion of women without health insurance (10 percent or more).

(a) **Authority provided.** Agencies listed in Article II of this Act are authorized to pay the following salary differentials to personnel identified in Subsection (b):

(1) an evening or night shift salary differential, not to exceed 15 percent of the monthly pay rate, to personnel who work the 3:00 p.m. to 11:00 p.m. or the 11:00 p.m. to 7:00 a.m. shift or the equivalent; and

(2) a weekend shift salary differential, not to exceed 5 percent of the monthly pay rate, to persons who work weekend shifts.

The evening or night shift salary differential may be paid in addition to the weekend shift salary differential for persons working evening or night shifts on the weekend.

(b) **Eligible personnel.** The authority provided in Subsection (a) applies to the following personnel:

(1) clinical, testing, and support personnel at the Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS);

(2) data processing or printing operations personnel at HHSC, DSHS, and the Department of Family and Protective Services (DFPS); and

(3) Statewide Intake personnel at DFPS.

Sec. 3. Services to Employees. The Department of State Health Services, Department of Family and Protective Services and Health and Human Services Commission may expend funds for the provision of first aid or other minor medical attention for employees injured in the course and scope of their employment and for the repair and/or replacement of employees' items of personal property which are damaged or destroyed in the course and scope of their employment so long as such items are medically prescribed equipment. Expenditures for such equipment may not exceed $500 per employee per incident.

Sec. 4. Federal Match Assumptions and Limitations on Use of Available General Revenue Funds.

(a) **Federal Match Assumptions.** The following percentages reflect federal match assumptions used in Article II of this Act.

Federal Medical Assistance Percentage (FMAP)

	2024	2025
Federal Fiscal Year	60.15%	59.85%
State Fiscal Year	60.13%	59.88%

Enhanced Federal Medical Assistance Percentage (EFMAP)

	2024	2025
Federal Fiscal Year	72.11%	71.90%
State Fiscal Year	72.09%	71.91%

(b) **Enhanced Match Assumptions and Reporting.** Health and human services agencies listed in Article II of this Act shall submit to the Legislative Budget Board and the Governor the monthly number of clients receiving services eligible for any enhanced federal match as well as the amount of eligible expenditures subject to an enhanced match, by strategy. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board. For purposes of this section, enhanced federal matches are defined as an increase to the usual matching rate (regardless of what the usual match is) that are, or become, available under Medicaid or another federally-matched program. Enhanced federal matches include, but are not limited to, those made available through the Money Follows the Person demonstration and the Community First Choice Program. Whether or not a match meets the definition of enhanced federal match for purposes of this section will be at the discretion of the Legislative Budget Board.

Any other Article II agency is still subject to the requirements of Subsections (b) and (c) of this provision if any agency expenditures receive an enhanced federal match.

(c) **Limitations on Use of Available General Revenue Funds.** Notwithstanding the limitations of Article IX, Section 13.02(a), in the event the actual FMAP and EFMAP should be greater than shown in subsection (a), or the amount of increased Federal Funds and reduced General Revenue Funds due to enhanced matches should be greater than shown in Subsection (b), or if any other matching rate becomes more favorable than the rate assumed in the General Appropriations Act, the health and human services agencies in Article II of this Act are authorized to expend the General Revenue Funds thereby made available only with the prior written approval of the Legislative Budget Board and Governor.

To request approval to expend available General Revenue Funds, an agency shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information, by fiscal year:

(1) a detailed explanation of the proposed use(s) of the available General Revenue Funds and whether the expenditure(s) will be one-time or ongoing;

(2) the amount available by strategy;

(3) the strategy(ies) in which the funds will be expended and the associated amounts, including any matching Federal Funds;

(4) an estimate of performance levels and, where relevant, a comparison to targets included in this Act; and

(5) the capital budget and/or full-time equivalent impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the expenditure of General Revenue Funds made available if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 5. Attorney General Representation. The Attorney General and the respective head of the Health and Human Services Commission or a health and human services agency listed in Article II of this Act are authorized to use the funds appropriated above to jointly select one or more Assistant Attorneys General to be assigned to the respective agency.

Sec. 6. Limitations on Transfer Authority. Notwithstanding the limitations of Article IX, Section 14.01, Appropriation Transfers, of this Act, the Executive Commissioner of the Health and Human Services Commission is authorized to make transfers of funding and full-time equivalents (FTEs) between all health and human services agencies listed in Article II of this Act, subject to the following requirements. Transfers that exceed $1,000,000 in General Revenue or FTE adjustments of more than 10.0 FTEs are subject to the prior written approval of the Legislative Budget Board and the Governor.

Transfers below these thresholds require written notification to the Legislative Budget Board and Governor within 30 days of the transfer. The total of all transfers from a strategy may not exceed $1,000,000 without the prior written approval of the Legislative Budget Board and the Governor.

To request a transfer, the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

(a) a detailed explanation of the purpose(s) of the transfer, including the following:

(1) a description of each initiative with funding and FTE information by fiscal year; and

(2) an indication of whether the expenditure will be one-time or ongoing;

(b) the names of the originating and receiving agencies and/or strategies and the method of financing and FTEs for each strategy by fiscal year;

(c) an estimate of performance levels and, where relevant, a comparison to targets included in this Act for both the originating and the receiving agencies and/or strategies; and

(d) the capital budget impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

In the case of disaster or other emergency, this provision is superseded by the emergency-related transfer authority in Article IX of this Act.

Sec. 11. Appropriation of Receipts: Damages and Penalties. Included in amounts appropriated by this Act are the following:

(a) $585,363 in Other Funds (Appropriated Receipts) in each fiscal year in Health and Human Services Commission (HHSC) Strategy H.1.1, Health Care Facilities & Community-based Regulation, collected pursuant to Human Resources Code Section 32.021. Any amount collected above this amount is to be applied to the protection of health and property of residents in nursing facilities in accordance with 42 U.S. Code Section 1396r(h)(2)(a)(ii) and Human Resources Code Section 32.021(g) subject to the approval of the Centers for Medicare and Medicaid Services; and

(b) $390,000 in General Revenue in each fiscal year in Department of State Health Services (DSHS) Strategy C.1.1, Food (Meat) and Drug Safety, contingent upon the collection of civil penalties under Health and Safety Code Section 431.0585. Any amounts collected above this amount are appropriated to DSHS in amounts equal to the costs of the investigation and collection proceedings conducted under Health and Safety Code Section 431.0585, and any amounts collected as reimbursement for claims paid by the agency. In the event that actual and/or projected revenue collections are insufficient to offset the appropriations identified in this subsection, the Comptroller of Public Accounts is directed to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

Sec. 12. Rate Limitations and Reporting Requirements. Notwithstanding other provisions of this Act, the use of appropriated funds for a rate paid by the Health and Human Services Commission (HHSC) or the Department of State Health Services (DSHS) shall be governed by the specific limitations included in this provision.

For purposes of this provision, "rate" is defined to include all provider reimbursements (regardless of methodology), including for medications, that account for significant expenditures. "Fiscal impact" is defined as an increase in expenditures due to either a rate change or establishment of a new rate, including the impact on all affected programs. Additionally, estimates of fiscal impacts should be based

on the most current caseload forecast submitted by HHSC pursuant to other provisions in this Act and should specify method-of-financing. Fiscal estimates that impact multiple risk groups may be reported at an aggregate level and acute care services may be reported by rate category.

(a) **Notification of Change to Managed Care Rates**.

(1) Within seven calendar days of the establishment of preliminary premium rates for managed care organizations (MCOs) contracting with HHSC, the Executive Commissioner of HHSC shall submit the following information in writing to the Legislative Budget Board, the Governor, and the State Auditor:

(i) a schedule showing the previous fiscal year's rate and the proposed rate, which should include information on the rate basis for the MCO reimbursements to providers;

(ii) a schedule and description of the rate-setting process for all rates listed for subsection (1), which should include:

(a) a thorough explanation of all formulas and rounding methodologies used in the rate setting process;

(b) identification of any claims excluded from the data in calculating rates;

(c) reasoning and basis for all trends used in the rate-setting process, including an analysis of any regional or plan-specific trends that cause the overall statewide trend to increase by more than one percent and a justification for assuming those trends will continue;

(d) all analyses conducted by the Data Analysis Unit (established pursuant to Government Code Section 531.0082) that are pertinent to the rate-setting process; and

(e) all documentation submitted to the Centers for Medicare and Medicaid Services (CMS) pursuant to 42 C.F.R. Section 438.7.

(iii) an estimate of the fiscal impact, by agency, method-of-financing, and fiscal year, for each rate change listed for Subsection (1).

(2) The Executive Commissioner of HHSC shall submit all available information identified in Subsection (1) if the preliminary rates are changed and shall also submit the reason for these changes. The Executive Commissioner of HHSC shall submit the final proposed rates along with the information listed in Subsection (1) no later than 45 calendar days prior to implementation.

(3) Within seven days of the submission requirements listed above in Subsections (i) through (iii) for final proposed rates, the Executive Commissioner of HHSC shall submit a schedule identifying an estimate of the amount by which expenditures at such rate levels would exceed appropriated funding, by method-of-financing.

(b) **Orphan Drug Notification.** HHSC shall provide notification of a new or increased rate for an orphan drug within 60 calendar days following the addition of the drug as a payable benefit if managed care capitation rates are to be adjusted or the annual fiscal impact to fee-for-service expenditures is expected to exceed $500,000 in General Revenue Funds. HHSC may allocate expenses between fee-for-service and managed care using a methodology that reflects the anticipated distribution of the client population eligible for the drug. An orphan drug must meet criteria specified in the federal Orphan Drug Act and regulations at 21 C.F.R. Section 316, and be required to be covered by the Medicaid program under federal law. With the notification, HHSC shall provide the fiscal impact by fiscal year and method-of-financing, the amount of drug rebates projected, and an estimate of the population to be served.

(c) **Semi-Annual Notification.** With the exception of statutorily required pricing updates on oral medications, HHSC shall provide notice on October 1 and April 1 of changed rates for:

(1) new procedure codes required to conform to Federal Healthcare Common Procedure Coding System (HCPCS) updates;

(2) revised rates occurring as a result of a regularly scheduled rate review;

(3) any rate change or new rate for which managed care capitation rates will not be adjusted and estimated to have an annual fiscal impact of less than $500,000 in General Revenue Funds; and

(4) any orphan drug not subject to the requirements of subsection (b).

(d) **Limitation on Rates that Exceed Appropriated Funding**. With the exception of those rates specified in Subsections (b) or (c), HHSC and DSHS may not pay a rate that would result in expenditures that exceed, in any fiscal year, the amounts appropriated by this Act to a strategy for the services to which the rate applies without the prior written approval of the Legislative Budget Board and the Governor.

To request authorization for such a rate, the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

(1) a list of each new rate and/or the existing rate and the proposed changed rate; and

(2) an estimate of the fiscal impacts of the new rate and/or rate change by agency, method-of-financing, and fiscal year.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 15 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request for authorization for the rate and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 15 business days.

(e) Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. Notifications, requests, and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

(f) The Office of the State Auditor may review the fiscal impact information provided under Sections (a) through (d) along with supporting documentation, supporting records, and justification for the rate increase provided by HHSC and report back to the Legislative Budget Board and the Governor before the rate is implemented.

(g) The Comptroller of Public Accounts shall not allow the expenditure of funds for a new or increased rate if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 13. Locality Pay. Out of funds appropriated above, the health and human services agencies listed in Article II of this Act are authorized to pay a salary supplement, not to exceed $1,200 per month, to agency-determined employees whose duty station is located in an area of the state in which the high cost of living is causing excessive employee turnover, as determined by the agency. This salary supplement shall be in addition to the maximum salary rate authorized for that position elsewhere in this Act. In the event that an employee so assigned works on a less than full-time basis, the maximum salary supplement shall be set on a basis proportionate to the number of hours paid.

Sec. 14. Limitation: Expenditure and Transfer of Public Health Medicaid Reimbursements.

(a) **Appropriations**. Included in the amounts appropriated to the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) are the following amounts of Public Health Medicaid Reimbursements (Account No. 709):

(1) Department of State Health Services:

(A) Strategy A.4.1, Laboratory Services: $44,086,029 in fiscal year 2024 and $44,086,029 in fiscal year 2025;

(B) Strategy B.2.2, Texas Primary Care Office: $225,576 in each fiscal year; and

(C) Strategy E.1.1, Central Administration: $366,935 in each fiscal year.

(2) Health and Human Services Commission:

(A) Strategy A.4.1, Non-Full Benefit Payments: $69,245,724 in fiscal year 2024 and $69,245,724 in fiscal year 2025.

Revenue from Account No. 709 shall be distributed first to the item(s) in Subsection (a)(1) until the full amount of those appropriations is satisfied. Revenue from Account No. 709 shall be distributed to the appropriate agency within ten business days of receipt.

Appropriations from Account No. 709 shall be expended prior to utilization of General Revenue or General Revenue-Dedicated Funds in strategies identified in this subsection. In the event General Revenue or General Revenue-Dedicated Funds have been expended prior to the receipt of appropriations from Account No. 709, DSHS or HHSC shall reimburse General Revenue or General Revenue-Dedicated on a monthly basis.

(b) **Limitation on Use of Public Health Medicaid Reimbursements (Account 709).**

(1) In the event that Public Health Medicaid Reimbursement revenues exceed the amounts noted above in a fiscal year, the funds are transferred to the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052. If this occurs, DSHS may notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that DSHS projects will be received in excess of the amounts appropriated, along with sufficient information to reflect how the estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenue, a finding of fact to that effect shall be issued to reflect additional revenue for the year to be deposited to the Newborn Screening Preservation Account 5183.

(2) In the event that screens on the Recommended Uniform Screening Panel are not currently offered by DSHS, DSHS may provide notification of the intent to expend the funds available in the Newborn Screening Preservation Account 5183 up to $12,000,000 for the biennium. The notification must be provided to the Legislative Budget Board and the Governor at least 30 days prior to the expenditure.

(3) In the event that screens on the Recommended Uniform Screening Panel are not currently offered by DSHS, DSHS may request to expend the funds available in the Newborn Screening Preservation Account 5183 exceeding $12,000,000 for the biennium. The request shall include the following information:

(A) a detailed explanation of the purpose(s) of the increase in expenditure and whether the expenditure will be one-time or ongoing;

(B) the name of the strategy or strategies affected by the increase/decrease and the FTEs for each strategy by fiscal year;

(C) the impact on performance levels, and, where relevant, a comparison to targets included in this Act for the affected strategy or strategies; and

(D) the impact of the expenditure on the capital budget.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days after the date the Legislative Budget Board staff concludes its review of the proposal to expend the funds and forwards the review to the Chair of the House Appropriations Committee, Chair of the Senate Finance

Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

(4) In the event that the notification occurs in b(2) or the request in b(3) is approved, notwithstanding the limitations of Article IX, Section 14.03, Transfers-Capital Budget, DSHS is authorized to transfer from a non-capital budget item to an existing capital budget item or a new capital budget item to implement the new test using funds from the Newborn Screening Preservation Account. DSHS will provide a prior written notification to the Legislative Budget Board and the Governor's office.

(5) In the event that the notification occurs in b(2) or the request in b(3) is approved, any unexpended and unobligated balances remaining as of August 31, 2023, are appropriated to DSHS for the fiscal year beginning September 1, 2023, for the same purpose. Any unexpended and unobligated balances remaining as of August 31, 2024, are appropriated to DSHS for the fiscal year beginning September 1, 2024, for the same purpose. Any unexpended balances remaining from amounts appropriated to DSHS under section b(2) as of August 31, 2025, are appropriated for the fiscal year beginning September 1, 2025, for the same purpose.

(6) In the event that Public Health Medicaid Reimbursement revenues and balances are insufficient to support appropriations amounts identified in subsection (a), a reduction shall be made in HHSC Strategy A.4.1, Non-Full Benefit Payments.

(c) **Addition of New Newborn Screening.** In the event that additional screens are added to the Recommended Uniform Screening Panel in the biennium, additional revenue from the account shall be used as follows:

(1) fund DSHS increased cost for the test; and

(2) deposited to the credit of the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052.

Sec. 15. Use of Trauma Fund Receipts. In an effort to maximize the availability of Federal Funds under Medicaid for the purposes of providing reimbursement for uncompensated trauma care at designated facilities and providing increases in Medicaid inpatient provider rates, the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) shall enter into an interagency contract to allow for the transfer of funds from General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111, from DSHS to HHSC for this purpose.

Appropriations include $96,012,978 in fiscal year 2024 and $98,085,200 in fiscal year 2025 out of the General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111 to the Department of State Health Services, Strategy B.2.1, EMS and Trauma Care Systems. Of that amount, $82,189,313 in fiscal year 2024 and $84,261,535 in fiscal year 2025 is to be transferred through the interagency contract to HHSC to provide add-on payments for trauma care and safety-net hospitals in Medicaid.

If funds are not available in the amount appropriated from General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111 in this Act, the amounts identified for transfer through interagency contract to HHSC shall be reduced by the amount that funds are less than appropriations and an equal amount of General Revenue Funds is appropriated to HHSC.

Sec. 16. Prohibition on Use of Appropriations for the Private Operation of a State Hospital. No funds appropriated by this Act shall be used to solicit bids for the private operation of a state hospital or for the private operation of a state hospital, without approval from the Legislative Budget Board.

Sec. 17. Charges to Employees and Guests.

(a) Fee Collections for "non-compensatory services" provided to employees, temporary personnel services staff, and guests at the state supported living centers, state mental health hospitals, Rio Grande State Center, or the Texas Center for Infectious Disease ("facilities", or one of these facilities may be referred to as "Facility") shall be made by a deduction from the recipient's salary or by cash payment in advance. Such deductions and other receipts for these services from employees, temporary personnel services staff, and guests arising out of these "non-compensatory services" are appropriated to the facilities. Refunds of excess collections shall be made from the

appropriation to which the collection was deposited. ("Non-compensatory services" are services provided to the recipients that are not in exchange for services provided, or required to be provided, by the recipient to a Health and Human Services agency).

(b) As compensation for services rendered by the persons mentioned in (1) and (2) below, Facilities may provide the following items without charge:

(1) meals for food service personnel and volunteer workers; and

(2) temporary lodging in state-owned housing under Facility control, meals, and laundry service for interns, residents, fellows, chaplains in training, and student nurses.

(c) A state hospital or state supported living center may allow for the temporary use of state-owned housing under that Facility's control without payment by family members and guests of patients of state health hospitals or residents of state supported living centers.

(d) A state hospital or state supported living center may allow for the temporary use of state-owned housing under that Facility's control at the prevailing market rate (as determined by the Health and Human Services Commission) for temporary personnel services staff providing direct care to Facility residents and patients provided that the state-owned housing is not otherwise needed for the controlling Facility's use. Fees for this temporary housing are appropriated to be used for maintaining state-owned housing under the Facility's control.

Sec. 18. New or Additional Facilities. No funds appropriated by this Act may be spent for constructing new or additional facilities or for the purchase of sites without specific authorization of the Legislature. All facilities shall be kept where they are located by the Legislature, and all new buildings to be constructed shall be on these sites unless otherwise specifically authorized by the Legislature. For the purpose of this section, specific authorization may be granted either by basic statute or special authorization in this Act.

Sec. 19. Revolving Petty Cash Funds. Each state mental health hospital, each state supported living center, the Rio Grande State Center, and the Texas Center for Infectious Disease may establish a petty cash fund to be maintained in cash or at a local bank. The petty cash fund, not to exceed $25,000, shall be used only for making emergency payments and small purchases which will increase the efficiency of the operation; for payments to client workers on a regular payday basis; for use as change funds in specific locations where financial activities of the agency require a change fund; and for supplies and equipment purchases for on-campus work centers.

Sec. 20. Transfers of Appropriation - State Owned Hospitals. The Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS) shall transfer from non-Medicaid state appropriated funds the following amounts from HHSC Strategy G.2.1, Mental Health State Hospitals, and DSHS Strategy A.2.5, TX Center of Infectious Disease, to HHSC Goal B, Medicaid and CHIP Contracts and Administration, for the Disproportionate Share Hospital Reimbursement Program:

	2024	2025
State Mental Health Hospitals	$157,897,928	$157,897,928
Texas Center for Infectious Disease	5,292,067	5,292,067
	$163,189,995	$163,189,995

The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with HHSC. The Legislative Budget Board may adjust the amounts of such transfers as necessary to match available federal funds. HHSC and DSHS shall also transfer non-Medicaid state appropriated funds as necessary for other qualifying state-funded community hospitals including mental health community hospitals. HHSC and DSHS shall monitor Medicaid utilization rates at these state-owned hospitals to ensure their qualification for the Disproportionate Share Hospital Reimbursement Program.

Sec. 21. Payment for Compensatory Time. The Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS), to the extent permitted by law, may pay FLSA non-exempt employees of state hospitals and state supported living centers on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions. In addition, HHSC and DSHS, with the

explicit approval of the Health and Human Services Executive Commissioner, and the Department of Family and Protective Services (DFPS), with the explicit approval of the DFPS Commissioner, to the extent permitted by law, may pay FLSA non-exempt employees required to provide support during a federally declared disaster on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions.

Sec. 22. Appropriation of Local Funds. All unexpended balances of local funds received from counties, cities, and other local sources as of August 31, 2023, (estimated to be $0) by an agency named in this Article, are appropriated to that agency for the same purposes for use during the fiscal biennium beginning September 1, 2023.

Sec. 23. Reporting of Child Abuse. All health and human services agencies listed in Article II of this Act may distribute or provide appropriated funds only to recipients who show good faith efforts to comply with all child abuse reporting guidelines and requirements set forth in Chapter 261 of the Texas Family Code.

Sec. 24. Federal Funds Requirements.

(a) **Reporting Requirements.** All agencies listed in Article II of this Act shall submit the following information to the Legislative Budget Board and the Governor no later than the date the respective report is submitted to the federal government:

(1) Notification of proposed State Plan amendments or waivers for any federal grant requiring a state plan, which shall also be provided to the permanent standing committees of the House and Senate with jurisdiction over health and human services; and

(2) Reports associated with Maintenance of Effort (MOE) for federal grants.

(b) **Loss of Federal Funds.** All agencies listed in Article II of this Act shall notify the Legislative Budget Board and the Governor on a timely basis about emerging issues that could result in the loss of more than $1,000,000 in federal funds assumed in this Act.

(c) **General Revenue Associated with MOE.** The agencies listed in Article II of this Act shall not increase the state's MOE requirement for any federal grant without prior written approval of the Legislative Budget Board and the Governor. To request approval, the agency shall submit a written request to the Legislative Budget Board and the Governor that includes the following information:

(1) a detailed explanation of the need to increase the state’s MOE requirement; and

(2) the impact the increase will have on future MOE requirements.

(d) **Reporting of MOE for Federal Grants.** All agencies listed in Article II of this Act shall submit the following information to the Legislative Budget Board by October 1 and April 1 of each year for each federal grant received by the agency that has a MOE requirement:

(1) the current amount of the MOE requirement for the grant;

(2) the time period of which the current MOE requirement applies;

(3) total expenditures made towards meeting the current MOE requirement;

(4) the time period for which current expenditures will impact future MOE requirements;

(5) projection of future MOE requirements based on current spending; and

(6) if the agency projects the current MOE requirement will not be fulfilled, a narrative explanation of why and the impact of not doing so, including any projected loss of federal funding.

Sec. 25. Unexpended Balance Authority for Certain Funds Supporting Capital Projects.

(a) Notwithstanding all other limitations on unexpended balance authority in the Department of State Health Services (DSHS) or Department of Family and Protective Services (DFPS) bill patterns, any unexpended and unobligated balances from amounts appropriated as of August 31, 2024, to DSHS or DFPS are appropriated for the same purposes for the fiscal year beginning September 1, 2024, subject to the limitations in subsection (b) of this rider.

(b) Unexpended balance authority provided by this rider is limited to funds that were appropriated to DFPS or DSHS to support enterprise assessment billing for a Health and Human Services Commission (HHSC) capital budget project and for which HHSC has used other authority provided by this Act to make appropriations for capital budget purposes made by this Act for use during the first year of the biennium available for use in the second year of the biennium for the same purpose.

3. **Foundation School Program Funding.** In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.

Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2024-25 biennium, a total of $29,284,881,652 in fiscal year 2024 and $31,064,881,509 in fiscal year 2025 shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Chapters 46, 48 and 49 of the Texas Education Code. Any unexpended balances as of August 31, 2024, are appropriated for fiscal year 2025 for the same purposes.

Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 46, 48 and 49 based on:

(a) estimates of average daily attendance provided by the Texas Education Agency in March 2023;

(b) local district tax rates as determined by the Legislative Budget Board;

(c) final tax year 2022 property values; and

(d) assumed increases in property values, and the estimates of local tax collections on which they are based, as estimated by the Comptroller of Public Accounts, of 3.82 percent for tax year 2023 and by 4.56 percent for tax year 2024.

The estimates identified in subsections (a) - (d) are projections provided by the Comptroller of Public Accounts and Texas Education Agency and used solely to determine initial state aid payments to school districts, and do not factor into the calculations of local tax base changes. Actual property value changes are determined by local appraisal districts.

To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the

Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Chapters 46, 48, and 49 of the Education Code.

For purposes of distributing the Foundation School Program basic tier state aid appropriated above and in accordance with Section 48.051 of the Texas Education Code, the Basic Allotment is established at $6,160 in fiscal year 2024 and $6,160 fiscal year 2025.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, $100,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the New Instructional Facilities Allotment under Section 48.152 of the Texas Education Code.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Education Code Section 48.115, the School Safety Allotment is set at $9.72 per student in average daily attendance, estimated to be $50,000,000 in each fiscal year.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, $100,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the Gifted and Talented Student Allotment under Section 48.109 of the Texas Education Code.

From the amount appropriated above to the Texas Education Agency for Strategy A.1.1, FSP - Equalized Operations, in each year of the 2024-25 biennium, the Commissioner may not spend more than the amount that, together with all other amounts appropriated from the Foundation School Fund or another source of the Foundation School Program or for paying the costs of school property tax relief, is necessary to achieve a tax rate compression percentage, as defined by Sections 48.255, 48.2551, and 48.2552, Texas Education Code, and fully fund the school funding formulas under Chapters 48 and 49, Texas Education Code, without the prior approval of the Legislative Budget Board.

Pursuant to Section 48.2552(c) of the Texas Education Code, in fiscal year 2024, the state compression percentage as calculated in Section 48.255 of the Texas Education Code, shall be reduced by 7.75 percent.

Notwithstanding any other provision of this Act, the Texas Education Agency may:

(a) make transfers as appropriate between Strategy A.1.1, FSP - Equalized Operations, and Strategy A.1.2, FSP - Equalized Facilities; and

(b) transfer Foundation School Program funds from fiscal year 2025 to 2024 to the extent necessary to avoid reductions in state aid as authorized by Texas Education Code Section 48.266(f).

The Texas Education Agency shall notify the Legislative Budget Board and the Governor of any such transfers at least 15 days prior to the transfer.

The Texas Education Agency shall submit reports on the prior month's expenditures on programs described by this rider no later than the 20th day of each month to the Legislative Budget Board and the Governor's Office in a format determined by the Legislative Budget Board in cooperation with the agency.

Contingent on the Commissioner of Education identifying a budget surplus of Foundation School Program funds appropriated above in either fiscal year of the 2024-25 biennium, the Commissioner shall notify the Legislative Budget Board and the Office of the Governor in writing no later than 30 calendar days before taking any action pursuant to the Texas Education Code Sections 7.062, 48.258, 48.259, 48.260, 48.261, or 48.265.

Appropriations provided above in Strategy A.1.1, FSP-Equalized Operations, fully fund an estimated $2,527,500,000 in projected student enrollment growth.

4. **Foundation School Program Set-Asides.** The programs and their funding levels identified in this rider represent all programs at the Texas Education Agency and other state agencies that are funded with amounts set aside from the Foundation School Program. The amounts listed in this rider are for informational purposes only, and do not constitute an appropriation:

6. **Windham Schools.** The funds appropriated above in Strategy B.2.4, Windham School District, are to be expended only for academic and vocational educational programs approved by the Texas Education Agency. The Commissioner of Education shall allocate $64,184,358 in fiscal year 2024 and $67,304,525 in fiscal year 2025 to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 2024-25 biennium are estimated to be: $4.69807 for academic education, $3.87648 for vocational education.

   The Windham School District shall use funds appropriated above to serve those students whose participation will help achieve the goals of reduced recidivism and the increased success of former inmates in obtaining and maintaining employment. To achieve these goals, younger offenders with the lowest educational levels and the earliest projected release or parole eligibility dates should receive high priority. This policy shall not preclude the Windham School District from serving other populations according to needs and resources. For students who successfully complete the district's program during the 2022-2023 biennium, the Windham School District shall report to the Eighty-ninth Legislature on the following: recidivism rates, employment rates, and attainment of GEDs, high school diplomas, professional certifications, and adult education literacy levels.

7. **Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues.** When reviews and audits of allocations to school districts reveal the allocations previously made were greater or less than the amounts found to be due, the Texas Education Agency may recover or pay the sums necessary to adjust to the correct amounts. All such amounts recovered shall become a part of the Foundation School Fund or General Revenue Fund, and the amounts necessary to make such additional payments to the school districts are appropriated from the Foundation School Fund or General Revenue Fund.

   All funds received from local school districts as recovery for overpayment pursuant to the provisions of §48.272 of the Texas Education Code are appropriated to the Texas Education Agency for distribution to local school districts for Foundation School Program purposes.

   All unexpended balances and all funds received from the payment of school districts for attendance credits in excess of the amounts appropriated above pursuant to the provisions of §49.154 of the Texas Education Code, are appropriated to the Texas Education Agency for distribution to school districts for Foundation School Program purposes.

8. **Instructional Materials and Technology.** Except as explicitly allowed elsewhere in this Act, any amount expended pursuant to Texas Education Code, §31.021, including expenditures for instructional materials administration, shall be paid out of the State Instructional Materials and Technology Fund appropriated for that purpose. A transfer of funds from the Available School Fund to the State Instructional Materials and Technology Fund is authorized in an amount which, together with other revenues of the State Instructional Materials and Technology Fund, is sufficient to finance the sum-certain appropriation from the State Instructional Materials and Technology Fund for each fiscal year. Penalties assessed by the State Board of Education shall be deposited to the credit of the State Instructional Materials and Technology Fund.

In accordance with Texas Education Code §31.0211 and §31.0214, the Commissioner shall allocate the funds available in the State Instructional Materials and Technology Fund to school districts and charter schools for each student enrolled in the district or charter school on a date during the preceding year specified by the Commissioner and shall adjust the technology and instructional materials allotment of school districts and charter schools experiencing high enrollment growth according to rules adopted by the Commissioner.

It is the intent of the Legislature that for any state fiscal biennium, the State Board of Education issue proclamations for instructional materials in which the total projected cost of instructional materials under the proclamations does not exceed 75 percent of the total technology and instructional materials allotment under Section 31.0211, Education Code, for the most recent biennium for which the allotment has been determined.

It is the intent of the Legislature that the State Board of Education ensure that any instructional materials and technology purchased using funds disbursed from the State Instructional Materials and Technology Fund meet the requirements for certification under 47 U.S.C. Sections 254(h)(5)(B) and (C) to the extent the certification is applicable to those materials.

It is the intent of the Legislature that the State Board of Education consider the cost of all instructional materials and technology requirements when determining the disbursement of money to the available school fund and the amount of that disbursement that will be used, in accordance with Section 43.001(d), Education Code, to fund the technology and instructional materials allotment under Section 31.0211, Education Code.

From funds appropriated from the State Instructional Materials and Technology Fund, the Commissioner may set aside an amount not to exceed $2,500,000 for the 2024-25 biennium for the continued support and delivery of online college readiness materials in English language arts and reading, mathematics, science, and social studies.

From funds appropriated above in Strategy B.2.1, Technology and Instructional Materials, $1,042,679,721 from the Technology and Instructional Materials Fund is allocated in the 2024-25 biennium for instructional materials and technology. In addition to these funds, $7,300,909 is appropriated in the 2024-25 biennium in the agency's administrative strategies from the State Instructional Materials and Technology Fund. Total appropriations from the State Instructional Materials and Technology Fund in the 2024-25 biennium equal $1,049,980,630.

From funds appropriated above in Strategy A.2.3, Students with Disabilities, an amount not to exceed $13,500,000 in federal funds in the 2024-25 biennium is allocated for the purchase of accessibility remediation of instructional materials, captioning of video and multimedia instructional materials, Braille, large print, and related materials for students with disabilities.

The Commissioner shall provide juvenile justice alternative education programs with instructional materials necessary to support classroom instruction in those programs.    b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children.

   In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

   Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

It is further provided that institutions shall cooperate so that employees employed by more than one institution may be covered under one group policy and that said policy may be held jointly by two or more institutions and paid from funds appropriated to the institutions for payment of employee insurance premiums as set out above.

2. **The University of Texas System Group Health Insurance Contributions.** Funds identified and appropriated above for group insurance are intended to fund a comparable portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Group Benefits Program.

   Active and retired employees of The University of Texas System are authorized to use one-half of the "employee-only" state contribution amount for optional insurance. Optional insurance for the employees participating in the group insurance program shall be defined by The University of Texas System. Active and retired employees participating in these plans may only use one-half of the employee-only state contribution if they sign and submit a document to their employing institution indicating they have health insurance coverage from another source.

   In addition to funds appropriated above, the Texas A&M System Agencies are authorized to use funds appropriated elsewhere in this Act to pay for higher education employees' group insurance contributions.

   The Texas A&M System shall file a report with the Legislative Budget Board, the Governor and the Comptroller by September 15 of each year, detailing all group health insurance plans offered to system employees and retirees, including the benefit schedule, premium amounts, and employee/retiree contributions.

   Active and retired employees of the Texas A&M System are authorized to use one-half of the "employee-only" state contribution amount for optional insurance. Optional insurance for the employees participating in the group insurance program shall be defined by the Texas A&M System. SPECIAL PROVISIONS RELATING ONLY TO COMPONENTS OF TEXAS STATE TECHNICAL COLLEGE

1. **Expenditure of Educational and General Funds.** Recognizing that Texas State Technical College may have the opportunity and should be encouraged to attract private contributions, grants, or contracts, and to enter into agreements with private businesses and other agencies of government for purposes not specifically contained in the strategy items above that might require matching funds from TSTC, the Board of Regents of Texas State Technical College is hereby authorized to expend its remaining educational and general funds to meet contribution, contract, or grant-matching requirements only for the following purposes:

   a. planning and implementing a large-scale job-training program in conjunction with private business and other state agencies;

   b. acquiring facilities and equipment to carry out a large-scale industrial training program in conjunction with a major employer; and

   c. additional space and mechanical systems or renovation of existing buildings in accordance with the Campus Master Plans and subject to approval by the Texas Higher Education Coordinating Board.

2. **Financial Records.** The financial records and reports of the Texas State Technical College shall classify accounts in accordance with the recommendation of the National Committee on the Preparation of a Manual on College and University Business Administration, as set forth in Volume I of "College and University Business Administration," published by the American Council on Education with a copyright date of 1952, and subsequent published revisions with such modifications as may be developed and provided by the Comptroller of Public Accounts, or as may be required to conform with specific provisions of the Appropriation Acts of the Legislature. The accounts of the Texas State Technical College shall be maintained and audited in accordance with the approved reporting system. The Texas State Technical College shall deliver to the Texas Higher Education Coordinating Board, any such program reports as it may deem necessary in accordance with its rules and regulations.

3. **Enrollment Records and Reports.** To be eligible to receive the appropriations herein above, the Texas State Technical College shall maintain separately for each campus and each extension center such enrollment records and report such enrollment data as required by the Texas Higher Education Coordinating Board. These enrollment reports shall be submitted in the form and on the date required.

   The above reports shall be certified to the Comptroller of Public Accounts no later than the date required by the Coordinating Board, and each term copies of the above certified enrollment reports shall be sent to the Coordinating Board, Legislative Budget Board, Governor, State Auditor and Legislative Reference Library.

   The State Auditor may consider an audit of enrollment data at Texas State Technical College, subject to analysis and risk assessment.

   The Texas State Technical College shall offer only such courses as are economically justified in the considered judgment of the Board of Regents. The Board of Regents shall adopt policies specifying the conditions under which classes of less than 10 students by headcount are to be considered necessary and justifiable. The Board of Regents shall direct the chancellor or other officials to review enrollment data prior to the designated Coordinating Board census date and take all necessary actions to ensure that the small classes offered on each campus are only those that conform with established policies on small classes.

4. **Certification of Compliance.** Expenditure of the funds appropriated herein above is contingent upon annual certification by the chancellor of the Texas State Technical College to the Comptroller of Public Accounts that the Texas State Technical College is in compliance with these provisions regarding budgets, accounting procedures and enrollment.

5. **Approved Geographic Locations.** None of the funds appropriated above to the Texas State Technical College shall be expended in promoting, developing or creating a campus or extension center at any other location in the state except as specified in Education Code §135.02.

6. **Temporary Special Courses.** Out of funds appropriated herein above to the Texas State Technical College in pre-apprenticeship, related training for apprentices and specialized training for journeymen and compensatory training for pre-apprenticeship and apprenticeship enrollees,

and plant expansion and new plant start-up training program no more than $50,000 per year may be expended wherever the need exists within the state in conjunction with curriculum approval by the Texas Higher Education Coordinating Board. Such expenditure of funds for these special courses are temporary in nature and outside the provision of Education Code §135.04.

7. **Aircraft Pilot Training Programs.** Funds may be used for the operation, maintenance or lease of aircraft for use in the Aircraft Pilot Training programs subject to the requirement that excess costs of flight instruction be recovered by an assessment of charge to student pilots. This income shall be separately accounted for and credited as a reduction in expenditure in the Aircraft Pilot Training Program.

8. **Approval of Plans by Foundations.** Any use of the Texas State Technical College's assets or facilities including, but not limited to, buildings, equipment or employees by existing foundations or for the promotion of foundations shall require prior approval of the Board of Regents. Approval is contingent upon receipt by the Board of Regents of a satisfactory annual plan of operation. At a minimum, this plan must specify the proposed use of any Texas State Technical College facilities, equipment, and personnel; payments made directly to Texas State Technical College personnel for services provided or expenses incurred; and donations of funds to the Texas State Technical College for designated purposes. All funds donated by foundations to the Texas State Technical College shall be received and accounted for in the same manner as all other Texas State Technical College funds. After Board of Regents approval, the plan shall be filed with the Legislative Budget Board no later than December 1st each year.

9. **Chancellor Salary.** Out of the funds appropriated, transferred, or contracted to the system office, an amount not to exceed $70,231 in 2024 and $70,231 in 2025 may be expended for the salary of a chancellor. The chancellor may receive in addition to the above amount a house, utilities, and/or supplement from private sources. If a system owned house is not available an amount not to exceed $7,200 per year from the system office appropriation and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.

10. **Returned Value Funding Model for Texas State Technical Colleges.** Funding is recommended for and allocated among Texas State Technical Colleges (TSTCs) based on the additional direct and indirect state tax revenues generated as a result of the education provided to students by the TSTCs. The funding methodology is based on the following components:

    a. The model includes the cohort of TSTC graduates (earning an associate's degrees or certificate), transfers, and leavers (students who were not found in Texas higher education for two years following the last time they were enrolled in the TSTC) with a minimum completion of nine semester credit hours from 2016 and 2017.

    b. The cohorts were matched with Unemployment Insurance wage records for employment and wage information for five years after the students graduated from or left the TSTC to establish annual wages for each student. Direct value-added was defined as the incremental state tax revenue attributable to former TSTC students' jobs, based on the difference between former TSTC students' annual wages and a base wage representing a full-time employee earning minimum wage (7 percent of the wage delta). Indirect value-added was defined as the direct value-added multiplied by 1.5, an economic multiplier derived from a U.S. Bureau of Economic Analysis study. Total direct and indirect values-added were summed for each group of students by campus across five years.

    c. Values-added were reduced by a certain percentage, based on the assumption that the benefits would accrue both to the state and TSTCs but with only a portion of the added value included in the formula calculations.

    d. Values-added by campus were divided into the total TSTC value added to define each institution's proportional share of overall formula funding.

    The Texas State Technical College System shall continue to work with the Texas Higher Education Coordinating Board, the Legislative Budget Board and other relevant agencies to refine the new Returned Value Funding Formula for the TSTCs. It is the intent of the Legislature that recommended adjustments to the formula shall be ready for implementation in the 2026-27 biennium and shall further the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours.

11. **Small Institution Supplement.** The Small Institution Supplement, as a set-aside within the General Academic Institution Infrastructure Formula, shall provide supplemental funding to the Texas State Technical Colleges with headcounts of fewer than 10,000 students. For the 2024-25 biennium, Texas State Technical Colleges with a headcount of fewer than 5,000 students shall receive a small institution supplement of $2,633,133. The small institution supplement shall decrease proportionate to the increase in headcount above 5,000 until the institution reaches 10,000 headcount. Once an institution reaches 10,000 headcount, it shall no longer be eligible for this supplement.

Transfers may not be made from medically-related components to academic components or from academic components to medically-related components except that transfers may be made from schools of medicine, nursing, pharmacy, and allied health in academic components to medically-related components and from medically-related components into the health-related programs listed above in academic components. Transfers may not be made into the informational items setting the salary rate for the president, chancellor, or for any other line-item salary shown. Nothing in this section shall authorize the transfer of appropriations from Texas A&M University System Agencies to Texas A&M University.

2. **Health to Academic Intercomponent Transfers with LBB Prior Approval.** As an exception to the provisions in Subsection 1, transfers may be made with prior approval of the Governor and Legislative Budget Board from medically-related components to general academic institutions if it does not diminish the academic programs of the medically-related component or result in increased fees to patients at the component. The systems shall furnish whatever documentation may be required by the Governor and Legislative Budget Board to assure these conditions are met.

3. **Revenue Enhancement and Transfer Notification.** The University of Texas System shall enhance local funds revenue to reduce the need for general revenue funds. The University of Texas System shall give 30 days notice to the Legislative Budget Board and Governor prior to transferring local funds from any System hospital. Furthermore, notwithstanding the provisions of subsections 1 and 2 above, The University of Texas System Board of Regents shall not transfer funds from health institutions delivering patient care if such a transfer would result in a decrease in the quality or amount of indigent patient care offered by the affected institution.

4. **Reporting of Transfers.** Any transfers made pursuant to Subsections 1, 2, and 3, whether general revenue or local funds in nature, shall be reported in the Legislative Appropriations Request for the biennium beginning September 1, 2025.

All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from institutional funds. If a house owned by the

7. **Administrative Accountability**

   a. In each state fiscal year of the biennium, an institution of higher education, including a system office, may not spend funds appropriated to the institution by this Act unless, not later than December 1, the institution submits to the Legislative Budget Board, the chair of the House Appropriations Committee, and the chair of the Senate Finance Committee a report that includes the total number of persons holding high-ranking administrative positions at the institution.

   b. For purposes of subsection (a), "high-ranking administrative position" includes the following positions:

   c. A report submitted under subsection (a) must:

      (1) be in a form prescribed by the Legislative Budget Board;

      (2) include the name, salary, and total value of nonsalary benefits for each person holding a high administrative position at the institution; and

(3) include the percentage salary increase for each person holding a high-ranking administrative position at the institution who occupies the same position during the current fiscal year as during the preceding fiscal year.

Sec. 6. Expenditure Provisions. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education, except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2023 and 2024, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.

2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, §51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.

3. **Revolving Funds.**

   a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.

   b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.

   c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.

4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

5. **Investment Reports.**

   a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish and maintain on its website for at least two years quarterly investment reports in any format it deems appropriate.

   b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

6. **Central Services Accounts.**

   a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.

   b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

      Texas A&M University System Central Services Account
      The University of Texas System Central Services Account
      University of Houston System Central Services Account
      Texas Tech University System Central Services Account
      University of North Texas System Central Services Account
      Texas State University System Central Services Account

   c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, §55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

   a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be

expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.

b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Capital Construction Assistance Projects and Other Revenue Bonds.** Funds clearly identified in separate informational strategies to the state institutions of higher education named in this Article for capital construction assistance projects or other revenue bond retirement may be expended only to reimburse institutions for debt retirement authorized by Education Code §55.17 through §55.17991 and §55.19. Any funds in excess of the amount expended for regularly scheduled principal and interest for debt service reimbursements due each year shall be lapsed to the General Revenue Fund at the end of each fiscal year. Funds may be used for bond and commercial paper debt service payments, which can include principal, interest and fees.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code §56.031 to §56.039, cited as the Texas Public Educational Grants Program.

2. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.

3. Out of the additional funds appropriated for the 2024-25 biennium funds allocated and expended by the respective governing boards for need-based student scholarships shall be allocated and expended without regard to the race, sex, color, or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

2. In addition, The University of Texas Southwestern Medical Center may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.

3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six-year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

4. The University of Texas Health Science Center at Houston may admit up to 25 competitively recruited medical students in each entering class for a specialized program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.

5. The Texas A&M University System Health Science Center may admit up to 25 competitively recruited nonresident medical students in each entering class for specialized programs of clinical and research training designed to lead to the MD and MS in Engineering degrees or MD degrees for students from military academies or recipients of military health professions scholarships.

6. The Texas A&M University System Health Science Center may admit up to 20 competitively recruited nonresident dental students each year into the International Advanced Standing Program (IASP) designed to allow graduates sit for dental board examinations to secure licensure to practice dentistry in the United States.

Sec. 14. Off-campus Instruction. General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.

2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.

3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Tuition and Other Educational and General Local Fee Collection. No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 16. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eighty-eighth Legislature in arriving at formula appropriations for fiscal years 2024 and 2025. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making fiscal years 2024 and 2025 formula appropriations are subject to audit by the Coordinating Board. The Coordinating Board shall report any differences from data submitted by the institutions to the State Auditor, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Coordinating Board. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2024 and 2025 are subject to audit by the State Auditor and Coordinating Board.

The State Auditor or Coordinating Board may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 17. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 18. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 19. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code, Chapter 2259, for a risk otherwise insurable by the institution of higher education, including a reserve account for lump sum payments of vacation and sick leave, shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in §51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 20. Uncompensated Care Reporting Requirement. The public health-related institutions shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the uncompensated care reporting requirement established by the Health and Human Services Commission.

Uncompensated care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs. To calculate uncompensated care, charges will be converted to costs by application of a standard, auditable ratio of cost to charge and providers will recognize appropriate patient specific funding and lump sum funding available to offset costs. Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for uncompensated care.

Sec. 21. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.

2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually (no later than March 1st) to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 22. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has adopted an ethics policy which includes the requirements of Texas Government Code Section 572.051. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.

2. The ethics policy adopted by each board of regents shall also include specific provisions regarding sexual harassment.

Sec. 23. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health related institutions.

Sec. 24. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under §576.022, Health and Safety Code.

Sec. 25. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education

Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 26. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2024-25 biennium is $59.11 in fiscal year 2024 and fiscal year 2025.

   Weighting is determined by the following matrix:

2. **Teaching Experience Supplement.** For the 2024-25 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is $5.82 in fiscal year 2024 and fiscal year 2025.

4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

   a. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

5. **Small Institution Supplement.** The Small Institution Supplement, as a set-aside within the General Academic Institution Infrastructure Formula, shall provide supplemental funding to general academic institutions with headcounts of fewer than 10,000 students. For the 2024-2025 biennium, general academic institutions with a headcount of fewer than 5,000 students shall receive a small institution supplement of $2,633,133. The small institution supplement shall decrease proportionate to the increase in headcount above 5,000 until the institution reaches 10,000 headcount. Once an institution reaches 10,000 headcount, it shall no longer be eligible for this supplement.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2024.

Sec. 27. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full-time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of $9,622 in fiscal year 2024 and fiscal year 2025:

Program	Weight Per Student
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Biomedical Informatics	1.750
Dental	4.601
Medical	4.753
Podiatry	4.753

Instructional programs at remote locations and the main campus at The University of Texas Health Science Center at Tyler with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is $6.14 in fiscal year 2024 and fiscal year 2025 for all health related institutions.

   Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of $1,412,500 plus 1.17 percent in fiscal year 2024 and fiscal year 2025 of its research expenditures as reported to the Texas Higher Education Coordinating Board.

4. **Research at Clinical Partners.** Research conducted by faculty of a health related institution under a contract with a clinical partner shall be considered in the formula calculations for the Research Enhancement and E&G Space Support strategies as defined under Article III, Special Provisions Relating Only To State Agencies of Higher Education, Section 27, subsection (2) Infrastructure Support Formula and Sec. 27, subsection (3) Research Funding.

5. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of $11,940 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2024 and fiscal year 2025 are $5,970 per resident.

6. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.

7. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items and hospital and clinic operations.

8. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2024.

9. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:

   a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal year 2024 and 2025 shall be based on the number of total Texas cancer patients served in 2022. The rate per patient shall be $1,580 in fiscal year 2024 and fiscal year 2025 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

   b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.4, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2024 and 2025 shall be based on the number of such cases treated in fiscal year 2022. The rate per case for fiscal year 2024 and 2025 shall be $99. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

   c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

The Base Match rate shall be 13.40 percent for each fiscal year of the 2024-25 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.

2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between $0 and $10,000,000. The amount of $96 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2025 to the Foundation School Fund No. 193.
