"Other direct and indirect costs" for these programs are estimated to be $3,790,737 for fiscal year 2024 and $3,799,886 for fiscal year 2025.

   (a) This requirement shall apply to revenues generated in the following strategies and deposited under the following revenue codes or account numbers.

Strategy	**Revenue Code or Account**

Food (Meat) & Drug Safety	Fees deposited into General Revenue to support C.1.1, Food (Meat) and Drug Safety, including fees deposited under the following Revenue Codes: 3142 (Food Service Worker Training); 3180 (Health Regulation Fees, for Tattoo/Body Piercing Studios); 3400 (Business Fees-Agriculture, for Milk Products); 3414 (Agriculture Inspection Fees, for Meat or Meat Products); 3554 (Food and Drug Fees, for Frozen Dessert Manufacture).

   (b) Appropriations made to DSHS in this Act are contingent upon DSHS assessing fees sufficient to generate revenue to cover the General Revenue appropriations for the programs listed under Subsection a above as well as the related "other direct and indirect costs." In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

4. **Immunization of Employees.** Monies appropriated above to the Department of State Health Services may be expended for any immunization which is required of employees at risk in the performance of their duties.

5. Texas.Gov Authority Appropriation.

(a) The Department of State Health Services (DSHS) is authorized in accordance with Section 2054.252 of the Government Code to increase the occupational license, permit, and registration fees imposed on licensees by an amount sufficient to cover the cost of the subscription fee charged by the Texas.Gov Authority.

(b) Amounts appropriated above to DSHS include $706,128 in each fiscal year in revenue collected for license and certification fees in Strategy C.1.4, Texas.Gov, for the purpose of paying Texas.Gov subscription fees.

(c) In the event that actual and/or projected revenue collections from fee increases to cover the cost of Texas.Gov subscription fees are insufficient to offset the costs identified above, the Comptroller is directed to reduce the appropriation authority provided by this Act to DSHS to be within the amount of fee revenue expected to be available.

(d) For new licensing applications, DSHS is appropriated the additional revenue generated from occupational license, permit, or registration fees in excess of the Comptroller's biennial revenue estimate for the 2024-25 biennium for the sole purpose of payment to the Texas.Gov Authority contractor of subscription fees for implementing and maintaining electronic services for the department. DSHS, upon completion of necessary actions to access or increase fees, shall furnish an annual schedule of the number of license issuances or renewals and associated annual fee total, and any other supporting documentation to the Comptroller and the Legislative Budget Board. If the Comptroller finds the information sufficient to support the projection of increased revenues, a notification letter will be issued and the contingent appropriation made available for the intended purposes.

(e) DSHS shall notify the Legislative Budget Board and the Comptroller of Public Accounts in writing upon receiving an exemption from participating in Texas.Gov. Within 45 days of receiving an exemption, DSHS shall provide the Legislative Budget Board and the Comptroller with a report of the effective date, the reason for exemption, and all estimated expenditures for Texas.Gov costs in the fiscal year in which the exemption is made.

6. Collection of Emergency Room Data. Out of funds appropriated in Strategy A.1.5, Health Data and Statistics, the Department of State Health Services (DSHS) shall collect emergency room data as set forth in Chapter 108 of the Health and Safety Code. 7. Appropriation: Contingent Revenue. The Department of State Health Services (DSHS) is appropriated for the purposes identified below any additional revenue generated by DSHS above the amounts identified in fiscal year 2024 or fiscal year 2025 in the Comptroller of Public Account's Biennial Revenue Estimate (BRE) for each of the accounts or revenue object identified below. An appropriation from an account or revenue object shall be made available to DSHS once certified by a Comptroller's finding of fact that the amount in the BRE for the account or revenue object for the given fiscal year has been exceeded. An appropriation is limited to revenue generated in fiscal year 2024 or fiscal year 2025 and does not include any balances that have accrued in the account or revenue object code.

By March 1st of each year, DSHS may notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that DSHS projects will be received in excess of the amounts contained in the BRE for each of the accounts listed below, along with sufficient information to reflect how the estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenue, a finding of fact to that effect shall be issued to reflect the additional revenue available for each account.

22. **Adult Safety Net Program.** Out of the funds appropriated above in Strategy A.2.1, Immunize Children and Adults in Texas, the Department of State Health Services (DSHS) may make available adult safety net vaccines to local health departments to immunize Medicare-D patients whose insurance does not cover the vaccine at the time of presentation at the local health department. DSHS may only make vaccines available if doing so will not result in need for additional funding or a reduction in vaccines provided to the uninsured adult population. To the extent possible, vaccines provided to Medicare-D patients shall be targeted to lower income persons.

23. **Transfer from the Cancer Prevention and Research Institute of Texas for the Cancer Registry.** Out of funds appropriated elsewhere in this Act to the Cancer Prevention and Research Institute of Texas (CPRIT) is $3,118,032 out of General Obligation Bond Proceeds each fiscal year of the biennium which shall be transferred from CPRIT to the Department of State Health Services in Strategy A.1.3, Health Registries, for administration of the Cancer Registry in accordance with the Texas Constitution, Article III, Section 67 and Health and Safety Code, Chapter 102.     (b) implementing the cost containment measures outlined in 25 Texas Administrative Code Section 98.115 as needed.

    DSHS shall notify providers and other relevant stakeholders at least 60 days before implementing any cost containment measures for the Texas HIV Medication Program.

26. **Emergency Medical Task Force.**

    (a) Out of the amounts appropriated above in Strategy A.1.1, Public Health Preparedness and Coordinated Services, the Department of State Health Services (DSHS) shall provide $2,000,000 in each fiscal year of the biennium out of General Revenue Funds to fund ongoing programs, exercises, and readiness for the Emergency Medical Task Force (EMTF).

        (3) $22,011,636 in Immunization Grants federal funds in Strategy A.2.1, Immunize Children and Adults in Texas.

    (b) If the projected expenses as included in the Monthly Financial Report required by Rider 11, Other Reporting Requirements, for the awards identified in Subsection (a) differ from the appropriated amounts in a fiscal year by more than $1,000,000, the Department of State Health Services shall provide the following information with the Monthly Financial Report:

(1) why the amounts identified are unable to be expended or why additional funds are available to be expended;

(2) an explanation of which programs funded by the awards will be impacted and any effect on performance measures;

(3) the award amount received in the current and previous award year; and

(4) if applicable, the amount of the award that will be carried forward to the following year.

28. **HIV Care Formula Grants.** If the projected expenses for the HIV Care Formula Grants as included in the Monthly Financial Report required by Rider 10, Other Reporting Requirements, require the Department of State Health Services to either expend HIV Care Formula Grants in excess of the appropriated amounts or expend a portion of the upcoming year's award in the current fiscal year, DSHS shall provide the following information with their Monthly Financial Report:

(a) the amount of the future award to be expended in the current fiscal year;

(b) the reason for spending the funds early; and

(c) the effect of spending the funds early on funding availability in the following fiscal year.

29. **Hospital Care Information Funding.** Relating to the appropriations made to the Department of State Health Services under Strategy A.1.5, Health Data and Statistics, it is the intent of the legislature that the department use excess money collected under Section 241.025(d), Health and Safety Code, to administer the department's responsibilities under Chapters 108 and 324, Health and Safety Code, and similar laws that require the department to provide information related to hospital care to the public.

30. **Report on Federal Public Health Funding to Local Health Entities.** The Department of State Health Services (DSHS) shall produce a biannual report on the allocation of federal public health funding received from the Centers for Disease Control and Prevention. The first report shall include federal public health funding allocated from January 1, 2022, to August 31, 2023, to state programs and local health entities. The report shall be provided to the Governor, Lieutenant Governor, Speaker of the House, Chair of the House and Senate Finance Committees, Chair of the House Public Health Committee, and Chair of the Senate Health and Human Services Committee by October 1, 2023. (b) $2,968,140 in General Revenue in fiscal year 2024 and $2,915,963 in General Revenue in fiscal year 2025 to develop and maintain a state-based replacement for the Maternal Mortality Review Information Application (MMRIA) to support the Maternal Mortality and Morbidity Review Committee. The state-based replacement application would facilitate case abstraction, case review, data entry, and documentation. It is the intent of the Legislature that the state-based replacement system would fully replace utilization of MMRIA by the Department of State Health Services and its implementation is intended to preclude the acceptance of federal funding for use of MMRIA or any similar federal application.

34. Rio Grande Valley Facilities and Services. All unexpended and unobligated balances remaining as of the effective date of this Act from the appropriations made by Section 16, Chapter 10 (Senate Bill 8), Acts of the Eighty-seventh Legislature, Third Called Session, 2021 (the Supplemental Appropriations Act) and unexpended balances from Senate Bill 30, Eighty-eighth Legislature, Regular Session, 2023, from American Rescue Plan Act (ARPA) funds or other appropriated funds to the Department of State Health Services for the purpose of upgrading existing laboratory facilities and infrastructure are hereby appropriated to the department for the purpose of contracting with a healthcare entity located in the Rio Grande Valley designated as a level 1 trauma facility on or before January 1, 2022, for the construction of facilities and related infrastructure in Starr County for: research facilities; laboratory facilities; graduate medical education programs, including clinic and teaching space; medical clinics; and multispecialty clinic services.

3. **Cash Basis Expenditures Authorization.** Notwithstanding any other provision of this Act, the Health and Human Services Commission may expend Medicaid appropriations in all Strategies in Goal A, Medicaid Client Services, and in Strategy D.1.3, ECI Services, in each fiscal year without regard to date of service. The authorization is limited to expenditures in all Strategies in Goal A, Medicaid Client Services, and in Strategy D.1.3, ECI Services, for claims payments, premiums, cost settlements and other related expenses for Medicaid client services.

4. **Cost Comparison Report.** Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission (HHSC) shall develop a report analyzing state and federally-funded residential and nonresidential services in the Home and Community-based Services (HCS) waiver program, the Texas Home Living waiver program, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

   (a) The report shall include the following:

      (1) the monthly average cost to the state per person for individuals residing in state-operated and non-state-operated ICFs/IID, HCS waiver program, and Texas Home Living waiver program by Level of Need (LON) and facility size (private ICFs/IID only);

      (2) a comparison of severity across settings; and

(3) the total number of persons, by LON, who transitioned from state-operated ICFs/IID to the HCS residential waiver program for the previous biennium, and their average monthly cost of service in the HCS waiver program.

(b) With respect to the cost to the state per person residing in a state-operated ICF/IID, HHSC shall include all costs, such as Statewide Cost Allocation Plan (SWCAP), maintenance and construction costs, employee benefit costs and other federally allowable administrative, medical, and overhead costs. With respect to the cost to the state per person in state-operated ICFs/IID, non-state-operated ICFs/IID, and the HCS and Texas Home Living waivers, HHSC shall include all Medicaid costs including acute care costs that are not included in the waiver rates for those programs and all costs to administer and license those programs. For state-operated ICFs/IID, the average monthly administrative and overhead costs shall be reported separately from the average monthly client care costs. HHSC shall identify the types of costs included in each category.

(c) Cost for waiver recipients will cover the time a person enrolled in the waiver through the time they are terminated from waiver services. The cost for ICF/IID services will cover the time a person is admitted to the facility to the time of discharge unless the person is admitted to an ICF/IID or waiver within 60 days of discharge. In that case, the Medicaid costs incurred during discharge will be counted toward the ICF/IID costs.

The report shall be submitted to the Legislative Budget Board and the Office of the Governor, and shall be posted on the Commission's website no later than August 31, 2024.

5. **Graduate Medical Education.** The Health and Human Services Commission (HHSC) may expend Appropriated Receipts - Match for Medicaid No. 8062 and matching Medicaid Federal Funds appropriated in Strategy A.4.1, Non-Full Benefit Payments, for Graduate Medical Education (GME) payments to state-owned teaching hospitals, contingent upon receipt of allowable funds from state-owned teaching hospitals to be used as the non-federal share for Medicaid GME. Transfers from state-owned teaching hospitals deposited as Appropriated Receipts - Match for Medicaid No. 8062 and expended in Strategy A.4.1, Non-Full Benefit Payments, shall be the only source of funds used for the non-federal share for Medicaid GME payments for state-owned teaching hospitals, and HHSC shall develop a payment methodology for Medicaid GME payments to state-owned teaching hospitals.

6. **Medicaid Enterprise Systems (MES).** Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission shall maintain an Executive Steering Committee for the contracts supporting the Texas Medicaid Management Information System (MMIS) capital project. The Medicaid Enterprise Systems (MES) Executive Steering Committee shall provide executive-level strategic direction and commitment to the MES contracts and MMIS projects. Strategic direction includes, but is not limited to, review of contract terms prior to execution of a new contract or amendment and reports from third-party quality assurance and independent verification and validation vendors. The Executive Commissioner or his or her designee shall chair the MES Executive Steering Committee. Membership of the MES Executive Steering Committee shall include similar executive level representatives, including the Chief Financial Officer, Information Resource Manager, technology sponsors, project managers, project contractors, staff of the Legislative Budget Board, and members of the Quality Assurance Team or their designee.

   In addition, the MES Executive Steering Committee shall report any anticipated contract or project cost over-runs or delays to the Legislative Budget Board.

   Notwithstanding the limitations of Article IX, Section 14.03, Transfers - Capital Budget, and any other transfer provisions of this Act, funds appropriated by this Act to the Health and Human Services Commission may not be expended in excess of the amounts identified in Rider 2, Capital Budget, for the MMIS capital budget project without prior written approval from the Legislative Budget Board. Additional information requested by the Legislative Budget Board related to this approval shall be provided in a timely manner and shall be prepared in a format specified by the Legislative Budget Board. The request shall be considered to be approved unless the Legislative Budget Board issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House of Representatives, and Lieutenant Governor. Any request for additional information from the Legislative Budget Board shall interrupt the counting of the 30 business days.

7. **Data Analysis Unit Reporting.** Out of funds appropriated above, the Health and Human Services Commission shall report to the Legislative Budget Board on an annual basis by December 1 of each year the activities and findings of the Data Analysis Unit established pursuant to Government Code, Section 531.0082. 9. **Increase Consumer Directed Services.** Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission (HHSC) shall educate STAR+PLUS home and community-based services consumers about the Consumer Directed Services (CDS) option, and seek to increase the percentage of clients who choose CDS. HHSC shall collect information annually from each Managed Care Organization on the percent of clients enrolled in CDS and shall establish incremental benchmarks for improvement. HHSC shall include this information on the commission's website and provide it to the Texas Council on Consumer Direction.

10. **Medicaid Therapy Services Reporting.** Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission (HHSC) shall submit, on a biannual basis, the following information related to pediatric acute care therapy services (including physical, occupational, and speech therapies) by service delivery area and information regarding whether the items below negatively affect access to care:

(i) an assessment conducted by clinical staff of HHSC; and

(ii) supporting documentation, including the person's medical and service records.

(b) Out of funds appropriated above in Goal A, Medicaid Client Services, for the waiver programs identified in Subsection (a) above, and subject to the terms of Subsection (c) below, HHSC may use General Revenue Funds to continue to provide services to a person who was receiving medical assistance waiver program services on September 1, 2005, at a cost that exceeded the individual cost limit specified in the medical assistance waiver program if:

(1) federal financial participation is not available to pay for such services; and

(2) continuation of those services is necessary for the person to live in the most integrated setting appropriate to the needs of the person.

(c) Authority provided in this rider is contingent upon HHSC submitting a report in writing to the Legislative Budget Board and the Office of the Governor on October 1 of each year. The report shall include the number of clients by program which exceeds cost limits and the unmatched General Revenue associated with each by fiscal year.

15. Supplemental Payment Programs Reporting and Appropriation Authority for Intergovernmental Transfers. Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission (HHSC) shall report certain financial and expenditure information regarding supplemental payment programs, including, but not limited to, the Disproportionate Share Hospital (DSH) program, the Uncompensated Care (UC) Pool, the Public Health Providers Charity Care Pool (PHP-CCP), and other state directed payment programs, supplemental, or other payments where the source of the non-federal share is intergovernmental transfers (IGTs) or certified public expenditures (CPEs), and any successor programs.

(a) HHSC shall report quarterly:

(1) Prospective payment estimates, aligning estimated payments reporting with the CMS-37. The report will include a prospective certification that the requisite matching state and local funds are, or will be, available for the certified quarter. The quarterly financial report provides a statement of the state's Medicaid funding requirements for a certified quarter through summary data by each program; and

(2) Expenditures made in the previous quarter, aligning expenditure reporting with the CMS-64. The report will include actual expenditures allowable under state and federal requirements. HHSC will report the recipients of all funds distributed by the commission for all supplemental payment programs. The report shall include:

(c) IGTs of funds from institutions of higher education are appropriated to HHSC for the non-federal share of uncompensated care or delivery system reform incentive payments or monitoring costs under the Healthcare Transformation and Quality Improvement Program 1115 Waiver.

(d) In an effort to maximize the receipt of federal Medicaid funding, HHSC is appropriated and may expend IGTs received as Appropriated Receipts-Match for Medicaid No. 8062 for the purpose of matching Medicaid Federal Funds for payments to Medicaid providers and to offset administrative costs for programs HHSC administers for other entities.

(e) From funds appropriated elsewhere in the Act, HHSC shall provide a copy of the annual independent audit conducted of DSH and UC in compliance with federal requirements. HHSC shall provide a report of the audit's findings annually by June 30 to the Office of the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, the Senate Finance Committee members, the House Appropriations Committee members, and the Legislative Budget Board.

(f) HHSC will use the sums transferred from state owned hospitals as provided elsewhere in the Act as necessary to apply for appropriate matching Federal Funds and to provide the state's share of disproportionate share payments and uncompensated care payments authorized under the federal Healthcare Transformation and Quality Improvement Waiver, excluding payments for physicians, pharmacies, and clinics, due to state-owned hospitals.

(1) Any amounts of such transferred funds not required for these payments shall be deposited by HHSC to the General Revenue Fund as unappropriated revenue.

(2) If a state owned hospital is eligible and chooses to participate in a hospital directed payment program authorized under the federal Healthcare Transformation and Quality Improvement Waiver, and the amount of funds deposited by HHSC under subparagraph (1) of this provision is not equivalent to the amount deposited in state fiscal year 2023 based on the non-enhanced Federal Medical Assistance Percentages, HHSC shall calculate the difference and provide notice to the state-owned hospital, the Legislative Budget Board, the Comptroller of Public Accounts, and the Office of the Governor.

(3) Payments for physicians, pharmacies, and clinics are governed by Special Provisions Relating Only to Agencies of Higher Education, Section 50, Transfer of Appropriations for Participation in the Healthcare Transformation and Quality Improvement Waiver.

(g) By October 1 of each fiscal year, HHSC shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Office of the Governor, and the Legislative Budget Board.

(h) Included in the "Number of Full Time Equivalents (FTE)" appropriated above, are 42.0 FTEs for each year of the 2024-25 biennium for the implementation of the extension of the Healthcare Transformation and Quality Improvement 1115 waiver, including for increased monitoring and oversight of the use of local funds, and administration of new directed-payment programs and new supplemental payment programs. Notwithstanding the limitations of Article IX, Section 6.10, Limitations on State Employment Levels, limitations on FTEs do not apply to instances of employment in which funds are derived from Government Code, Section 531.021135, and applicable federal funds.

(i) Notwithstanding the limitations in Article IX, Section 14.03, Transfers - Capital Budget, and Rider 97, Limitations on Transfer Authority, HHSC is authorized to transfer from an existing capital budget item or non-capital budget item to a new capital budget item not present in the agency's bill pattern to implement an electronic data collection and storage tool for the collection of information to support monitoring of local funds used in the Medicaid program, provided that HHSC determines that the project is necessary to meet the state's responsibilities under the Special Terms and Conditions for the Healthcare Transformation and Quality Improvement Program 1115 waiver.

16. **Rural Labor and Delivery Medicaid Add-on Payment.** Included in amounts appropriated above to the Health and Human Services Commission (HHSC) in Strategy A.1.3, Pregnant Women, $5,296,897 in General Revenue and $7,985,192 in Federal Funds in fiscal year 2024 and $5,328,774 in General Revenue and $7,953,315 in Federal Funds in fiscal year 2025 for HHSC to provide a $750 Medicaid add-on payment for labor and delivery services provided by rural hospitals.

    For purposes of this rider, rural hospitals are defined as (1) hospitals located in a county with 65,000 or fewer persons according to the 2020 U.S. Census; or (2) a hospital designated by Medicare as a Critical Access Hospital (CAH), a Sole Community Hospital (SCH), or a Rural Referral Center (RRC) that is not located in a Metropolitan Statistical Area (MSA); or (3) a hospital that has 100 or fewer beds, is designated by Medicare as a CAH, a SCH, or a RRC, and is located in an MSA.

17. **Federal Provider Enrollment and Screening Fee.** Included in amounts appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, is $603,861 in Other Funds - Appropriated Receipts Match for Medicaid No. 8062 in each fiscal year generated from Provider Enrollment and Screening Fees. For the purpose of this provision, Provider Screening and Enrollment Fees are defined as payments from medical providers and suppliers required by the U.S. Centers for Medicare and Medicaid Services as a condition for enrolling as a provider in the Medicaid and CHIP programs but collected and received by the Health and Human Services Commission (HHSC).

    (a) Appropriations made above include all unexpended and unobligated balances of Provider Enrollment and Screening Fees remaining as of August 31, 2023, and receipts collected in fiscal years 2024 and 2025.

    (b) In the event that revenue from Provider Enrollment and Screening Fees should be greater than the amounts identified in this provision, HHSC is appropriated and authorized to expend these receipts, subject to the following requirements:

        (1) Amounts available shall be expended prior to utilization of any other appropriated funds required to support provider enrollment;

        (2) Amounts collected shall also be used to fund applicable employee benefits pursuant to Article IX provisions elsewhere in this Act; and

(1) Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes; and

(2) In the event General Revenue has been expended prior to the receipt of program income or cost sharing revenues, the commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of program income or cost sharing revenue balances.

19. Interest List Reporting. Out of funds appropriated above in Strategy B.1.1, Medicaid & CHIP Contracts & Administration, the Health and Human Services Commission shall post the following information regarding the Home and Community-based Services, Community Living Assistance and Support Services, Deaf-Blind Multiple Disabilities, Texas Home Living, and Medically Dependent Children Program waivers and STAR+PLUS on the commission's website:

20. Hospital Reimbursement. Contingent upon federal approval, and to the extent allowed by law, no funds appropriated above for the payment of inpatient hospital fees and charges under the medical assistance program may be expended, except under a prospective payment methodology for all Medicaid inpatient claims, excluding state-owned teaching hospital Medicaid inpatient claims, that employs sound cost reimbursement principles and:

(a) enhances the Health and Human Services Commission's ability to be a prudent purchaser of health care;

(b) reflects costs that are allowable, reasonable and medically necessary to deliver health care services to the state's Medicaid population;

(c) reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;

(d) promotes and rewards increased efficiency in the operation of hospitals;

(e) emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles; and

(f) recognizes, through add-on payments or other methods, the unique needs of individual hospitals, including rural hospitals.

21. **Health and Human Services Cost Containment.** The Health and Human Services Commission (HHSC) shall develop and implement cost containment initiatives to achieve savings of at least $350,000,000 in General Revenue Funds for the 2024-25 biennium throughout the health and human services system. These initiatives shall include:

(a) increasing fraud, waste, and abuse prevention and detection;

(b) seeking to maximize federal flexibility under the Medicaid program;

(c) achieving other programmatic and administrative efficiencies; and

(d) savings from services that include Emergency Telemedicine Services for Individuals with Intellectual and Developmental Disabilities.

HHSC shall provide an annual report on the implementation of cost containment initiatives to the Legislative Budget Board by December 1. It is the intent of the legislature that HHSC shall achieve savings without adjusting amount, scope, or duration of services or otherwise negatively impacting access to care. It is the intent of the legislature that prior to making any changes, HHSC shall consider stakeholder input, including complying with any statutory requirements related to rulemaking and public hearings. This rider shall not be construed as limiting HHSC's ability to maximize federal flexibility under the Medicaid program, including federal flexibility that may impact amount, scope, or duration of services.

22. **Access to Federal Data Services Hub.** To the extent allowable under state and federal law and regulations, the Health and Human Services Commission (HHSC) shall request a consumer report containing employment and income information through the Centers for Medicare and Medicaid Services Federal Data Services Hub for Medicaid eligibility determinations and redeterminations in order to achieve cost savings, improve timeliness, and minimize fraud.

23. **Medicaid Provider Rate Increases.** It is the intent of the Legislature that, when Medicaid provider rates are increased as a result of a legislative appropriation, managed care organizations reimburse the full amount of the appropriated funds to providers, to the extent allowed by federal laws and regulations.

24. **Nursing Facility Reimbursement Rate Increase.** Included in the appropriations above are the following amounts:

(a) $129,385,946 in General Revenue and $195,052,234 in Federal Funds ($324,438,180 in All Funds) in fiscal year 2024 and $135,703,968 in General Revenue and $202,541,217 in Federal Funds ($338,245,185 in All Funds) in fiscal year 2025 in Strategy A.1.1, Aged and Medicare-Related; and

The Health and Human Services Commission (HHSC) shall only expend the funds in Subsections (a) and (b) to provide reimbursement rate increases that will increase the wages and benefits of direct care staff. HHSC shall implement the rate increases in a manner that will enable HHSC to ensure that at least 90 percent of the funds are expended for the benefit of direct care staff wages

and benefits and shall return to the Comptroller of Public Accounts any amount recouped from a provider who does not utilize the funds in accordance with that purpose. HHSC may not expend funds appropriated for nursing facility services in Medicaid managed care in lieu of payments that are currently authorized by the Centers for Medicare and Medicaid Services for the Quality Improvement Payment Program; and HHSC may not expend funds appropriated for nursing facility services in Medicaid fee-for-service that would not result in receipt of Federal Funds.

To receive reimbursement rate increases appropriated under Subsections (a) and (b), nursing facilities must report to HHSC on their biennial cost report information regarding the use of these funds, as specified by HHSC, including information related to efforts to improve or maintain client care and quality of services, and to demonstrate that at least 90 percent of the funds were expended for the purpose of direct care staff wages or benefits.

25. **Patient Driven Payment Model for Nursing Facility Services.** Beginning on September 1, 2024, the Health and Human Services Commission (HHSC) must develop and implement a Texas version of the Patient Driven Payment Model (PDPM) methodology for the reimbursement of long-term stay nursing facility services in the Medicaid program to achieve improved care for long-term stay nursing facility services, excluding services provided by a pediatric care facility or any state-owned facilities.

    It is the intent of the Legislature that reimbursement rates for nursing facility services should incentivize client care and quality of services over resource utilization and that nursing facilities participating in the Medicaid program should utilize reimbursement rate increases to improve staff-to-client ratios, staff training and education, and wages for direct care staff, as staffing is a primary and fundamental driver of client outcomes.

    Included in appropriations above are the following amounts to implement the Nursing Facility PDPM:

    (a) $40,087,983 in General Revenue and $59,832,213 in Federal Funds ($99,920,196 in All Funds) in fiscal year 2025 in Strategy A.1.1, Aged and Medicare-Related, for reimbursement rate increases for nursing facility services reimbursed using the new PDPM methodology.

        (1) It is the intent of the Legislature that the funds in Subsection (a) support providers in maintaining the quality of services provided to Medicaid beneficiaries by stabilizing revenue levels that may otherwise be impacted by the conversion to a Texas version of the PDPM, as developed by HHSC;

        (2) In order to receive reimbursement rate increases appropriated under Subsection (a), nursing facilities must report to HHSC on their biennial cost report information regarding the use of these funds, as specified by HHSC, including information related to efforts to improve or maintain client care and quality of services; and

Sec. 3. Services to Employees. The Department of State Health Services, Department of Family and Protective Services and Health and Human Services Commission may expend funds for the provision of first aid or other minor medical attention for employees injured in the course and scope of their employment and for the repair and/or replacement of employees' items of personal property which are damaged or destroyed in the course and scope of their employment so long as such items are medically prescribed equipment. Expenditures for such equipment may not exceed $500 per employee per incident.

Sec. 4. Federal Match Assumptions and Limitations on Use of Available General Revenue Funds.

(a) **Federal Match Assumptions.** The following percentages reflect federal match assumptions used in Article II of this Act.

Federal Medical Assistance Percentage (FMAP)

	2024	2025
Federal Fiscal Year	60.15%	59.85%
State Fiscal Year	60.13%	59.88%

Enhanced Federal Medical Assistance Percentage (EFMAP)

	2024	2025
Federal Fiscal Year	72.11%	71.90%
State Fiscal Year	72.09%	71.91%

(b) **Enhanced Match Assumptions and Reporting.** Health and human services agencies listed in Article II of this Act shall submit to the Legislative Budget Board and the Governor the monthly number of clients receiving services eligible for any enhanced federal match as well as the amount of eligible expenditures subject to an enhanced match, by strategy. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board. For purposes of this section, enhanced federal matches are defined as an increase to the usual matching rate (regardless of what the usual match is) that are, or become, available under Medicaid or another federally-matched program. Enhanced federal matches include, but are not limited to, those made available through the Money Follows the Person demonstration and the Community First Choice Program. Whether or not a match meets the definition of enhanced federal match for purposes of this section will be at the discretion of the Legislative Budget Board.

Any other Article II agency is still subject to the requirements of Subsections (b) and (c) of this provision if any agency expenditures receive an enhanced federal match.

(c) **Limitations on Use of Available General Revenue Funds.** Notwithstanding the limitations of Article IX, Section 13.02(a), in the event the actual FMAP and EFMAP should be greater than shown in subsection (a), or the amount of increased Federal Funds and reduced General Revenue Funds due to enhanced matches should be greater than shown in Subsection (b), or if any other matching rate becomes more favorable than the rate assumed in the General Appropriations Act, the health and human services agencies in Article II of this Act are authorized to expend the General Revenue Funds thereby made available only with the prior written approval of the Legislative Budget Board and Governor.

To request approval to expend available General Revenue Funds, an agency shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information, by fiscal year:

(1) a detailed explanation of the proposed use(s) of the available General Revenue Funds and whether the expenditure(s) will be one-time or ongoing;

(2) the amount available by strategy;

(3) the strategy(ies) in which the funds will be expended and the associated amounts, including any matching Federal Funds;

(4) an estimate of performance levels and, where relevant, a comparison to targets included in this Act; and

(5) the capital budget and/or full-time equivalent impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the expenditure of General Revenue Funds made available if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 5. Attorney General Representation. The Attorney General and the respective head of the Health and Human Services Commission or a health and human services agency listed in Article II of this Act are authorized to use the funds appropriated above to jointly select one or more Assistant Attorneys General to be assigned to the respective agency.

Transfers that exceed $1,000,000 in General Revenue or FTE adjustments of more than 10.0 FTEs are subject to the prior written approval of the Legislative Budget Board and the Governor.

Transfers below these thresholds require written notification to the Legislative Budget Board and Governor within 30 days of the transfer. The total of all transfers from a strategy may not exceed $1,000,000 without the prior written approval of the Legislative Budget Board and the Governor.

To request a transfer, the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

(a) a detailed explanation of the purpose(s) of the transfer, including the following:

(1) a description of each initiative with funding and FTE information by fiscal year; and

(2) an indication of whether the expenditure will be one-time or ongoing;

(b) the names of the originating and receiving agencies and/or strategies and the method of financing and FTEs for each strategy by fiscal year;

(c) an estimate of performance levels and, where relevant, a comparison to targets included in this Act for both the originating and the receiving agencies and/or strategies; and

(d) the capital budget impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

In the case of disaster or other emergency, this provision is superseded by the emergency-related transfer authority in Article IX of this Act.

(3) an estimate of performance levels and, where relevant, a comparison to targets included in this Act; and

(4) the capital budget impact.

The request shall be considered disapproved unless the Legislative Budget Board and the Governor issue written approval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request to expend funds and forwards its

review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

(e) **Requests and Notifications.** Any requests or notifications submitted by an agency listed in Article II of this Act, pursuant to any rider or other provision of this Act, shall include the anticipated impact the request or notification will have on system support service assessments by agency and method-of-financing.

The Comptroller of Public Accounts shall not allow the expenditure of funds for system support services, including assessments if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 10. Professional Trainees and Interns. Notwithstanding Article IX, Part 2, Section 2.01, Position Classification Plan, the Department of State Health Services and the Health and Human Services Commission may compensate professional trainees or interns in recognized educational programs related to the provision of mental health or intellectual disability services, radiation control, or any critical health care profession as determined by the Health and Human Services Executive Commissioner at any salary rate not to exceed the following amounts:

Psychiatrist Interns	$3,548 per month
Physician Interns	$3,042 per month
Psychologist Trainees	$2,859 per month
Registered Nurse Trainees	$2,387 per month
Chaplain Interns	$2,247 per month
Physical, Occupational, or Registered Therapist Trainees	$2,117 per month

Medical Technologist Trainees	$1,998 per month
Licensed Vocational Nurse Trainees	$1,785 per month

Sec. 11. Appropriation of Receipts: Damages and Penalties. Included in amounts appropriated by this Act are the following:

(a) $585,363 in Other Funds (Appropriated Receipts) in each fiscal year in Health and Human Services Commission (HHSC) Strategy H.1.1, Health Care Facilities & Community-based Regulation, collected pursuant to Human Resources Code Section 32.021. Any amount collected above this amount is to be applied to the protection of health and property of residents in nursing facilities in accordance with 42 U.S. Code Section 1396r(h)(2)(a)(ii) and Human Resources Code Section 32.021(g) subject to the approval of the Centers for Medicare and Medicaid Services; and

(b) $390,000 in General Revenue in each fiscal year in Department of State Health Services (DSHS) Strategy C.1.1, Food (Meat) and Drug Safety, contingent upon the collection of civil penalties under Health and Safety Code Section 431.0585. Any amounts collected above this amount are appropriated to DSHS in amounts equal to the costs of the investigation and collection proceedings conducted under Health and Safety Code Section 431.0585, and any amounts collected as reimbursement for claims paid by the agency. In the event that actual and/or projected revenue collections are insufficient to offset the appropriations identified in this subsection, the Comptroller of Public Accounts is directed to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

Sec. 12. Rate Limitations and Reporting Requirements. Notwithstanding other provisions of this Act, the use of appropriated funds for a rate paid by the Health and Human Services Commission (HHSC) or the Department of State Health Services (DSHS) shall be governed by the specific limitations included in this provision.

For purposes of this provision, "rate" is defined to include all provider reimbursements (regardless of methodology), including for medications, that account for significant expenditures. "Fiscal impact" is defined as an increase in expenditures due to either a rate change or establishment of a new rate, including the impact on all affected programs. Additionally, estimates of fiscal impacts should be based

on the most current caseload forecast submitted by HHSC pursuant to other provisions in this Act and should specify method-of-financing. Fiscal estimates that impact multiple risk groups may be reported at an aggregate level and acute care services may be reported by rate category.

(a) **Notification of Change to Managed Care Rates**.

(1) Within seven calendar days of the establishment of preliminary premium rates for managed care organizations (MCOs) contracting with HHSC, the Executive Commissioner of HHSC shall submit the following information in writing to the Legislative Budget Board, the Governor, and the State Auditor:

(i) a schedule showing the previous fiscal year's rate and the proposed rate, which should include information on the rate basis for the MCO reimbursements to providers;

(ii) a schedule and description of the rate-setting process for all rates listed for subsection (1), which should include:

(a) a thorough explanation of all formulas and rounding methodologies used in the rate setting process;

(b) identification of any claims excluded from the data in calculating rates;

(c) reasoning and basis for all trends used in the rate-setting process, including an analysis of any regional or plan-specific trends that cause the overall statewide trend to increase by more than one percent and a justification for assuming those trends will continue;

(d) all analyses conducted by the Data Analysis Unit (established pursuant to Government Code Section 531.0082) that are pertinent to the rate-setting process; and

(e) all documentation submitted to the Centers for Medicare and Medicaid Services (CMS) pursuant to 42 C.F.R. Section 438.7.

(iii) an estimate of the fiscal impact, by agency, method-of-financing, and fiscal year, for each rate change listed for Subsection (1).

(2) The Executive Commissioner of HHSC shall submit all available information identified in Subsection (1) if the preliminary rates are changed and shall also submit the reason for these changes. The Executive Commissioner of HHSC shall submit the final proposed rates along with the information listed in Subsection (1) no later than 45 calendar days prior to implementation.

(3) Within seven days of the submission requirements listed above in Subsections (i) through (iii) for final proposed rates, the Executive Commissioner of HHSC shall submit a schedule identifying an estimate of the amount by which expenditures at such rate levels would exceed appropriated funding, by method-of-financing.

(b) **Orphan Drug Notification.** HHSC shall provide notification of a new or increased rate for an orphan drug within 60 calendar days following the addition of the drug as a payable benefit if managed care capitation rates are to be adjusted or the annual fiscal impact to fee-for-service expenditures is expected to exceed $500,000 in General Revenue Funds. HHSC may allocate expenses between fee-for-service and managed care using a methodology that reflects the anticipated distribution of the client population eligible for the drug. An orphan drug must meet criteria specified in the federal Orphan Drug Act and regulations at 21 C.F.R. Section 316, and be required to be covered by the Medicaid program under federal law. With the notification, HHSC shall provide the fiscal impact by fiscal year and method-of-financing, the amount of drug rebates projected, and an estimate of the population to be served.

(c) **Semi-Annual Notification.** With the exception of statutorily required pricing updates on oral medications, HHSC shall provide notice on October 1 and April 1 of changed rates for:

(1) new procedure codes required to conform to Federal Healthcare Common Procedure Coding System (HCPCS) updates;

(2) revised rates occurring as a result of a regularly scheduled rate review;

(3) any rate change or new rate for which managed care capitation rates will not be adjusted and estimated to have an annual fiscal impact of less than $500,000 in General Revenue Funds; and

(4) any orphan drug not subject to the requirements of subsection (b).

(d) **Limitation on Rates that Exceed Appropriated Funding**. With the exception of those rates specified in Subsections (b) or (c), HHSC and DSHS may not pay a rate that would result in expenditures that exceed, in any fiscal year, the amounts appropriated by this Act to a strategy for the services to which the rate applies without the prior written approval of the Legislative Budget Board and the Governor.

To request authorization for such a rate, the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

(1) a list of each new rate and/or the existing rate and the proposed changed rate; and

(2) an estimate of the fiscal impacts of the new rate and/or rate change by agency, method-of-financing, and fiscal year.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 15 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request for authorization for the rate and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 15 business days.

(e) Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. Notifications, requests, and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

(f) The Office of the State Auditor may review the fiscal impact information provided under Sections (a) through (d) along with supporting documentation, supporting records, and justification for the rate increase provided by HHSC and report back to the Legislative Budget Board and the Governor before the rate is implemented.

(g) The Comptroller of Public Accounts shall not allow the expenditure of funds for a new or increased rate if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 13. Locality Pay. Out of funds appropriated above, the health and human services agencies listed in Article II of this Act are authorized to pay a salary supplement, not to exceed $1,200 per month, to agency-determined employees whose duty station is located in an area of the state in which the high cost of living is causing excessive employee turnover, as determined by the agency. This salary supplement shall be in addition to the maximum salary rate authorized for that position elsewhere in this Act. In the event that an employee so assigned works on a less than full-time basis, the maximum salary supplement shall be set on a basis proportionate to the number of hours paid.

Sec. 14. Limitation: Expenditure and Transfer of Public Health Medicaid Reimbursements.

(a) **Appropriations**. Included in the amounts appropriated to the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) are the following amounts of Public Health Medicaid Reimbursements (Account No. 709):

(1) Department of State Health Services:

(A) Strategy A.4.1, Laboratory Services: $44,086,029 in fiscal year 2024 and $44,086,029 in fiscal year 2025;

(B) Strategy B.2.2, Texas Primary Care Office: $225,576 in each fiscal year; and

(C) Strategy E.1.1, Central Administration: $366,935 in each fiscal year.

(2) Health and Human Services Commission:

(A) Strategy A.4.1, Non-Full Benefit Payments: $69,245,724 in fiscal year 2024 and $69,245,724 in fiscal year 2025.

Revenue from Account No. 709 shall be distributed first to the item(s) in Subsection (a)(1) until the full amount of those appropriations is satisfied. Revenue from Account No. 709 shall be distributed to the appropriate agency within ten business days of receipt.

Appropriations from Account No. 709 shall be expended prior to utilization of General Revenue or General Revenue-Dedicated Funds in strategies identified in this subsection. In the event General Revenue or General Revenue-Dedicated Funds have been expended prior to the receipt of appropriations from Account No. 709, DSHS or HHSC shall reimburse General Revenue or General Revenue-Dedicated on a monthly basis.

(b) **Limitation on Use of Public Health Medicaid Reimbursements (Account 709).**

(1) In the event that Public Health Medicaid Reimbursement revenues exceed the amounts noted above in a fiscal year, the funds are transferred to the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052. If this occurs, DSHS may notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that DSHS projects will be received in excess of the amounts appropriated, along with sufficient information to reflect how the estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenue, a finding of fact to that effect shall be issued to reflect additional revenue for the year to be deposited to the Newborn Screening Preservation Account 5183.

(2) In the event that screens on the Recommended Uniform Screening Panel are not currently offered by DSHS, DSHS may provide notification of the intent to expend the funds available in the Newborn Screening Preservation Account 5183 up to $12,000,000 for the biennium. The notification must be provided to the Legislative Budget Board and the Governor at least 30 days prior to the expenditure.

(3) In the event that screens on the Recommended Uniform Screening Panel are not currently offered by DSHS, DSHS may request to expend the funds available in the Newborn Screening Preservation Account 5183 exceeding $12,000,000 for the biennium. The request shall include the following information:

(A) a detailed explanation of the purpose(s) of the increase in expenditure and whether the expenditure will be one-time or ongoing;

(B) the name of the strategy or strategies affected by the increase/decrease and the FTEs for each strategy by fiscal year;

(C) the impact on performance levels, and, where relevant, a comparison to targets included in this Act for the affected strategy or strategies; and

(D) the impact of the expenditure on the capital budget.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days after the date the Legislative Budget Board staff concludes its review of the proposal to expend the funds and forwards the review to the Chair of the House Appropriations Committee, Chair of the Senate

Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

(4) In the event that the notification occurs in b(2) or the request in b(3) is approved, notwithstanding the limitations of Article IX, Section 14.03, Transfers-Capital Budget, DSHS is authorized to transfer from a non-capital budget item to an existing capital budget item or a new capital budget item to implement the new test using funds from the Newborn Screening Preservation Account. DSHS will provide a prior written notification to the Legislative Budget Board and the Governor's office.

(5) In the event that the notification occurs in b(2) or the request in b(3) is approved, any unexpended and unobligated balances remaining as of August 31, 2023, are appropriated to DSHS for the fiscal year beginning September 1, 2023, for the same purpose. Any unexpended and unobligated balances remaining as of August 31, 2024, are appropriated to DSHS for the fiscal year beginning September 1, 2024, for the same purpose.

(6) In the event that Public Health Medicaid Reimbursement revenues and balances are insufficient to support appropriations amounts identified in subsection (a), a reduction shall be made in HHSC Strategy A.4.1, Non-Full Benefit Payments.

(c) **Addition of New Newborn Screening.** In the event that additional screens are added to the Recommended Uniform Screening Panel in the biennium, additional revenue from the account shall be used as follows:

(1) fund DSHS increased cost for the test; and

(2) deposited to the credit of the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052.

Sec. 15. Use of Trauma Fund Receipts. In an effort to maximize the availability of Federal Funds under Medicaid for the purposes of providing reimbursement for uncompensated trauma care at designated facilities and providing increases in Medicaid inpatient provider rates, the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) shall enter into an interagency contract to allow for the transfer of funds from General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111, from DSHS to HHSC for this purpose.

Appropriations include $96,012,978 in fiscal year 2024 and $98,085,200 in fiscal year 2025 out of the General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111 to the Department of State Health Services, Strategy B.2.1, EMS and Trauma Care Systems. Of that amount, $82,189,313 in fiscal year 2024 and $84,261,535 in fiscal year 2025 is to be transferred through the interagency contract to HHSC to provide add-on payments for trauma care and safety-net hospitals in Medicaid.

If funds are not available in the amount appropriated from General Revenue-Dedicated Designated Trauma Facility and EMS Account No. 5111 in this Act, the amounts identified for transfer through interagency contract to HHSC shall be reduced by the amount that funds are less than appropriations and an equal amount of General Revenue Funds is appropriated to HHSC.

Sec. 16. Prohibition on Use of Appropriations for the Private Operation of a State Hospital. No funds appropriated by this Act shall be used to solicit bids for the private operation of a state hospital or for the private operation of a state hospital, without approval from the Legislative Budget Board.

Sec. 17. Charges to Employees and Guests. Collections for services rendered to employees and guests at the state supported living centers, state mental health hospitals, Rio Grande State Center, or the Texas Center for Infectious Disease ("facilities") shall be made by a deduction from the recipient's salary or by cash payment in advance. Such deductions and other receipts for these services from employees and guests are appropriated to the facilities. Refunds of excess collections shall be made from the appropriation to which the collection was deposited.

As compensation for services rendered, facilities may provide free meals for food service personnel and volunteer workers, and may furnish housing, meals, and laundry service in exchange for services rendered by interns, chaplains in training, and student nurses.

Sec. 18. New or Additional Facilities. No funds appropriated by this Act may be spent for constructing new or additional facilities or for the purchase of sites without specific authorization of the Legislature. All facilities shall be kept where they are located by the Legislature, and all new buildings to be constructed shall be on these sites unless otherwise specifically authorized by the Legislature. For the purpose of this section, specific authorization may be granted either by basic statute or special authorization in this Act.

Sec. 19. Revolving Petty Cash Funds. Each state mental health hospital, each state supported living center, the Rio Grande State Center, and the Texas Center for Infectious Disease may establish a petty cash fund to be maintained in cash or at a local bank. The petty cash fund, not to exceed $25,000, shall be used only for making emergency payments and small purchases which will increase the efficiency of the operation; for payments to client workers on a regular payday basis; for use as change funds in specific locations where financial activities of the agency require a change fund; and for supplies and equipment purchases for on-campus work centers.

Sec. 20. Transfers of Appropriation - State Owned Hospitals. The Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS) shall transfer from non-Medicaid state appropriated funds the following amounts from HHSC Strategy G.2.1, Mental Health State Hospitals, and DSHS Strategy A.2.5, TX Center of Infectious Disease, to HHSC Goal B, Medicaid and CHIP Contracts and Administration, for the Disproportionate Share Hospital Reimbursement Program:

	2024	2025
State Mental Health Hospitals	$157,897,928	$157,897,928
Texas Center for Infectious Disease	5,292,067	5,292,067
	$163,189,995	$163,189,995

The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with HHSC. The Legislative Budget Board may adjust the amounts of such transfers as necessary to match available federal funds. HHSC and DSHS shall also transfer non-Medicaid state appropriated funds as necessary for other qualifying state-funded community hospitals including mental health community hospitals. HHSC and DSHS shall monitor Medicaid utilization rates at these state-owned hospitals to ensure their qualification for the Disproportionate Share Hospital Reimbursement Program.

Sec. 21. Payment for Compensatory Time. The Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS), to the extent permitted by law, may pay FLSA non-exempt employees of state hospitals and state supported living centers on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions. In addition, HHSC and DSHS, with the explicit approval of the Health and Human Services Executive Commissioner, and the Department of Family and Protective Services (DFPS), with the explicit approval of the DFPS Commissioner, to the extent permitted by law, may pay FLSA non-exempt employees required to provide support during a federally declared disaster on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions.

Sec. 22. Appropriation of Local Funds. All unexpended balances of local funds received from counties, cities, and other local sources as of August 31, 2023, (estimated to be $0) by an agency named in this Article, are appropriated to that agency for the same purposes for use during the fiscal biennium beginning September 1, 2023.

Sec. 23. Reporting of Child Abuse. All health and human services agencies listed in Article II of this Act may distribute or provide appropriated funds only to recipients who show good faith efforts to comply with all child abuse reporting guidelines and requirements set forth in Chapter 261 of the Texas Family Code.

Sec. 24. Federal Funds Requirements.

(a) **Reporting Requirements.** All agencies listed in Article II of this Act shall submit the following information to the Legislative Budget Board and the Governor no later than the date the respective report is submitted to the federal government:

(1) Notification of proposed State Plan amendments or waivers for any federal grant requiring a state plan, which shall also be provided to the permanent standing committees of the House and Senate with jurisdiction over health and human services; and
(2) Reports associated with Maintenance of Effort (MOE) for federal grants.

(b) **Loss of Federal Funds.** All agencies listed in Article II of this Act shall notify the Legislative Budget Board and the Governor on a timely basis about emerging issues that could result in the loss of more than $1,000,000 in federal funds assumed in this Act.

(c) **General Revenue Associated with MOE.** The agencies listed in Article II of this Act shall not increase the state's MOE requirement for any federal grant without prior written approval of the Legislative Budget Board and the Governor. To request approval, the agency shall submit a written request to the Legislative Budget Board and the Governor that includes the following information:

(1) a detailed explanation of the need to increase the state's MOE requirement; and

(2) the impact the increase will have on future MOE requirements.

(d) **Reporting of MOE for Federal Grants.** All agencies listed in Article II of this Act shall submit the following information to the Legislative Budget Board by October 1 and April 1 of each year for each federal grant received by the agency that has a MOE requirement:

(1) the current amount of the MOE requirement for the grant;

(2) the time period of which the current MOE requirement applies;

(3) total expenditures made towards meeting the current MOE requirement;

(4) the time period for which current expenditures will impact future MOE requirements;

(5) projection of future MOE requirements based on current spending; and

(6) if the agency projects the current MOE requirement will not be fulfilled, a narrative explanation of why and the impact of not doing so, including any projected loss of federal funding.

Sec. 25. Unexpended Balance Authority for Certain Funds Supporting Capital Projects.

(a) Notwithstanding all other limitations on unexpended balance authority in the Department of State Health Services (DSHS) or Department of Family and Protective Services (DFPS) bill patterns, any unexpended and unobligated balances from amounts appropriated as of August 31, 2024, to DSHS or DFPS are appropriated for the same purposes for the fiscal year beginning September 1, 2024, subject to the limitations in subsection (b) of this rider.

(b) Unexpended balance authority provided by this rider is limited to funds that were appropriated to DFPS or DSHS to support enterprise assessment billing for a Health and Human Services Commission (HHSC) capital budget project and for which HHSC has used other authority provided by this Act to make appropriations for capital budget purposes made by this Act for use during the first year of the biennium available for use in the second year of the biennium for the same purpose.

Sec. 26. World Health Organization. No funds from the health and human services agencies listed in Article II of this Act may be used to engage in activities in collaboration with, directed by, or financed by the World Health Organization or its affiliates. No funds from the health and human services agencies shall be distributed to individuals or entities that engage in activities in collaboration with, directed by, or financed by the World Health Organization or its affiliates.

3. Foundation School Program Funding. In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.

Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2024-25 biennium, a total of $30,628,429,152 in fiscal year 2024 and $32,117,325,009 in fiscal year 2025 shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Chapters 46, 48 and 49 of the Texas Education Code. Any unexpended balances as of August 31, 2024, are appropriated for fiscal year 2025 for the same purposes.

Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 46, 48 and 49 based on:

(a) estimates of average daily attendance provided by the Texas Education Agency in March 2023;

(b) local district tax rates as determined by the Legislative Budget Board;

(c) final tax year 2022 property values; and

(d) assumed increases in property values, and the estimates of local tax collections on which they are based, as estimated by the Comptroller of Public Accounts, of 3.82 percent for tax year 2023 and by 4.56 percent for tax year 2024.

The estimates identified in subsections (a) - (d) are projections provided by the Comptroller of Public Accounts and Texas Education Agency and used solely to determine initial state aid payments to school districts, and do not factor into the calculations of local tax base changes. Actual property value changes are determined by local appraisal districts.

To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Chapters 46, 48, and 49 of the Education Code.

For purposes of distributing the Foundation School Program basic tier state aid appropriated above and in accordance with Section 48.051 of the Texas Education Code, the Basic Allotment is established at $6,160 in fiscal year 2024 and $6,160 fiscal year 2025.

For purposes of distributing the Foundation School Program enrichment tier state aid appropriated above and in accordance with Section 48.202(a-1)(1), the Guaranteed Yield is $126.21 in fiscal year 2024 and $129.52 in fiscal year 2025, and in accordance with Section 48.202(a-1)(2), the Guaranteed Yield is $49.28 in fiscal year 2024 and $49.28 in fiscal year 2025.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, $100,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the New Instructional Facilities Allotment under Section 48.152 of the Texas Education Code.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Education Code Section 48.115, the School Safety Allotment is set at $9.72 per student in average daily attendance, estimated to be $50,000,000 in each fiscal year.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, $100,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the Gifted and Talented Student Allotment under Section 48.109 of the Texas Education Code.

From the amount appropriated above to the Texas Education Agency for Strategy A.1.1, FSP - Equalized Operations, in each year of the 2024-25 biennium, the Commissioner may not spend more than the amount that, together with all other amounts appropriated from the Foundation School Fund or another source of the Foundation School Program or for paying the costs of school property tax relief, is necessary to achieve a tax rate compression percentage, as defined by Sections 48.255, 48.2551, and 48.2552, Texas Education Code, and fully fund the school funding formulas under Chapters 48 and 49, Texas Education Code, without the prior approval of the Legislative Budget Board.

Pursuant to Section 48.2552(c) of the Texas Education Code, in fiscal year 2024, the state compression percentage as calculated in Section 48.255 of the Texas Education Code, shall be reduced by 7.75 percent.

Notwithstanding any other provision of this Act, the Texas Education Agency may:

(a) make transfers as appropriate between Strategy A.1.1, FSP - Equalized Operations, and Strategy A.1.2, FSP - Equalized Facilities; and

(b) transfer Foundation School Program funds from fiscal year 2025 to 2024 to the extent necessary to avoid reductions in state aid as authorized by Texas Education Code Section 48.266(f).

The Texas Education Agency shall notify the Legislative Budget Board and the Governor of any such transfers at least 15 days prior to the transfer.

The Texas Education Agency shall submit reports on the prior month's expenditures on programs described by this rider no later than the 20th day of each month to the Legislative Budget Board and the Governor's Office in a format determined by the Legislative Budget Board in cooperation with the agency.

Contingent on the Commissioner of Education identifying a budget surplus of Foundation School Program funds appropriated above in either fiscal year of the 2024-25 biennium, the

Commissioner shall notify the Legislative Budget Board and the Office of the Governor in writing no later than 30 calendar days before taking any action pursuant to the Texas Education Code Sections 7.062, 48.258, 48.259, 48.260, 48.261, or 48.265.

Appropriations provided above in Strategy A.1.1, FSP-Equalized Operations, fully fund an estimated $2,527,500,000 in projected student enrollment growth.

4. **Foundation School Program Set-Asides.** The programs and their funding levels identified in this rider represent all programs at the Texas Education Agency and other state agencies that are funded with amounts set aside from the Foundation School Program. The amounts listed in this rider are for informational purposes only, and do not constitute an appropriation:

	2024	2025
Gifted and Talented Performance Standards	$437,500	$437,500
Early Childhood Intervention	$16,498,102	$16,498,102

TOTAL, FSP Set-Asides	$17,135,602	$17,135,602

5. **Transportation Allotment.** Pursuant to Education Code Section 48.151, for purposes of distributing the Transportation Allotment, the rate per mile per regular eligible student is set at $1.00 in each fiscal year of the biennium; the maximum mileage rate for special education transportation shall be $1.08 per mile; and the private transportation rate shall be $0.25 per mile or a maximum of $816 per pupil for both special education and isolated areas as defined by Education Code Subsections 48.151(e) and (g).

6. **Windham Schools.** The funds appropriated above in Strategy B.2.4, Windham School District, are to be expended only for academic and vocational educational programs approved by the Texas Education Agency. The Commissioner of Education shall allocate $65,096,919 in fiscal year 2024 and $68,217,086 in fiscal year 2025 to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 2024-25 biennium are estimated to be: $4.69807 for academic education, $3.87648 for vocational education.

   The Windham School District shall use funds appropriated above to serve those students whose participation will help achieve the goals of reduced recidivism and the increased success of former inmates in obtaining and maintaining employment. To achieve these goals, younger offenders with the lowest educational levels and the earliest projected release or parole eligibility dates should receive high priority. This policy shall not preclude the Windham School District from serving other populations according to needs and resources. For students who successfully complete the district's program during the 2022-2023 biennium, the Windham School District shall report to the Eighty-ninth Legislature on the following: recidivism rates, employment rates, and attainment of GEDs, high school diplomas, professional certifications, and adult education literacy levels.

7. **Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues.** When reviews and audits of allocations to school districts reveal the allocations previously made were greater or less than the amounts found to be due, the Texas Education Agency may recover or pay the sums necessary to adjust to the correct amounts. All such amounts recovered shall become a part of the Foundation School Fund or General Revenue Fund, and the amounts necessary to make such additional payments to the school districts are appropriated from the Foundation School Fund or General Revenue Fund.

   All funds received from local school districts as recovery for overpayment pursuant to the provisions of §48.272 of the Texas Education Code are appropriated to the Texas Education Agency for distribution to local school districts for Foundation School Program purposes.

   All unexpended balances and all funds received from the payment of school districts for attendance credits in excess of the amounts appropriated above pursuant to the provisions of §49.154 of the Texas Education Code, are appropriated to the Texas Education Agency for distribution to school districts for Foundation School Program purposes.

8. **Instructional Materials and Technology.** Except as explicitly allowed elsewhere in this Act, any amount expended pursuant to Texas Education Code, §31.021, including expenditures for instructional materials administration, shall be paid out of the State Instructional Materials and

Technology Fund appropriated for that purpose. A transfer of funds from the Available School Fund to the State Instructional Materials and Technology Fund is authorized in an amount which, together with other revenues of the State Instructional Materials and Technology Fund, is sufficient to finance the sum-certain appropriation from the State Instructional Materials and Technology Fund for each fiscal year. Penalties assessed by the State Board of Education shall be deposited to the credit of the State Instructional Materials and Technology Fund.

In accordance with Texas Education Code §31.0211 and §31.0214, the Commissioner shall allocate the funds available in the State Instructional Materials and Technology Fund to school districts and charter schools for each student enrolled in the district or charter school on a date during the preceding year specified by the Commissioner and shall adjust the technology and instructional materials allotment of school districts and charter schools experiencing high enrollment growth according to rules adopted by the Commissioner.

It is the intent of the Legislature that for any state fiscal biennium, the State Board of Education issue proclamations for instructional materials in which the total projected cost of instructional materials under the proclamations does not exceed 75 percent of the total technology and instructional materials allotment under Section 31.0211, Education Code, for the most recent biennium for which the allotment has been determined.

It is the intent of the Legislature that the State Board of Education ensure that any instructional materials and technology purchased using funds disbursed from the State Instructional Materials and Technology Fund meet the requirements for certification under 47 U.S.C. Sections 254(h)(5)(B) and (C) to the extent the certification is applicable to those materials.

It is the intent of the Legislature that the State Board of Education consider the cost of all instructional materials and technology requirements when determining the disbursement of money to the available school fund and the amount of that disbursement that will be used, in accordance with Section 43.001(d), Education Code, to fund the technology and instructional materials allotment under Section 31.0211, Education Code.

From funds appropriated from the State Instructional Materials and Technology Fund, the Commissioner may set aside an amount not to exceed $2,500,000 for the 2024-25 biennium for the continued support and delivery of online college readiness materials in English language arts and reading, mathematics, science, and social studies.

From funds appropriated above in Strategy B.2.1, Technology and Instructional Materials, $1,042,679,721 from the Technology and Instructional Materials Fund is allocated in the 2024-25 biennium for instructional materials and technology. In addition to these funds, $7,300,909 is appropriated in the 2024-25 biennium in the agency's administrative strategies from the State Instructional Materials and Technology Fund. Total appropriations from the State Instructional Materials and Technology Fund in the 2024-25 biennium equal $1,049,980,630.

TRS shall provide to the Legislative Budget Board, the Governor, the Comptroller of Public Accounts, and the State Auditor's Office a report of the number of FTEs associated with the Intern Program each fiscal year.

11. **Limitation on Retirement Contributions to Public Community/Junior Colleges.** General Revenue related funds appropriated above in Strategy A.1.2, TRS - Higher Education Retirement, for retirement contributions for Public Community/Junior Colleges are limited to 50 percent of the state contribution of 8.25 percent in fiscal year 2024 and 8.25 percent in fiscal year 2025 of the total covered payroll for Public Community and Junior Colleges, in accordance with Government Code Section 825.4071.

12. **Performance Incentive Compensation Payments.** The Teacher Retirement System Board of Trustees may make performance incentive compensation payments to the staff of the Investment Management Division based on investment performance standards adopted by the Board prior to the beginning of the period for which any additional compensation is paid. Such amounts as may be necessary to make performance incentive payment under the plan approved by the Board are hereby appropriated from the Teacher Retirement System Pension Trust Fund Account Fund No. 960.

    The Teacher Retirement System Board of Trustees shall notify the Legislative Budget Board and the Governor at least 45 days prior to the execution of any performance incentive payment based on the Retirement Trust Fund's investment performance. Funds shall be appropriated pursuant to this rider for performance incentive payments only in a fiscal year following a year in which the Retirement Trust Fund experiences a positive return.

13. **Settle-Up Dollars Directed to TRS-Care.** Any settle-up payments made in the fiscal year ending August 31, 2025, from the Teacher Retirement System of Texas pension fund or from the TRS-Care program are appropriated to the TRS-Care program. Settle-up funds are all estimated General Revenue appropriations for fiscal year 2024 in excess of the state's actual statutory obligations for retirement and retiree insurance contributions, and those funds are re-appropriated to the TRS-Care program, for deposit to the Texas Public School Retired Employees Group Insurance Trust Fund. For the purposes of this section, settle-up payments from the pension fund include any net payments made in excess of the state’s total obligation to both Public Education Retirement and Higher Education Retirement.

Such transfers may only be made subject to the following:

    a. Transfers under this section may be requested only upon a finding by the TRS Board of Trustees that the fiscal year 2024 costs associated with providing retiree health benefits will exceed the funds appropriated for these services for fiscal year 2024.

    b. A transfer is not authorized by this section unless it receives the prior written approval of the Governor and the Legislative Budget Board.

    c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.

15. **Contingent Appropriation of Pension Trust Funds for GASB Statement Implementation.** Upon a finding of fact by the Teacher Retirement System Board of Trustees that additional resources are necessary to implement accounting guidelines related to Governmental Accounting Standards Board statements and pronouncements, the Teacher Retirement System is appropriated such additional funds as approved by the Board from the Teacher Retirement System Pension Trust Fund Account No. 960 to communicate such guidelines to affected members and employers, and to acquire additional audit and actuarial services as needed for implementation.

    Within thirty days of such a finding, the Teacher Retirement System Board of Trustees shall provide written notification to the Legislative Budget Board and the Governor of the amounts anticipated to be necessary to achieve these purposes.

16. **TRS-Care Shortfall.** It is the intent of the Legislature that resolving the long-term solvency of TRS-Care be a shared fiscal responsibility between the state, school districts, employees, and retirees.

17. **Medicare Enrollment for Eligible Members of TRS-Care.** Out of funds appropriated above, TRS shall identify members of TRS-Care who are eligible for Social Security Disability or Medicare benefits, and provide information and assistance necessary for eligible members to enroll in the programs to help ensure the solvency of the TRS-Care fund.

18. **Right to Shop Incentive.** It is the intent of the Legislature that the Teacher Retirement System incentivize members of TRS-Care and TRS-ActiveCare to shop for lower cost care within the health plans in order to achieve shared savings. Pursuant to the provisions of Insurance Code Section 1575.109, Section 579.052, and Article IX, Section 7.11, Notification of Certain Purchases or Contract Awards, Amendments, and Extensions, the agency may contract with a third-party vendor for this purpose.

19. **Exception to FTE Limitation for Board Fiduciary Finding.**

    (a) In addition to the funding and "Number of Full-Time Equivalents (FTE)" appropriated above, the Teacher Retirement System (TRS) is authorized to employ additional FTEs and contract workers under a Fiduciary Finding of the TRS Board of Trustees (the Board) if the Board determines the additional staff are necessary to perform the fiduciary duties of the Board, pursuant to Government Code Section 825.313.

    (b) It is the intent of the Legislature that the Board approve a statement of justifications and objectives for adopting the additional FTEs, contract workers, and any additional funding related to those staff. No later than 30 business days following the adoption of a Fiduciary Finding pursuant to subsection (a), TRS shall submit to the Legislative Budget Board (LBB) and the Governor:

        (1) A statement of the justifications and objectives for the additional funding and staff;

        (2) The current operating budget, as approved by the Board, for each fiscal year of the 2024-25 biennium that is amended by the Fiduciary Finding described in subsection (a);

        (3) Performance metrics proposed by TRS to evaluate the impact of additional staff on the Board's objectives in approving the additional staff; and

        (4) Any additional information requested by the LBB or the Governor regarding the Fiduciary Finding described in subsection (a).

    (c) No later than October 31 following a fiscal year for which the TRS Board has adopted a Fiduciary Finding described in subsection (a), TRS shall provide a report to the LBB and the Governor on:

        (1) The actual number of additional FTEs and contract workers hired during the preceding fiscal year pursuant to subsection (a);

        (3) A report on the agency's actual performance on metrics described in subsection (b)(3) for the preceding fiscal year.

20. **Contingent Appropriation for Teacher Retirement System (TRS) Retiree Benefit Enhancement.** It is the intent of the Legislature that a benefit enhancement be provided to TRS retirees, contingent on the determination that the TRS Pension Trust Fund is considered actuarially sound pursuant to Government Code, Section 821.006.

21. **Contingent Appropriation for Teacher Retirement System (TRS) Additional Regional Office.** In addition to the amounts appropriated above and notwithstanding the provisions of Article IX, Section 6.10, Limitation on State Employment Levels, TRS is authorized to expend additional funds out of the TRS Pension Trust Fund and employ additional FTEs upon a finding of fact by the TRS Board of Trustees that additional resources are necessary to open an additional regional office. No later than 30 business days after such a finding, the TRS Board of Trustees shall notify the Legislative Budget Board (LBB) and the Governor of the amount of funding and number of FTEs anticipated to be necessary for these purposes.

22. **Contingency for Senate Bill 10.** Contingent on enactment of Senate Bill 10, or similar legislation relating to benefits paid by the Teacher Retirement System of Texas, by the Eighty-eighth Legislature, Regular Session, included in amounts appropriated above in Strategy A.1.4, TRS Retirement Additional Annuity Payment, the Teacher Retirement System is appropriated $3,717,000,000 in fiscal year 2024 from General Revenue to implement the provisions of the legislation.

Any project initiated under this authorization shall not be structured in such a manner that will require future specific appropriation of General Revenue. Provided, however, that this provision shall not be construed so as to authorize, without the prior and specific approval of the Legislature, the acceptance of real property which would require an appropriation by the Legislature for maintenance, repair, or construction of buildings.

4. **Helicopter Operation.** The University of Texas Medical Branch at Galveston is authorized to lease and operate a helicopter for the purpose of transporting critically ill or emergency patients to the medical branch hospitals. Appropriations made to the TDCJ for the provision of inmate health care services shall be expended in accordance with Government Code, Chapter 501, Subchapter E.

   Notwithstanding any other provision of this Act, contract services funds appropriated to TDCJ and provided to the University are eligible to receive state-paid General Revenue benefits support for Retirement, Group Insurance, and Social Security from funds appropriated elsewhere in this Act. SPECIAL PROVISIONS RELATING ONLY TO COMPONENTS OF TEXAS STATE TECHNICAL COLLEGE

1. **Expenditure of Educational and General Funds.** Recognizing that Texas State Technical College may have the opportunity and should be encouraged to attract private contributions, grants, or contracts, and to enter into agreements with private businesses and other agencies of government for purposes not specifically contained in the strategy items above that might require matching funds from TSTC, the Board of Regents of Texas State Technical College is hereby authorized to expend its remaining educational and general funds to meet contribution, contract, or grant-matching requirements only for the following purposes:

   a. planning and implementing a large-scale job-training program in conjunction with private business and other state agencies;

   b. acquiring facilities and equipment to carry out a large-scale industrial training program in conjunction with a major employer; and

   c. additional space and mechanical systems or renovation of existing buildings in accordance with the Campus Master Plans and subject to approval by the Texas Higher Education Coordinating Board.

2. **Financial Records.** The financial records and reports of the Texas State Technical College shall classify accounts in accordance with the recommendation of the National Committee on the Preparation of a Manual on College and University Business Administration, as set forth in Volume I of "College and University Business Administration," published by the American Council on Education with a copyright date of 1952, and subsequent published revisions with such modifications as may be developed and provided by the Comptroller of Public Accounts, or as

may be required to conform with specific provisions of the Appropriation Acts of the Legislature. The accounts of the Texas State Technical College shall be maintained and audited in accordance with the approved reporting system. The Texas State Technical College shall deliver to the Texas Higher Education Coordinating Board, any such program reports as it may deem necessary in accordance with its rules and regulations.

3. **Enrollment Records and Reports.** To be eligible to receive the appropriations herein above, the Texas State Technical College shall maintain separately for each campus and each extension center such enrollment records and report such enrollment data as required by the Texas Higher Education Coordinating Board. These enrollment reports shall be submitted in the form and on the date required.

   The above reports shall be certified to the Comptroller of Public Accounts no later than the date required by the Coordinating Board, and each term copies of the above certified enrollment reports shall be sent to the Coordinating Board, Legislative Budget Board, Governor, State Auditor and Legislative Reference Library.

   The State Auditor may consider an audit of enrollment data at Texas State Technical College, subject to analysis and risk assessment.

   The Texas State Technical College shall offer only such courses as are economically justified in the considered judgment of the Board of Regents. The Board of Regents shall adopt policies specifying the conditions under which classes of less than 10 students by headcount are to be considered necessary and justifiable. The Board of Regents shall direct the chancellor or other officials to review enrollment data prior to the designated Coordinating Board census date and take all necessary actions to ensure that the small classes offered on each campus are only those that conform with established policies on small classes.

4. **Certification of Compliance.** Expenditure of the funds appropriated herein above is contingent upon annual certification by the chancellor of the Texas State Technical College to the Comptroller of Public Accounts that the Texas State Technical College is in compliance with these provisions regarding budgets, accounting procedures and enrollment.

5. **Approved Geographic Locations.** None of the funds appropriated above to the Texas State Technical College shall be expended in promoting, developing or creating a campus or extension center at any other location in the state except as specified in Education Code §135.02.

6. **Temporary Special Courses.** Out of funds appropriated herein above to the Texas State Technical College in pre-apprenticeship, related training for apprentices and specialized training for journeymen and compensatory training for pre-apprenticeship and apprenticeship enrollees, and plant expansion and new plant start-up training program no more than $50,000 per year may be expended wherever the need exists within the state in conjunction with curriculum approval by the Texas Higher Education Coordinating Board. Such expenditure of funds for these special courses are temporary in nature and outside the provision of Education Code §135.04.

7. **Aircraft Pilot Training Programs.** Funds may be used for the operation, maintenance or lease of aircraft for use in the Aircraft Pilot Training programs subject to the requirement that excess costs of flight instruction be recovered by an assessment of charge to student pilots. This income shall be separately accounted for and credited as a reduction in expenditure in the Aircraft Pilot Training Program.

8. **Approval of Plans by Foundations.** Any use of the Texas State Technical College's assets or facilities including, but not limited to, buildings, equipment or employees by existing foundations or for the promotion of foundations shall require prior approval of the Board of Regents. Approval is contingent upon receipt by the Board of Regents of a satisfactory annual plan of operation. At a minimum, this plan must specify the proposed use of any Texas State Technical College facilities, equipment, and personnel; payments made directly to Texas State Technical College personnel for services provided or expenses incurred; and donations of funds to the Texas State Technical College for designated purposes. All funds donated by foundations to the Texas State Technical College shall be received and accounted for in the same manner as all other Texas State Technical College funds. After Board of Regents approval, the plan shall be filed with the Legislative Budget Board no later than December 1st each year.

9. **Chancellor Salary.** Out of the funds appropriated, transferred, or contracted to the system office, an amount not to exceed $70,231 in 2024 and $70,231 in 2025 may be expended for the salary of a chancellor. The chancellor may receive in addition to the above amount a house, utilities, and/or supplement from private sources. If a system owned house is not available an amount not to exceed $7,200 per year from the system office appropriation and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.

10. **Returned Value Funding Model for Texas State Technical Colleges.** Funding is recommended for and allocated among Texas State Technical Colleges (TSTCs) based on the additional direct and indirect state tax revenues generated as a result of the education provided to students by the TSTCs. The funding methodology is based on the following components:

    a. The model includes the cohort of TSTC graduates (earning an associate's degrees or certificate), transfers, and leavers (students who were not found in Texas higher education for two years following the last time they were enrolled in the TSTC) with a minimum completion of nine semester credit hours from 2016 and 2017.

    b. The cohorts were matched with Unemployment Insurance wage records for employment and wage information for five years after the students graduated from or left the TSTC to establish annual wages for each student. Direct value-added was defined as the incremental state tax revenue attributable to former TSTC students' jobs, based on the difference between former TSTC students' annual wages and a base wage representing a full-time employee earning minimum wage (7 percent of the wage delta). Indirect value-added was defined as the direct value-added multiplied by 1.5, an economic multiplier derived from a U.S. Bureau of Economic Analysis study. Total direct and indirect values-added were summed for each group of students by campus across five years.

    c. Values-added were reduced by a certain percentage, based on the assumption that the benefits would accrue both to the state and TSTCs but with only a portion of the added value included in the formula calculations.

    d. Values-added by campus were divided into the total TSTC value added to define each institution's proportional share of overall formula funding.

    The Texas State Technical College System shall continue to work with the Texas Higher Education Coordinating Board, the Legislative Budget Board and other relevant agencies to refine the new Returned Value Funding Formula for the TSTCs. It is the intent of the Legislature that recommended adjustments to the formula shall be ready for implementation in the 2026-27 biennium and shall further the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours.

11. **Small Institution Supplement.** The Small Institution Supplement, as a set-aside within the General Academic Institution Infrastructure Formula, shall provide supplemental funding to the Texas State Technical Colleges with headcounts of fewer than 10,000 students. For the 2024-25 biennium, Texas State Technical Colleges with a headcount of fewer than 5,000 students shall receive a small institution supplement of $2,633,133. The small institution supplement shall decrease proportionate to the increase in headcount above 5,000 until the institution reaches 10,000 headcount. Once an institution reaches 10,000 headcount, it shall no longer be eligible for this supplement.

Any funds in excess of the amount expended for regularly scheduled principal and interest for debt service reimbursements due each year shall be lapsed to the General Revenue Fund at the end of each fiscal year. Funds may be used for bond and commercial paper debt service payments, which can include principal, interest and fees.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code §56.031 to §56.039, cited as the Texas Public Educational Grants Program.

2. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.

3. Out of the additional funds appropriated for the 2024-25 biennium funds allocated and expended by the respective governing boards for need-based student scholarships shall be allocated and expended without regard to the race, sex, color, or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

2. In addition, The University of Texas Southwestern Medical Center may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.

3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six-year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

4. The University of Texas Health Science Center at Houston may admit up to 25 competitively recruited medical students in each entering class for a specialized program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.

5. The Texas A&M University System Health Science Center may admit up to 25 competitively recruited nonresident medical students in each entering class for specialized programs of clinical and research training designed to lead to the MD and MS in Engineering degrees or MD degrees for students from military academies or recipients of military health professions scholarships.

6. The Texas A&M University System Health Science Center may admit up to 20 competitively recruited nonresident dental students each year into the International Advanced Standing Program (IASP) designed to allow graduates sit for dental board examinations to secure licensure to practice dentistry in the United States.

Sec. 14. Off-campus Instruction. General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.

2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.

3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Tuition and Other Educational and General Local Fee Collection. No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 16. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eighty-eighth Legislature in arriving at formula appropriations for fiscal years 2024 and 2025. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making fiscal years 2024 and 2025 formula appropriations are subject to audit by the Coordinating Board. The Coordinating Board shall report any differences from data submitted by the institutions to the State Auditor, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Coordinating Board. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2024 and 2025 are subject to audit by the State Auditor.

The State Auditor or Coordinating Board may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 17. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 18. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 19. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code, Chapter 2259, for a risk otherwise insurable by the institution of higher education, including a reserve account for lump sum payments of vacation and sick leave, shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in §51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 20. Uncompensated Care Reporting Requirement. The public health-related institutions shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the uncompensated care reporting requirement established by the Health and Human Services Commission.

Uncompensated care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs. To calculate uncompensated care, charges will be converted to costs by application of a standard, auditable ratio of cost to charge and providers will recognize appropriate patient specific funding and lump sum funding available to offset costs. Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for uncompensated care.

Sec. 21. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.

2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually (no later than March 1st) to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 22. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has adopted an ethics policy which includes the requirements of Texas Government Code Section 572.051. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.

2. The ethics policy adopted by each board of regents shall also include specific provisions regarding sexual harassment.

Sec. 23. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health related institutions.

Sec. 24. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under §576.022, Health and Safety Code.

Sec. 25. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 26. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2024-25 biennium is $55.66 in fiscal year 2024 and fiscal year 2025.

   Weighting is determined by the following matrix:

	Lower Div	Upper Div	Masters	Doctoral	Special Professional

2. **Teaching Experience Supplement.** For the 2024-25 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is $5.47 in fiscal year 2024 and fiscal year 2025.

4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

    a. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

5. **Small Institution Supplement.** The Small Institution Supplement, as a set-aside within the General Academic Institution Infrastructure Formula, shall provide supplemental funding to general academic institutions with headcounts of fewer than 10,000 students. For the 2024-2025 biennium, general academic institutions with a headcount of fewer than 5,000 students shall receive a small institution supplement of $2,633,133. The small institution supplement shall decrease proportionate to the increase in headcount above 5,000 until the institution reaches 10,000 headcount. Once an institution reaches 10,000 headcount, it shall no longer be eligible for this supplement.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2024.

Sec. 27. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full-time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of $9,622 in fiscal year 2024 and fiscal year 2025:

Program	Weight Per Student
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Biomedical Informatics	1.750
Dental	4.601
Medical	4.753
Podiatry	4.753

Instructional programs at remote locations and the main campus at The University of Texas Health Science Center at Tyler with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is $6.14 in fiscal year 2024 and fiscal year 2025 for all health related institutions.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of $1,412,500 plus 1.17 percent in fiscal year 2024 and fiscal year 2025 of its research expenditures as reported to the Texas Higher Education Coordinating Board.

4. **Research at Clinical Partners.** Research conducted by faculty of a health related institution under a contract with a clinical partner shall be considered in the formula calculations for the Research Enhancement and E&G Space Support strategies as defined under Article III, Special Provisions Relating Only To State Agencies of Higher Education, Section 27, subsection (2) Infrastructure Support Formula and Sec. 27, subsection (3) Research Funding.

5. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of $11,940 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2024 and fiscal year 2025 are $5,970 per resident.

6. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.

7. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items and hospital and clinic operations.

8. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2024.

9. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:

   a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal year 2024 and 2025 shall be based on the number of total Texas cancer patients served in 2022. The rate per patient shall be $1,580 in fiscal year 2024 and fiscal year 2025 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

   b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.4, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2024 and 2025 shall be based on the number of such cases treated in fiscal year 2022. The rate per case for fiscal year 2024 and 2025 shall be $99. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

10. **Mission Specific Support - Performance Based Research Operations Formula.** The University of Texas Southwestern Medical Center has a mission that is research intensive. To enhance research capacity, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following criteria:

a. General Revenue Research Operations Formula funding allocated to The University of Texas Southwestern Medical Center in Strategy B.1.2, Performance Based Research Operations Formula, shall be guided to the institution through two mechanisms that measure the institution's performance.

1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 13.40 percent for each fiscal year of the 2024-25 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.

2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between $0 and $10,000,000. Tier 2 shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between $10,000,000 and $20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than $20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. Any unexpended balances as of August 31, 2024, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2024.

For formula funding purposes, the amount of growth in total funding for the Performance Based Research Operations Formula from one biennium to another may not exceed 5.0 percent of the institution's total General Revenue appropriations in the prior biennium, excluding appropriations for capital construction assistance project bond debt service. The Legislative Budget Board shall implement the funding in accordance with this limitation. In a biennium in which funding is not available to meet the institution's performance-driven target, the formula mechanisms and performance-calculated match rates remain while the Legislature determines the General Revenue provided. In the FY 2024-25 biennium, $130,840,155 in General Revenue is provided.

11. **Mission Specific Support - Performance Based Research Operations Formula.** To enhance research capacity at The University of Texas Health Science Center at Houston, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following criteria:

a. General Revenue Research Operations Formula funding allocated to The University of Texas Health Science Center at Houston in Strategy B.1.2, Performance Based Research Operations Formula, shall be guided to the institution through two mechanisms that measure the institution's performance.

1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 6.47 percent for each fiscal year of the 2024-25 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.

2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between $0 and $10,000,000. Tier 2 shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between $10,000,000 and $20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than $20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. Any unexpended balances as of August 31, 2024, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2024.

For formula funding purposes, the amount of growth in total funding for the Performance Based Research Operations Formula from one biennium to another may not exceed 5.0 percent of the institution's total General Revenue appropriations in the prior biennium, excluding appropriations for capital construction assistance project bond debt service. The Legislative Budget Board shall implement the funding in accordance with this limitation. In a biennium in which funding is not available to meet the institution's performance-driven target, the formula mechanisms and performance-calculated match rates remain while the Legislature determines the General Revenue provided. In the FY 2024-25 biennium, $42,949,947 in General Revenue is provided.

12. **Mission Specific Support - Performance Based Research Operations Formula.** To enhance research capacity at The University of Texas Health Science Center at San Antonio, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following criteria:

a. General Revenue Research Operations Formula funding allocated to The University of Texas Health Science Center at San Antonio in Strategy B.1.2, Performance Based Research Operations Formula, shall be guided to the institution through two mechanisms that measure the institution's performance.

1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 8.55 percent for each fiscal year of the 2024-25 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.

2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between $0 and $10,000,000. Tier 2 shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between $10,000,000

and $20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than $20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. 6. **Appropriation and Tracking of Title IV-E Receipts.** The provisions of Title IV-E of the Social Security Act shall be used in order to increase funds available for juvenile justice services. The Juvenile Justice Department (JJD) shall certify to the Texas Department of Family and Protective Services that federal financial participation can be claimed for Title IV-E services provided by counties. JJD shall direct necessary general revenue funding to ensure that the federal match for the Title IV-E Social Security Act is maximized for use by participating counties. Such federal receipts are appropriated to JJD for the purpose of reimbursing counties for services provided to eligible children. In accordance with Article IX, Part 13 of this Act, when reporting Federal Funds to the Legislative Budget Board, JJD must report funds expended in the fiscal year that funds are disbursed to counties, regardless of the year in which the claim was made by the county, received by JJD, or certified by JJD.

7. **Federal Foster Care Claims.** Out of appropriations made above, the Texas Department of Family and Protective Services and the Juvenile Justice Department shall document possible foster care claims for children in juvenile justice programs and maintain an interagency agreement to implement strategies and responsibilities necessary to claim additional federal foster care funding; and consult with juvenile officials from other states and national experts in designing better foster care funding initiatives.

8. **Support Payment Collections.** The Juvenile Justice Department shall report to the Governor and to the Legislative Budget Board the number of active accounts, including the amounts owed to the state pursuant to the Texas Family Code, Section 54.06 (a) court orders, and the total amount of funds collected by December 1 of each fiscal year.

9. **Employee Medical Care.** Appropriations made in this Act for the Juvenile Justice Department (JJD) not otherwise restricted in use may also be expended to provide medical attention by medical staff and infirmaries at JJD facilities, or to pay necessary medical expenses, including the cost of broken eyeglasses and other health aids, for employees injured while performing the duties

of any hazardous position which is not reimbursed by workers' compensation and/or employees' state insurance. For the purpose of this section, "hazardous position" shall mean one for which the regular and normal duties inherently involve the risk or peril of bodily injury or harm. Appropriations made in this Act not otherwise restricted in use may also be expended for medical tests and procedures on employees that are required by federal or state law or regulations when the tests or procedures are required as a result of the employee's job assignment or when considered necessary due to potential or existing litigation.

10. **Safety.** In instances in which regular employees of facilities operated by the Juvenile Justice Department are assigned extra duties on special tactics and response teams, supplementary payments, not to exceed $200 per month for team leaders and $150 per month for team members, are authorized in addition to the salary rates stipulated by the provisions of Article IX of this Act relating to the position classifications and assigned salary ranges.

Refunds of excess collections shall be made from the appropriation to which the collection was deposited.

    (b) As compensation for services rendered and notwithstanding any other provision in this Act, any facility under the jurisdiction of JJD may provide free meals for food service personnel and volunteer workers and may furnish housing facilities, meals, and laundry service in exchange for services rendered by interns, chaplains in training, student nurses, and juvenile correctional officers.

12. **Juvenile Justice Alternative Education Program (JJAEP).** Funds transferred to the Juvenile Justice Department (JJD) pursuant to Texas Education Agency (TEA) Rider 26 and appropriated above in Strategy A.1.6, Juvenile Justice Alternative Education Programs, shall be allocated as follows: Fifteen percent at the beginning of each fiscal year to be distributed on the basis of juvenile age population among the mandated counties identified in Chapter 37, Education Code.

    The remaining funds shall be allocated for distribution to the counties mandated by Section 37.011(a) Education Code, at the rate of $96 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under Section 37.007, Education Code. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of $96 per student per day of attendance. Counties in which populations exceed 72,000 but are 125,000 or less, may participate in the JJAEP and are eligible for state reimbursement at the rate of $96 per student per day.

    JJD may expend any remaining funds for summer school programs. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed ten percent of appropriation.

    Unexpended balances in fiscal year 2024 shall be appropriated to fiscal year 2025 for the same purposes in Strategy A.1.6, Juvenile Justice Alternative Education Programs.

    The amount of $96 per student per day for the JJAEP is an estimated amount and not intended to be an entitlement. Appropriations for JJAEP are limited to the amounts transferred from the Foundation School Program pursuant to TEA Rider 26. The amount of $96 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2025 to the Foundation School Fund No. 193. If the daily mandatory attendance reimbursement rate falls below $86 per day due to increased days of attendance (the rate established for the 2014-15 school year), TEA will increase appropriated funds to JJD to provide a minimum reimbursement of $86 per attendance day.

    JJD may reduce, suspend, or withhold JJAEP funds to counties that do not comply with standards, accountability measures, or Texas Education Code Chapter 37.

13. **Funding for Additional Eligible Students in JJAEPs.** Out of funds appropriated above in Strategy A.1.6, Juvenile Justice Alternative Education Programs, a maximum of $500,000 in each fiscal year (for a maximum of 90 attendance days per child), is allocated for counties with a

population of at least 72,000 which operate a JJAEP under the standards of Chapter 37, Texas Education Code. The county is eligible to receive funding from the Juvenile Justice Department at the rate of $96 per day per student for students who are required to be expelled under Section 37.007, Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.

14. **JJAEP Accountability.** Out of funds appropriated above in Strategy A.1.6, Juvenile Justice Alternative Education Programs (JJAEP), the Juvenile Justice Department (JJD) shall ensure that JJAEPs are held accountable for student academic and behavioral success. JJD shall submit a performance assessment report to the Legislative Budget Board and the Governor by May 1, 2024. The report shall include the following:

    (b) a detailed discussion on the use of standard measures used to compare program formats and to identify those JJAEPs most successful with attending students;

    (c) student passage rates on the State of Texas Assessments of Academic Readiness (STAAR) in the areas of reading and math for students enrolled in the JJAEP for a period of 75 days or longer;

    (d) standardized cost reports from each JJAEP and their contracting independent school district(s) to determine differing cost factors and actual costs per each JJAEP program by school year;

    (e) average cost per student attendance day for JJAEP students. The cost per day information shall include an itemization of the costs of providing educational services mandated in the Education Code, Section 37.011. This itemization shall separate the costs of mandated educational services from the cost of all other services provided in JJAEPs. Mandated educational services include facilities, staff, and instructional materials specifically related to the services mandated in Education Code, Section 37.011. All other services include, but are not limited to, programs such as family, group, and individual counseling, military-style training, substance abuse counseling, and parenting programs for parents of program youth; and

    (f) inclusion of a comprehensive five-year strategic plan for the continuing evaluation of JJAEPs which shall include oversight guidelines to improve: school district compliance with minimum program and accountability standards, attendance reporting, consistent collection of costs and program data, training, and technical assistance needs.

15. **Appropriation Transfers between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act, the Juvenile Justice Department may transfer appropriations in an amount not to exceed $10,000,000 in General Revenue made for fiscal year 2025 to fiscal year 2024 subject to the following conditions provided by this section:

    (a) Transfers under this section may be made only if (1) juvenile correctional populations exceed appropriated areas of daily population targets or (2) for any other emergency expenditure, including expenditures necessitated by public calamity;

    (b) A transfer authorized by this section must receive prior approval from the Governor and the Legislative Budget Board; and

    (c) The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending under this section.

16. **State-owned Housing Authorized.** The chief superintendent and the assistant superintendent are authorized to live in state-owned housing at a rate determined by the department. Other Juvenile Justice Department employees may live in state-owned housing as set forth in Article IX, Section 11.02, Reporting Related to State Owned Housing, of this Act. Fees for employee housing are appropriated to be used for maintaining employee housing and shall at least cover the agency cost of maintenance and utilities for the housing provided.

17. **Unexpended Balances - Hold Harmless Provision.** Any unexpended balances as of August 31, 2024, in Strategy A.1.2, Basic Probation Supervision (estimated to be $400,000), above are appropriated to the Juvenile Justice Department in fiscal year 2025 for the purpose of providing funding for juvenile probation departments whose allocation would otherwise be affected as a result of reallocations related to population shifts.

18. **Appropriation: Refunds of Unexpended Balances from Local Juvenile Probation Departments.** The Juvenile Justice Department (JJD) shall ensure that the agency is refunded all unexpended and unencumbered balances of state funds held as of the close of each fiscal year by local juvenile probation departments. Such rate shall be divided by the number of days required in Section 21.401, Education Code, for 10-month employees, and the resulting daily rate shall be multiplied by the number of on-duty days required of JJD educators, resulting in the adjusted annual salary. The adjusted annual salary is to be divided by 12 to arrive at the monthly rate. Salary rates for educational aides commencing employment before September 1, 1999, shall be calculated in the same manner, using 60 percent of the salary rate specified in Section 21.402, Education Code.

    (b) JJD may authorize a salary rate above the adjusted annual salary determined in the formula provided by Section a.

    (c) There is appropriated to JJD from any unexpended balances on hand as of August 31, 2024, funds necessary to meet the requirements of this section in fiscal year 2025 in the event adjustments are made in the salary rates specified in the Education Code.

Of the totals identified above in subsection (5), $533,399 each fiscal year is included in direct costs and $95,714 in fiscal year 2024 and $96,428 in fiscal year 2025 are included in "other direct and indirect costs" which are funded from General Revenue-Dedicated State Hemp Program Fund No. 5178. In the event that actual and/or projected revenue collections in strategies above are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to the affected strategy to be within the amount of revenue expected to be available.

(c) Also, contingent on the generation of such revenue required above to fund TDA's cost recovery programs and related "other direct and indirect costs" TDA's "Number of Full-Time Equivalents" includes 176.4 FTEs in fiscal year 2024 and 176.4 FTEs in fiscal year 2025. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may reduce the FTE cap provided by this Act to reflect the number of FTEs funded by the amount of revenue expected to be available.

(d) If cost recovery revenues collected in the first year of the biennium exceed the cost recovery requirements above, the excess revenue may be counted towards the cost recovery requirement in the second year of the biennium in addition to the revenues collected in the second year.

21. **Texas Economic Development Fund No. 183.** Amounts in excess of the estimated appropriation above from all available earnings from the Texas Economic Development Fund No. 183 are appropriated to the Department of Agriculture, except that the department shall retain in the fund a minimum balance of $2,225,593, as required by Agriculture Code Section 12.0273.     (a) Except as provided by Subsections b and c of this rider, no funds appropriated to the Department of Agriculture in this Act may be used for the implementation of warfarin on feral hogs.

    (b) The Department of Agriculture may use amounts appropriated by this Act to register a pesticide product containing warfarin for use in this state to control feral hogs only if that registration is limited to use by pesticide applicators licensed by the department who are participating in an experimental use program conducted by the Texas A&M AgriLife Extension Service to evaluate the product’s efficacy in this state and the product is registered by the United States Environmental Protection Agency for use to control feral hogs.

    A property owner can participate in the Texas A&M AgriLife Extension Service experimental use program by hiring a pesticide applicator licensed by the department and complying with Texas A&M AgriLife Extension Service guidelines for participation in the

experimental use program. A property owner with a pesticide applicator licensed by the department failing to comply with the Texas A&M AgriLife Extension Service guidelines may be prohibited from participating in the program. A pesticide applicator may lose the pesticide applicator license issued by the department for failing to comply with Texas A&M AgriLife Extension Service guidelines for participation in the experimental use program.

(c) If the department determines, based on available data including the preliminary or final results of the experimental use program described by Subsection b of this rider, that the use of a pesticide product containing warfarin is safe and effective in assisting landholders in this state in their efforts to mitigate the economic harm and damage caused by feral hogs, then the limitations under Subsections a and b of this rider do not apply after the earlier of:

(1) The second anniversary of the date a pesticide product is registered by the department for the limited use described by Subsection b of this rider; or

(2) The date the Texas A&M AgriLife Extension Service delivers a report advising the department regarding the registration of a pesticide product evaluated under the experimental use program.

(h) Narrative explanations of any rules proposals or changes made with summary descriptions of why the rule change occurred.

28. School Lunch Program. To the extent allowed under law, it is the intent of the Legislature that amounts appropriated above to the Department of Agriculture may not be used for the purpose of amending administrative rules for the School Lunch Program in order to adopt a fixed meal plan for procurement instead of a cost reimbursement procurement process.

29. Contingency Appropriation: Citrus Inspectors.

(a) Amounts appropriated above to the Department of Agriculture in Strategy B.1.1, Plant Health and Seed Quality, include $673,072 in fiscal year 2024 and $389,112 in fiscal year 2025 from General Revenue and 6.0 FTEs each fiscal year for the purpose of inspecting citrus in the canker quarantine zones in Harris, Montgomery, Fort Bend, Brazoria, and Galveston counties. In the event that the Department terminates the sale of all citrus plants in the aforementioned zones, any remainder of unspent funds for this strategy shall be returned

to the state treasury. The Department is not prohibited from enforcing the stop sale provisions in Texas Agriculture Code, Section 19.011, and a stop sale under this provision does not result in the agency having to return the funds appropriated herein.

(b) The Department of Agriculture shall use appropriations and FTEs in subsection (a) of this rider to provide additional inspectors and necessary equipment for citrus canker quarantine zones.

(c) No funds appropriated to the Department of Agriculture in this act may be used for the implementation of a retail nursery customer registry related to citrus canker containment zones that collects the end-consumer's name or address information.

These appropriations are contingent upon the Animal Health Commission assessing fees during the 2024-25 biennium sufficient to generate revenue (Object Code 3420) necessary to cover the General Revenue appropriations made above in Strategy A.1.1, Field Operations, identified in this rider. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified in this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

   (b) In addition to the amounts identified in this rider and appropriated above in Strategy A.1.1, Field Operations, any revenues received during the 2024-25 biennium from fees deposited to the credit of the General Revenue Fund pursuant to Agriculture Code, Sections 161.0411, 161.060, and 161.0601 (Object Code 3420) in excess of the amount of $860,000 each fiscal year included in the Comptroller's Biennial Revenue Estimate for 2024-25 are appropriated for the same purposes.

After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes in current law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.

7. **Air Quality Planning.** Amounts appropriated above include $4,500,000 for the biennium out of the General Revenue-Dedicated Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, for air quality planning activities to reduce ozone in “affected counties” (as defined in Texas Health and Safety Code Section 386.001(2)) not designated as nonattainment areas for the O3 National Ambient Air Quality Standards (NAAQS) as of September 1, 2023, and other areas at significant risk of being designated nonattainment for the O3 NAAQS in the future as approved by the Commission on Environmental Quality (TCEQ). These activities may be carried out through interlocal agreements.

   Expenditure of these funds are limited to: inventorying emissions, monitoring of pollution levels, and administration of the program. The TCEQ shall allocate a base amount of $281,250 to each state planning region containing such areas and the remaining funds proportionally to each state planning region with a combined population of affected counties in excess of 350,000. Grants issued from appropriations identified in this rider should require that no more than 10 percent of the allocation be used for administrative purposes and prohibit the expenditure of the following: marketing and outreach activities, bicycle use programs, carpooling awareness, environmental awareness campaigns, and locally enforceable pollution reduction programs. The grant recipients shall channel the funds to those projects most useful for the State Implementation Plan (SIP).

   For informational purposes, the affected counties that are not designated “nonattainment” for the O3 NAAQS as of September 1, 2023, include Bastrop, Caldwell, Comal, Gregg, Guadalupe, Hardin, Harrison, Hays, Henderson, Hood, Hunt, Jefferson, Nueces, Orange, Rusk, San Patricio,

10. **Maximization of Child Care and Development Funds.** It is the intent of the Legislature that the Texas Workforce Commission (TWC) cooperate with cities, non-profit organizations, the Texas Education Agency, and local school districts to obtain local match necessary to maximize federal funds for child care. Part 3. SALARY ADMINISTRATION AND EMPLOYMENT PROVISIONS

Sec. 3.01. Salary Rates.

(a) For each fiscal year of the biennium beginning September 1, 2023, annual salary rates for classified positions are as provided by the Classification Salary Schedules of Section 2.01.

(b) In addition to the limits under this article, the State Classification Office shall review new exempt positions created during the interim and provide recommendations on the appropriate class title and salary group for these positions to the Legislature during the appropriations process.

(c) There is no authority to grant salary increases as part of the conversion of employees to Salary Schedules A, B, and C, except in the cases of:

(1) across-the-board salary increases authorized in this Act; or

(2) employees whose positions are reallocated or reclassified in accordance with Government Code, Sections 654.0155, 654.0156, or 659.254.

(d) An employee hired by the State on or after September 1, 2023, including interagency transfers, must be paid at a salary rate that falls within the salary range of the applicable salary group.

Sec. 3.02. Salary Supplementation. Monies appropriated by this Act to a state agency in the executive branch of government or to an institution of higher education (consistent with Government Code, Sections 658.001(2) and 659.020) may not be expended for payment of salary to a person whose classified or exempt salary is being supplemented from other than appropriated monies until a report showing the amount and sources of salary being paid from other sources has been reported to the Secretary of State, State Auditor, and Comptroller.

Sec. 3.03. Salary Limits. The rate for determining the expenditure limitations for merit salary increases and promotions under Government Code, Section 659.261, is not limited by this Act as a percentage of the total amount spent by the agency in the preceding fiscal year for classified salaries.

Sec. 3.04. Scheduled Exempt Positions.

Sec. 3.07. Equity Adjustments.

(a) A state agency may adjust the salary rate of an employee whose position is classified under the position classification plan to any rate within the employee's salary group range as necessary to maintain desirable salary relationships:

(1) between and among employees of the agency; or

(2) between employees of the agency and employees who hold similar positions in the relevant labor market.

(b) In determining desirable salary relationships under Subsection (a), a state agency shall consider the education, skills, related work experience, length of service, and job performance of agency employees and similar employees in the relevant labor market.

(c) A state agency may award an equity adjustment to an employee under this section only if the adjustment does not conflict with other law.

(d) A state agency shall adopt internal written rules relating to making equity adjustments under this section. The rules shall include procedures under which the agency will review and analyze the salary relationships between agency employees who receive salaries under the same job classification and perform the same type and level of work to determine if inequities exist.

Sec. 3.08. Classification Study on Scheduled Exempt Positions. The State Auditor's Office shall conduct a study (which is similar to the biennial study performed by the State Auditor's Office on the state's classification plan under Government Code, Chapter 654) that reviews the compensation of exempt positions and executive compensation as provided in Articles I through VIII of this Act. The study should compare exempt positions from different agencies and consider the size of an agency's annual appropriations, the number of full-time equivalent employees (FTEs) of the agency, market average compensation for similar executive positions, the exempt position salary as compared to classified positions within the agency, and other objective criteria the State Auditor's Office deems appropriate. The study shall be submitted to all members of the Legislature and the director of the Legislative Budget Board no later than October 1, 2024.

Sec. 3.09. Method of Salary Payments. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time. This section may not be construed to prevent the chief administrator of an agency from paying less than the maximum salary rate specified in this Act for a position, or the employment of a part-time employee to fill a regular position provided for in this Act, so long as the salary rate for such part-time employee is proportional to the regular rate for full-time employment.

Sec. 3.10. Exception - Contracts Not Exceeding 12 Months. The Texas Juvenile Justice Department, institutions of higher education, the Texas School for the Deaf, and the Texas School for the Blind and Visually Impaired may pay salaries in equal monthly payments for the term of a contract if the term does not exceed twelve months.

Sec. 3.13. Matching Retirement and Certain Insurance. In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state may transfer into the operating fund or account sufficient monies from treasury funds, local, institutional, or federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

Sec. 3.14. Council of Government Salary Schedules. For the purposes of Local Government Code, Section 391.0117(b), the state salary schedules for classified positions for a council of government serving less than 200 participating governmental units are the salary schedules set out above in Part 2 of this article. For a council of government serving more than 200 participating governmental units, the state salary schedules for classified positions are the salary schedules adopted by the council for classified positions that were effective on August 31, 2009, as adjusted annually for inflation (as measured by use of the Consumer Price Index):

(1) for each year since their adoption, and

(2) for each fiscal year for which this Act makes appropriations.

Sec. 3.15. Direction to the State Auditor's Office. The State Auditor's Office is directed to assign appropriate Schedule C salary classifications (including class number, class title, and salary group) for the following positions:

Part 4. GRANT-MAKING PROVISIONS

Sec. 4.01. Grant Restriction. Monies appropriated by this Act may not be expended for a grant to a law enforcement agency regulated by Occupations Code, Chapter 1701, unless:

(1) the law enforcement agency requesting the grant follows all rules developed by the Commission on Law Enforcement; or

(2) the Commission on Law Enforcement certifies that the requesting agency is in the process of achieving compliance with such rules.

Sec. 4.02. Grants.

(a) Monies appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor agency may specify. A state agency shall distribute grants on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.

(b) Monies appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the monies appropriated for grant purposes. Distribution of the grant monies is subject to Government Code, Section 403.071.

Sec. 4.03. Grants for Political Polling Prohibited. None of the monies appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

Sec. 4.04. Limitation on Grants to Units of Local Government.

(a) The monies appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the monies received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:

(1) Parts 2, 3, and 5 of this article (except there is no requirement for increased salaries for local government employees);

(2) Government Code, Sections 556.004, 556.005, and 556.006; and

(3) Government Code, Sections 2113.012 and 2113.101.

(b) In this section, "unit of local government" means:

(1) a council of governments, a regional planning commission, or a similar regional planning agency created under Local Government Code, Chapter 391;

(2) a local workforce development board; or

(3) a community center as defined by Health and Safety Code, Section 534.001(b).

Part 5. TRAVEL REGULATIONS

Sec. 5.01. Travel Definitions. The definitions established by Government Code, Section 660.002, apply to Part 5 of this article unless another meaning is clearly provided.

Sec. 5.02. General Travel Provisions. The monies appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses indicates the maximum amount that may be expended by the agency. The monies appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Government Code, Chapter 660, and the Comptroller's Rules.

Sec. 5.03. Transportation Expenses in Personally Owned or Leased Motor Vehicles. For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

Sec. 5.04. Transportation in Personally Owned or Leased Aircraft. The rate of reimbursement to be paid to a state employee, key official, member of a board or commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations or alternatively as determined by the Comptroller the rates issued by the United States General Services Administration as announced by the Comptroller.

Sec. 5.05. Travel Meals and Lodging Expenses.

(a) (1) A state employee who travels within the continental United States shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed the maximum meals and lodging rates based on the federal travel regulations issued by the United States General Services Administration.

(2) Notwithstanding the limit established by Subsection (a)(1), the chief administrator of a state agency or designee of the chief administrator of a state agency may determine that local conditions necessitate a change in the lodging rate for a particular location and establish a higher rate.

(b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed $36.

(c) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.

(d) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:

(1) receives the written approval by the chief administrator of the state agency or institution;

(2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and

(3) complies with Government Code, Section 660.206.

Sec. 5.06. Special Provisions Regarding Travel Expenses. Reimbursement for meals and lodging as authorized by Government Code, Chapter 660, Subchapter H, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in Section 5.05.

Sec. 5.07. Travel and Per Diem of Board or Commission Members.

(a) As authorized by Government Code, Section 659.032, the per diem of state board and commission members consists of:

(1) compensatory per diem, if specifically authorized by law, at $30 per day; and

(2) at the rates provided by this Act for state employees, expense per diem, which includes:

(A) reimbursement of actual expenses for meals, at the rates provided by this Act for state employees;

(B) lodging at the rates provided by this Act for state employees;

(C) transportation at the rates provided by this Act for state employees; and

(D) incidental expenses.

(b) If a law authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).

(c) A full-time employee paid from monies appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5.08. Travel of Advisory Committee Members.

(a) For the purpose of this section, the term "advisory committee" has the meaning assigned by Government Code, Section 2110.001.

(b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.

(c) The monies appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are specifically authorized by this Act.

(d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.

(e) The limitations provided by this section apply only to an advisory committee that is subject to Government Code, Chapter 2110.

Part 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Unexpended Balance.

(a) In this Act "unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2024, unless another meaning is clearly indicated.

(b) For any estimated UB appropriated by this Act, should the actual amount of the UB be different than the estimate identified in this Act, the appropriation is adjusted to equal the actual UB, subject to any other restrictions to that appropriation made elsewhere in this Act.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or monies other than appropriations from the General Revenue Fund have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional monies from the General Revenue Fund to make up such differences. Wherever the language of this Act appropriates federal funds, local funds, or monies other than appropriations from the General Revenue Fund but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. Excess Obligations Prohibited.

(a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.

(b) As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.

(c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.

(d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee and apply the amount to the payment of the obligation.

(e) This provision is specified pursuant to Texas Constitution, Article XVI, Section 10.

Sec. 6.04. Interpretation of Legislative Intent. Monies appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.05. Comptroller's Duty to Pay. The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. Last Quarter Expenditures.

(a) A state agency or other governmental unit using monies appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the monies appropriated for that fiscal year.

(b) Specifically exempted from Subsection (a) are:

(1) expenditures contracted for in previous quarters;

(2) monies required by statute, rule, or regulation to be expended on a different time frame;

(3) seasonal employment of personnel;

(4) construction contracts;

(5) contracts dealing with purchases of food, medicines, or drugs;

(6) expenditures related to the Children with Special Health Care Needs benefits program administered by the Health and Human Services Commission or expenditures related to the Children with Special Health Care Needs Systems Development Group administered by the Department of State Health Services; and

(7) expenditures occasioned by disaster or other Act of God.

(c) The monies exempted under Subsection (b) may not be considered in the computation of the total monies appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.07. Employee Benefit and Debt Service Items.

(a) Monies appropriated in the various articles of this Act for Retirement and Group Insurance, Social Security and Benefit Replacement Pay, Texas Public Finance Authority-G.O. Bond Debt Service Payments, and Lease-Payments to the Texas Public Finance Authority may be transferred between articles to a like appropriation item without limitation as to the amount of such transfer.

(b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.08. Benefits Paid Proportional by Method of Finance.

(a) Unless otherwise provided, to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated monies, including "local funds" and "education and general funds" as defined in Education Code, Section 51.009(a) and (c), shall be proportional to the method of finance except for public and community junior colleges. Any financing sources subject to restrictions that prevent their expenditure on salaries and wages, as directed by legislative intent or established in policies by the Comptroller governing the calculation of benefits proportionality by method of finance, shall not be subject to this proportional requirement.

(b) Monies not subject to this proportionality requirement may include but are not limited to certain: appropriations for capital purposes, appropriations with salary restrictions, deficiency grant appropriations, emergency appropriations, or statutorily restricted funds that restrict or limit the use of monies to certain programs. The Comptroller shall make the final determination on the exclusion of monies from this proportionality requirement in conjunction with the policies developed under Subsection (f).

(c) For institutions of higher education, in determining the proportional allocation between the General Revenue Fund and other appropriated funds, an adjustment for local funds benefits shall be made to equitably distribute costs between the General Revenue Fund and other appropriated funds.

(d) If the Comptroller determines that achieving employee benefits proportionality at the time the benefits payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.

(e) For purposes of this Act, a public community or junior college may expend monies appropriated for employee benefit costs for any employee if the employee is: (1) otherwise eligible to participate in the group benefits program; and (2) an instructional or administrative employee whose salary may be fully paid from monies appropriated under the General Appropriations Act, regardless of whether the salary is actually paid from appropriated monies.

(f) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor's Office, shall develop and maintain policies to provide for the administration of this section.

(g) Each agency or institution of higher education (excluding a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20 following the close of the fiscal year for the salaries, wages, and benefits of the preceding year which ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor's Office.

(h) State Auditor shall at least biennially review agency and institution compliance with the requirements of this section if the agency or institution (excluding a community or junior college) receives monies appropriated under this Act. Subject to a risk assessment, the State Auditor shall audit the expenditure transfers and payments for benefits by an agency or institution. The State Auditor shall send the audit report to the Comptroller and the Legislative Budget Board upon completion of the audit, along with any recommendations for changes or

refunds. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionally paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.

(i) Should cash balances in appropriated funds prohibit an account or fund from absorbing additional expense related to proportionality requirements, an agency or institution may be allowed to adjust benefit expenses accordingly. An agency or institution must notify the Comptroller and Legislative Budget Board of any requested adjustment. The Comptroller shall make the final determination on the allowance of any benefit expense adjustment but shall ensure that the General Revenue Fund is reimbursed to the maximum extent possible.

(j) For institutions of higher education, excluding public community or junior colleges, monies appropriated by this Act may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries and wages are paid from monies not appropriated by this Act.

(k) The limitation in Subsection (j) shall not apply to the:

(1) monies appropriated to the Texas Department of Criminal Justice and provided to The University of Texas Medical Branch at Galveston or to the Texas Tech University Health Sciences Center for correctional health care services, and

(2) monies appropriated to the Health and Human Services Commission and provided to The University of Texas Health Science Center at Houston for the operation of the Harris County Psychiatric Center or the Dunn Behavioral Sciences Center.

In accordance with the policies developed under Subsection (f), institutions identified in this subsection shall disclose information on the amount of interagency contract proceeds used to pay salaries and wages as well as the associated general revenue benefits for programs identified in this subsection.

Sec. 6.09. Appropriations from Special Funds. Notwithstanding other provisions of this Act, appropriation amounts from special funds or special or dedicated accounts in the General Revenue Fund (as those terms are defined by Government Code, Section 403.001) are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

Sec. 6.10. Limitation on State Employment Levels.

(a) (1) (A) A state agency that is subject to the requirements of Subsection (c) may not use monies appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from monies appropriated by this Act by the state agency for a fiscal quarter to exceed the figure indicated by this Act for that state agency without reporting that use of monies to the Governor and the Legislative Budget Board at a time not later than the last day of the first month following each quarter of the fiscal year, for which the FTEs exceed the figure indicated by this Act for that state agency.

(B) A state agency that is subject to the requirements of Subsection (c) may not expend monies appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of FTEs paid from monies appropriated by this Act by the state agency for a fiscal quarter to exceed the lesser of either:

(i) 110 percent of the FTE figure indicated by this Act for that state agency; or
(ii) 100 percent of the figure indicated by this Act for that state agency plus 50 FTEs.

(2) (A) A state agency or institution of higher education that is subject to the requirements of Subsection (d) may not use monies appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of FTEs paid from monies appropriated by this Act by the state agency or institution of higher education for a fiscal year to exceed the figure indicated by this Act for the state agency or institution of higher education for a fiscal year without reporting that

use of monies to the Governor and the Legislative Budget Board at a time not later than the last day of the first month following the last quarter of the fiscal year, for which the FTEs exceed the figure indicated by this Act for that state agency or institution.

(i) 110 percent of the FTE figure indicated by this Act for that state agency or institution; or
(ii) 100 percent of the figure indicated by this Act for that state agency or institution plus 50 FTEs.

(g) (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment for a project, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:

(A) implementation of a new, unanticipated project that is 100 percent federally funded; or

(B) the unanticipated expansion of an existing project that is 100 percent federally funded.

(2) With regard to the exemption from the FTE limitations provided by this subsection, a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.

(4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this subsection.

To achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.

(b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:

(1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed and maintained by the Legislative Budget Board.

(2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees. Should clerical or bookkeeping errors result in any monies being expended, transferred, or deposited into incorrect funds in or with the state Treasury or any monies being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared monies may be transferred to the correct funds or accounts or trust and suspense account within the state Treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is appropriated.

Sec. 6.15. Accounting for State Expenditures.

(a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of monies appropriated by this Act in a manner that allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.

(b) This section does not require the deposit into and subsequent disbursement of monies from the state Treasury that relate to Texas Public Education Grants, or "local funds" defined in Education Code, Section 51.009, except for tuition and lab fees.

Sec. 6.16. Fee Increase Notification. None of the monies appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 6.17. Consolidated Funds. Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

Sec. 6.18. Demographic and Statistical Studies. Before expending monies appropriated by this Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council or the Office of the State Demographer and the Texas Demographic Center (previously known as the Texas State Data Center) located at The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

Such transfers must be accomplished within 12 months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

Sec. 6.20. Use of Appropriations to Contract for Audits.

(a) Notwithstanding any other law or other sections of this Act, none of the monies appropriated in this Act shall be used by the agencies or institutions of higher education to enter into a contract with an independent audit entity for audit services, except as specified by this section.

(b) An agency or institution appropriated monies in this Act may use the monies to:

The Comptroller may adjust the composition of fund and account balances without any net change in balances or change in appropriations to ensure compliance with the limit set forth in Texas Constitution, Article VIII, Section 22.

(f) If the agency does not satisfy the notification requirements of this section, the Director of the Legislative Budget Board may provide written notification to the Comptroller, Governor, and each of the members of the Legislative Budget Board detailing the requirements of this section that the agency did not meet and any recommendations to address identified risks related to the procurement or contract. The recommendations may include enhanced monitoring by Legislative Budget Board staff, auditing by the State Auditor's Office, required agency consultation with the Quality Assurance Team and/or Contract Advisory Team, or contract cancellation.

Revenues specifically established by statute on a fee- or service-provided basis are not appropriated by this section and are available for expenditure by the collecting agency only if appropriated elsewhere in this Act.

(b) Forfeited money, proceeds from the sale of forfeited property, or similar monetary awards related to the agency's participation in the seizure of controlled substances or other contraband are appropriated to the receiving state agency unless distribution is otherwise provided by statute or specific provision of this Act.

(f) (1) Fifty percent of the reimbursements, refunds, and payments of state monies received under Subsection (a) as a result of a recovery audit pursuant to Government Code, Chapter 2115, shall be credited by the Comptroller to the agency's current appropriation items or accounts from which the expenditures of like character were originally made and such monies are appropriated to the agency in the fiscal year in which the monies are received. The remaining 50 percent shall be deposited in the state Treasury as unappropriated revenues to the originating funds or accounts.

(2) Any reimbursement or refund related to grant monies shall be governed by Part 4 of this article.

Any claim or portion of a claim that is in excess of this limitation shall be presented to the next Legislature for a specific appropriation in order for payment to be made. The limit provided by this subsection does not apply to any taxes or fees paid under protest.

(d) Where the Biennial Revenue Estimate referenced in Subsection (c) provides that no revenues are estimated to be available from a tax, fee, or other revenue source, and where a special fund or special or dedicated account (as those terms are defined by Government Code, Section 403.001) has been abolished or the law creating the special fund or special or dedicated account has been repealed or has expired, any balances which may have been transferred or credited to the General Revenue Fund because of such abolishment, repeal, or expiration are appropriated from that fund to pay refunds that are otherwise payable under this section.

QAT may provide the state agency with recommendations pertaining to the draft copy of the contract. Upon conclusion of vendor negotiations, a state agency shall submit the final negotiated copy of the contract to QAT for review. QAT shall either provide the state agency with recommendations pertaining to the final negotiated copy of the contract or waive review. A state agency shall not submit the final negotiated copy of the contract to the vendor for the purpose of execution prior to receiving either QAT's recommendations or waiver.

QAT may conduct a preliminary review of the draft contract prior to vendor negotiation. Based on the preliminary review and QAT's determination that the agency has developed a risk mitigation strategy sufficient to protect the state's interests, QAT may waive further review and the approval requirement of this section.

(d) Prior to amending a contract associated with any phase of the development of a major information resources project, when the expected total value of the contract after the

(2) A state agency must notify QAT when the agency advertises a request for proposal, request for bid, or other similar process common to participation in the competitive bidding processes of a major information resources project. The corresponding agency requisition number must be provided at the time of notification.

(3) A state agency must notify QAT within 10 business days when the agency awards a contract for a major information resources project that exceeds $10 million for QAT review.

(4) After a major information resources project has been completed, QAT may also require an agency to submit a project post-implementation evaluation report to determine if the project met its planned objectives.

(5) QAT may take any additional actions or request information as specified in Government Code, Section 2054.1181.

(2) monitor cost; and

(3) evaluate the final results to determine whether expectations have been met.

(h) After a major information resources project has been completed, QAT may also require a project demonstration to determine if the project is functioning as intended.

Sec. 9.03. Biennial Operating Plan and Information Resources Strategic Plan Approval. It is the intent of the Legislature that agencies receiving appropriated monies for the acquisition of information technology must have a current Biennial Operating Plan including any amendments as approved by the Legislative Budget Board prior to expending any money for information technology. Information Technology items identified in the Capital Budget Rider must be included and approved in the Biennial Operating Plan or a subsequently approved amendment of the Biennial Operating Plan. The Legislative Budget Board may direct the Comptroller to deny the agency access to information technology appropriations for non-compliance.

Sec. 9.04. Information Technology Replacement.

(a) Agencies and institutions of higher education receiving appropriated monies for the acquisition of information technology shall perform a cost-benefit analysis of leasing versus purchasing information technology and develop and maintain a personal computer replacement schedule. Sec. 9.05. Texas.gov Project: Occupational Licenses. Each licensing entity not otherwise authorized to increase occupational license fees elsewhere in this Act may, as provided by Government Code, Section 2054.252(g), increase the occupational license or permit fees imposed on the licensing entity's licensees by an amount sufficient to cover the cost of the subscription fee charged by the Texas.gov Project to the licensing entity pursuant to Government Code, Chapter 2054. Each licensing entity provided authority to impose a fee by Government Code, Section 2054.252(g), and not otherwise authorized to increase occupational license fees elsewhere in this Act is appropriated the additional occupational license or permit fees in excess of the Comptroller's biennial revenue estimate for 2024-25 for the sole purpose of payment to the Texas.gov contractor subscription fees for implementing and maintaining electronic services for the licensing entities. Each agency, upon completion of necessary actions to access or increase fees, shall furnish copies of board meeting minutes, an annual schedule of the number of license issuances or renewals and associated annual fee total, and any other supporting documentation to the Comptroller. If the Comptroller finds the information sufficient to support the projection of increased revenues, a notification letter will be issued, and the contingent appropriation made available for the intended purposes.

The Texas Mental Health Care Consortium shall designate an individual to serve as a representative on the coordinating council. Any other state agency or institution that receives funding in this Act and provides specific behavioral health services may participate in the meetings and discussions of the coordinating council. The coordinating council shall meet at least once quarterly during fiscal years 2024 and 2025, or more frequently if determined necessary by the Mental Health Statewide Coordinator at HHSC.

These community collaboratives shall include community collaboratives as defined by Government Code, Chapter 539; community recipients of a grant for veterans' mental health pursuant to Government Code, Section 531.0992; recipients of a grant through the Mental Health Grant Program for Justice-Involved Individuals; and recipients of a grant through the Community Mental Health Grant Program. (c) **Statewide Behavioral Health Strategic Plan.** The purpose of the coordinating council shall be to implement the five-year Texas Statewide Behavioral Health Strategic Plan most recently published on November 3, 2022, and originally published May 1, 2016, (the strategic plan) per 2016-17 GAA, Article IX, Section 10.04(b), Eighty-fourth Legislature, 2015. The coordinating council shall annually update the inventory of behavioral health programs and services. The inventory shall describe how the identified programs, services, initiatives, and expenditures further the goals of the strategic plan. HHSC shall make available the five-year strategic plan update and the inventory of programs on HHSC's website no later than December 1 of each year.

law, are related to court-ordered treatment, or are required as the result of administrative proceedings, the funding for these services shall still be included in the proposal, but these monies shall not be contingent upon approval.

The coordinated expenditure proposal shall be developed in a format specified by the Legislative Budget Board, and shall, at a minimum, include expenditures related to each program identified in the program inventory required by Subsection (c), identified by fund type. Such information shall include:

(6) a proposed type of financing; and

(7) any additional related information requested by the Bond Review Board.

(b) The Bond Review Board shall compile a statewide capital expenditure plan for the 2026-27 fiscal biennium from the information submitted by agencies and institutions in accordance with the capital planning guidelines. Copies of the guidelines shall be filed with the Governor and the Legislative Budget Board no later than December 31, 2023. Sec. 11.04. Efficient Use of State-Owned and Leased Space.

(a) In the event that an agency moves from leased space to state-owned space after the passage of this Act, the Comptroller shall reduce monies appropriated to each affected agency by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space to state-owned space in fiscal year 2023 may be paid from fiscal year 2024 appropriations and costs incurred in fiscal year 2024 may be paid from fiscal year 2025 appropriations as necessary to facilitate the move. The Comptroller shall transfer to the Texas Facilities Commission from the special funds or accounts, including dedicated General Revenue Fund accounts (as those terms are defined by Government Code, Section 403.001), of those agencies that move into a state facility funded from Texas Public Finance Authority revenue bond proceeds each agency's proportional share of the lease payments made for the facility as determined by the Texas Facilities Commission. The Comptroller shall reduce the amounts appropriated to the Texas Facilities Commission out of the General Revenue Fund for lease payments in the appropriate article of this Act by an amount equal to the sum of the transfers from the special funds or accounts. The monies so transferred are appropriated to the Texas Facilities Commission for the purposes of making lease payments to the Texas Public Finance Authority.

(b) In the event that an agency obtains a lease at a rate lower than existing lease amounts after the passage of the Act, the Comptroller shall reduce monies appropriated to each affected agency by an amount equal to the lease costs that would have been incurred for the remainder of the 2024-25 biennium, as determined by the Comptroller. If obtaining a reduced lease rate requires the agency to move its location, the Comptroller shall reduce the agency's appropriations less costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space in fiscal year 2024 may be paid from fiscal year 2025 appropriations as necessary to facilitate the move.

Sec. 11.05. State Agency Emergency Leases.

(c) At least one year before an agency's lease expires, an agency must notify the Texas Facilities Commission in writing of its intent to renew its existing lease or relocate its offices.

(d) If an agency fails to notify the Texas Facilities Commission in writing at least one year prior to a lease expiration and is subsequently forced to initiate an emergency lease agreement, the agency shall have its appropriation in each fiscal year in which it is in an emergency lease agreement reduced by the dollar amount charged to the agency in addition to its base level rent. This Subsection (d) applies in addition to the reduction of Subsection (b).

(e) If an agency notifies the Texas Facilities Commission in writing one year prior to a lease expiration in accordance with Government Code, Chapter 2167, and the Texas Facilities Commission fails to renew/initiate a lease agreement for the agency by the lease expiration date, and an agency is forced to initiate an emergency lease agreement, the Texas Facilities Commission shall have its appropriation reduced in each fiscal year in which the affected agency is in an emergency lease agreement by the dollar amount charged to the agency in addition to the agency's base level rent. If this Subsection (e) applies, then the reduction of Subsection (d) does not apply.

(f) The Comptroller will make all necessary reductions established in this provision each month of an emergency lease agreement. Monies lapsed by agencies for violation of this provision shall be deposited into the fund in the state Treasury from which they were originally appropriated.

(g) The Texas Facilities Commission shall provide quarterly reports to the Legislative Budget Board and the Governor:

(1) detailing the number of state agencies holding emergency leases; and

(c) Notwithstanding any other provision of this Act, all state-owned aircraft (including aircraft forfeited to or seized by a particular agency) are subject to the authority of the Texas Department of Transportation.

(d) Expenditure of appropriated monies for replacement of aircraft with aircraft of comparable quality may be made contingent upon approval of the Texas Department of Transportation and a finding of fact by the Governor that a report has been filed with the Governor showing that:

(1) the aircraft to be replaced has been destroyed or has deteriorated to an extent that continued operation presents a serious hazard or that the aircraft to be replaced can no longer meet the mission requirements of the principal user state agency; and

(2) other state-owned aircraft cannot be effectively utilized in lieu of a replacement aircraft.

(e) Expenditures necessary to purchase liability insurance pursuant to Government Code, Section 2205.045(a), shall be made on a pro rata basis, as determined by the Texas Department of Transportation, from appropriations authorized to each agency operating a state-owned aircraft. The Comptroller shall transfer such necessary amounts from agencies operating aircraft to the Texas Department of Transportation for the purchase of liability insurance and expenditure of such monies by the Texas Department of Transportation is authorized.

(f) Any reimbursements received by a state agency for authorized aircraft services rendered to another state agency are appropriated to the agency receiving the reimbursements and shall be credited to the agency's appropriation item from which the cost of aircraft operation is paid.

(g) In this section the term “aircraft” has a meaning consistent with the rules adopted by the Comptroller.

Sec. 12.02. Publication or Sale of Printed, Recorded, or Electronically Produced Matter or Records.

(a) Monies appropriated by this Act may not be used for the publication, recording, production, or distribution of any item or matter, including lists, notices, pamphlets, video recordings, audio recordings, microfiche, films, or other electronically produced information or records unless such publication, recording, or production is:

(1) essential to accomplish or achieve a strategy or outcome target established by this Act; or

(2) required by law.

(b) Any monies received and collected from any charges specifically authorized by statute for the productions, publications, or records are appropriated to the agency issuing the productions, publications, or records for use during the year in which the receipts are collected. A state agency, including an institution of higher education, that is required to meet the percentage requirements for vehicles capable of using alternative fuels under Government Code, Chapter 2158, may expend monies appropriated by this Act for the purpose of meeting the percentage requirements only if the agency purchases or converts a vehicle that uses the most cost-effective, fuel efficient, and mechanically efficient alternative fuel source.

Sec. 12.04. Transfer of Master Lease Purchase Program Payments.

(a) The Texas Public Finance Authority may transfer each agency's share of administrative fees and lease payments pursuant to the Master Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Lease Purchase Program cost of issuance funds and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments may not be made earlier than 15 calendar days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer monies necessary for Master Lease Purchase Program debt service payments from the State Lease Fund Account to the Texas Public Finance Authority Master Lease Purchase Program interest and sinking funds.

(b) The Comptroller shall assist the Texas Public Finance Authority in the transfer of lease payments. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, does not release an agency from lease payment obligations.

Sec. 12.05. Vehicle Fleet Maintenance and Repair. State agencies and institutions of higher education should use the most cost effective means available to maintain and repair state vehicles, including entering into interagency agreements for services with agencies or institutions of higher education which operate vehicle maintenance shops when feasible. This does not prohibit state agencies or institutions of higher education from receiving services from private vehicle maintenance shops when necessary.

Any such interagency agreement for vehicle maintenance and repair services shall include interagency transfers of monies in an amount to offset any increased costs state-owned maintenance shops may incur from the increased number of vehicles serviced and shall not restrict the ability of state agencies or institutions of higher education from selecting alternatives for vehicle maintenance and repair services, unless restricted by other law.

Sec. 12.06. Agency's Participation in Master Lease Purchase Program. It is the intent of the Legislature that all agencies participate in the Master Lease Purchase Program to the extent that the Master Lease Purchase Program would be the most cost-effective type of financing when using a lease purchase method for acquisition of capital assets.

The Comptroller may recover the cost of this activity pursuant to authority in Government Code, Chapter 771.

Sec. 13.04. Deposit and Expenditure Limitations. Except for an institution of higher education, federal funds:

(1) including unexpended balances, shall be deposited to and expended from the specific appropriation item identified in this Act; and

Sec. 13.05. Reimbursements from Federal Funds. As applicable, federal reimbursements received for expenditures previously made or services performed on behalf of federal programs from state monies shall be credited by the Comptroller to the fund from which the expenditure was originally made. Reimbursements received from employee benefits paid from General Revenue Fund appropriations of other administering agencies shall be deposited to the unappropriated General Revenue Fund.

Sec. 13.07. Funding Reductions. In the event that federal programs that authorize federal funds included in this Act are eliminated, consolidated, or replaced with new federal programs and funding authorization or block grants, or the federal funds appropriated to agencies are reduced, any reduction or reallocation of federal funds will be distributed across affected agencies and programs to pattern the strategies and programs included in this Act to the extent possible without restricting the state's ability to receive federal funds, in accordance with a plan adopted by the designated single state agency or otherwise by each affected agency. An agency shall provide a copy of the plan to the Legislative Budget Board and the Governor.

Sec. 13.08. Unexpended Balances. Except as provided by Section 13.09 of this article, any unexpended balances of federal funds existing at the beginning of this biennium or at the end of a fiscal year of this biennium are appropriated for use during this biennium for the original purposes of the appropriation.

Sec. 13.09. Temporary Assistance for Needy Families (TANF), Social Services Block Grant (SSBG), or Child Care and Development Block Grant (CCDBG).

(a) Notwithstanding Section 13.01, agencies appropriated Temporary Assistance for Needy Families (TANF), Social Services Block Grant (SSBG), or Child Care and Development Block Grant (CCDBG) federal funds elsewhere in this Act may expend any balances of TANF, SSBG, or CCDBG federal funds that are unobligated and unexpended at the beginning of this biennium from an appropriation made during the previous biennium or any additional TANF, SSBG, or CCDBG federal grants. In addition, the TANF, SSBG, or CCDBG federal funds appropriated elsewhere in this Act and/or the balance of all available TANF, SSBG, or CCDBG federal funds may be transferred as appropriate by the single state agency for TANF, SSBG, or CCDBG, respectively.

(b) No expenditures under this section may be made without prior approval by the Legislative Budget Board and Governor as provided by Subsection (c).

(c) (1) To request approval to expend monies under Subsection (b), the agency or single state agency shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency or single state agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the amount of unexpended balance or additional federal grants of TANF, SSBG, or CCDBG funds; a detailed explanation of the purpose and use of the monies; and an estimate of the impact on performance measures and capital budgets. If the purpose for the unexpended balance differs from the original purpose, the request shall include the names of the originating and receiving strategies for the monies. Additional information requested by the Legislative Budget Board or the Governor shall be provided in a timely manner.

(2) The request is approved if neither the Legislative Budget Board nor the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the monies and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

(d) The Comptroller of Public Accounts shall not authorize the expenditure of unexpended balances or additional TANF, SSBG, or CCDBG federal funds if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 13.10. Definition, Appropriation, Reporting and Audit of Earned Federal Funds.

(a) **Definition.** Earned Federal Funds (EFF) are defined as all monies received in connection with each entitlement period of a federally funded contract, grant or program, excluding reimbursements under Section 13.05 of this article which are not required by the governing agreement to be distributed thereon. Typically, EFF arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. These earned federal funds are received in connection with a federally funded program but are not required

by the governing agreement to be distributed on that program. For state accounting purposes, EFF are defined as revenues collected from federal receipts and deposited into the state General Revenue Fund as Comptroller revenue object codes 3602, 3702, 3726, 3745, 3750, 3773, 3851, and 3971.

(k) **Audit.** The depositing and classification practices of EFF by agencies referenced above shall be subject to audit by the State Auditor's Office.

Part 14. AGENCY DISCRETIONARY TRANSFER PROVISIONS

Sec. 14.01. Appropriation Transfers.

(a) Subject to any specific restriction in another provision of this Act and in deference to Section 14.04, an appropriation contained in this Act may be transferred from one appropriation item to another appropriation item in an amount not to exceed 20 percent of the appropriation item from which the transfer is made for the fiscal year, at the discretion of the chief administrative officer of the state agency.

(b) After obtaining the written approval of the Governor and the Legislative Budget Board, a state agency may exceed the 20 percent discretionary transfer authority provided to the chief administrative officer of the state agency under Subsection (a).

(c) A request for approval to exceed the 20 percent discretionary transfer authority provided to the chief administrative officer of the state agency under Subsection (a) must be submitted by the agency's governing board (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) and must include at a minimum:

(1) the date on which the governing board (if applicable) approved the request;

(2) a statement justifying the need to exceed the transfer limitation;

(d) (1) Monies appropriated by this Act in items of appropriation that are part of a "Goal" for "Indirect Administrative and Support Costs" or "Indirect Administration" may also be transferred from one appropriation item to another appropriation item within that same goal without limitation as to the amount of such a transfer.

(2) Monies appropriated by this Act in items of appropriation that are part of a "Goal" for "Indirect Administration" or "Indirect Administrative and Support Costs" may not be increased by transfer from an appropriation item from another Goal without the prior written approval of the Governor and the Legislative Budget Board.

(e) Appropriations made by this Act to each state agency are not subject to transfer between fiscal years nor between agencies except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.

Sec. 14.02. Transfers for Contract Services. Monies appropriated in the various articles of this Act for Retirement and Group Insurance and for Social Security and Benefit Replacement Pay may be transferred between articles for similar appropriation items for the purpose of paying employee benefits costs incurred by higher education institutions when those institutions have contracted to provide services to state agencies.

Sec. 14.03. Transfers - Capital Budget.

(a) (1) Contained in appropriations made to certain agencies by this Act are amounts identified as the "Capital Budget." Except as provided under this section, none of the monies appropriated by this Act in excess of amounts restricted to capital budget purposes may be expended for capital budget purposes without the prior written approval of the Governor and Legislative Budget Board.

(2) The restrictions, limitations, reporting, and approval requirements of this section do not apply to a change in the method of finance which might result as a part of a transfer transaction involving a capital budget item, provided that the transfer transaction otherwise complies with the requirements of this section and the other provisions of this Act.

(b) A request for approval to exceed the transfer limitation on capital budget expenditures under Subsection (h) must be submitted by the agency's governing board (if the agency has a governing board) or by the chief administrative officer of the agency (if the agency has no governing board or the governing board has not met) and must include at a minimum:

(1) the date on which the governing board (if applicable) approved the request;

(2) a statement justifying the need to exceed the limitation;

(3) the source of monies to be used to make the purchases; and

(4) an explanation as to why such expenditures cannot be deferred.

(c) The restrictions provided by this section do not apply to:

(A) institutions and agencies of higher education; or

(B) public community/junior colleges; or

(d) "Capital Budget" includes expenditures, for assets with a biennial project cost or unit cost in excess of $500,000, within the following categories:

(1) acquisition of land and other real property, except for right-of-way purchases made by the Texas Department of Transportation;

(2) construction of buildings and facilities;

(3) repairs or rehabilitation of buildings and facilities;

(4) construction of roads, except for such expenditures made by the Texas Department of Transportation;

(11) cybersecurity projects.

(e) Any expenditure directly related to acquisition of an asset, or to placing an asset in service, may be paid from the appropriation made to the "Capital Budget."

(f) In implementing this section, the Comptroller should refer to the detailed instructions for preparing and submitting requests for legislative appropriations for the biennium beginning September 1, 2023, the definitions included in those detailed instructions, and the official request for legislative appropriations submitted by the affected agency.

(g) Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to MLPP or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the capital budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the capital budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. If the Comptroller cannot determine the amount appropriated for a specific capital budget item, the amount shall be determined by the Legislative Budget Board.

(h) (1) Subject to any specific restriction in another provision of this Act and in deference to Section 14.04, an agency may transfer appropriations:

(A) from a non-capital budget item to a capital budget item;

(B) from a capital budget item to another capital budget item; or

(C) from a capital budget item to an additional capital budget item not presented in the agency's bill pattern.

(2) Without the written approval of the Governor and the Legislative Budget Board:

(A) the amounts transferred during a fiscal year as provided by Subsection (h)(1) may not exceed 25 percent of either:

(i) the amount of the capital budget item, as presented in the agency's bill pattern from which monies are being transferred; or
(ii) the amount of the capital budget item, if presented in the agency's bill pattern, to which monies are being transferred;

(B) appropriations may not be transferred directly from a non-capital budget item to an additional capital budget item not presented in the agency's bill pattern;

(C) appropriations may not be transferred to an additional capital budget item that is not presented in the agency's bill pattern if that additional capital budget item was presented to a committee, subcommittee, or working group of the Eighty-eighth Legislature but was not adopted by the Eighty-eighth Legislature; and

(D) an agency that does not have a capital budget provision following its items of appropriation in this Act may not use monies appropriated by this Act for creation of a capital budget item.

(3) An agency may not transfer appropriations from a capital budget item to a non-capital budget item without the prior written approval of the Governor and the Legislative Budget Board.

(4) An agency may transfer appropriations into "data center consolidation," "data center services," or "shared technology services," as defined by Subsection (l)(2). An agency may transfer appropriations from "data center consolidation" or "data center services," or "shared technology services" as provided by Government Code, Section 2054.386 after obtaining the written approval of the Legislative Budget Board.

(i) Unexpended balances remaining in appropriations made by this Act for capital budget purposes for use during the first year of the biennium are appropriated for use during the second year of the biennium for the same purpose.

(j) (1) Notwithstanding limitations on capital expenditures provided elsewhere, appropriations made by this Act that may be used for the payment of utility bills may be used to pay for energy and water conservation-related projects, including lease payments under the state's MLPP, entered into in accordance with energy and water conservation statutes.

(2) Capital expenditures for items that could be financed through the utility savings made possible by a comprehensive energy and water conservation contract authorized by Government Code, Section 2166.406, are prohibited unless part of a comprehensive energy or water conservation contract authorized by Government Code, Section 2166.406.

(3) Before authorizing expenditures for capital items that consume energy or water or that are related to the energy or water consumption of an agency's facilities, the Comptroller must verify that the items could not be part of a cost-effective contract for energy and water conservation measures authorized by Government Code, Section 2166.406.

(k) The Legislative Budget Board may direct the Comptroller of Public Accounts to reduce monies appropriated by this Act to a state agency for capital budget purposes.

(l) (1) To provide for unanticipated shortages in appropriations made by this Act for fiscal year 2024 for the payment of data center services costs, amounts identified elsewhere in this Act in fiscal year 2025 for "data center consolidation," "data center services," or "shared technology services" may be transferred to fiscal year 2024 to pay data center services costs.

(2) "Data Center Consolidation," "Data Center Services," or "Shared Technology Services" for the purposes of this section are defined as services provided by the Department of Information Resources in accordance with Government Code, Chapter 2054, including software licensing services, application services, security services, and public and private cloud services.

Sec. 14.04. Disaster Related Transfer Authority.

(a) Policy and Procedure. In the event of a disaster proclamation by the Governor under Government Code, Chapter 418, transfers of appropriations made in this Act, if necessary to respond to the disaster and if made according to the terms of this section, are permitted. This section is intended to serve as a means for quickly, effectively, and efficiently transferring appropriations in the event of a disaster. This section provides an exception to any other provision of this Act which might otherwise limit transfers of appropriations such as by imposing a limit on the amount of a transfer or which might otherwise limit transfers of appropriations by causing a delay in making a transfer because of the need to take actions such as preparing reports or obtaining approvals prior to transferring appropriations necessary for responding to a disaster. No part of this section shall be read to limit, modify, or abridge the authority of the Governor to proclaim an emergency, disaster, or martial law or exercise any other powers vested in the Governor under the Texas Constitution or other laws of this state.

(b) Health and Human Services Agencies. For a health and human services agency appropriated monies under Article II of this Act that directly responds to the disaster the Commissioner of Health and Human Services may transfer monies from another health and human services agency appropriated monies under Article II of this Act to the responding agency and may

transfer monies between the strategies or capital budget items of each agency for the purpose of funding the disaster response subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(c) Other Agencies. An agency, other than a health and human services agency appropriated monies under Article II of this Act, that directly responds to a disaster may transfer appropriations within the agency, without regard to any limits on transfer of appropriations between strategies or capital budget items, subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(d) Transfers Between Agencies. If a transfer involving at least one agency not appropriated monies under Article II of this Act is necessary to respond to a disaster, the agencies involved in the transfer shall request approval from the Legislative Budget Board and the Governor for the emergency transfer of monies, pursuant to Texas Constitution, Article XVI, Section 69. Any request under this subsection shall include the same information required in the recommended plan of transfer below and a copy shall be provided to the Comptroller. A request made under this subsection is subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(e) Appropriation Transfers between Fiscal Years. Agencies responding to a disaster may transfer monies appropriated in fiscal year 2025 to fiscal year 2024, subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(f) Unexpended Balances. Any unobligated balances from transfers made under Subsection (e) as of August 31, 2024, are appropriated to the agency for the same purpose for the fiscal year beginning September 1, 2024.

(g) Notification of Recommended Plan of Transfer.

(1) Recommended Plan of Transfer. A recommended plan of transfer submitted by an agency to the Governor and Legislative Budget Board under this section must include the following information:

(A) a copy of the appropriate disaster proclamation made under Government Code, Chapter 418;

(B) the amounts to be transferred (listed by method of finance);

(C) the agency or agencies affected;

(D) the programs affected by the transfer; and

(E) any other information requested by the Legislative Budget Board.

(2) Notification. An agency must notify the Legislative Budget Board, the Comptroller, the Governor, and any other agency involved in the transfer prior to the date of recommended transfers. The Comptroller shall transfer the monies as recommended.

Sec. 14.05. Unexpended Balance Authority Between Fiscal Years within the Same Biennium. An agency may transfer any unexpended and unobligated balances remaining as of August 31, 2024, for the same purposes for the fiscal year beginning September 1, 2024, if the agency has been granted, either:

(1) specific authority in another provision of this Act; or

(2) written approval of the Legislative Budget Board.

Part 15. AGENCY NON-DISCRETIONARY TRANSFER PROVISIONS

Sec. 15.01. Reimbursements for Unemployment Benefits.

(a) For the purposes of this section, "agency" includes a state agency as defined under Government Code, Section 2151.002, which includes an institution of higher education (except a public junior college) as defined under Education Code, Section 61.003.

(b) At the close of each calendar quarter, the Texas Workforce Commission shall prepare a statement reflecting the amount of unemployment benefits paid to all former state employees based on wages earned from state employment and present the statement to the Comptroller. The Comptroller shall pay by warrant or transfer out of monies appropriated from the Unemployment Compensation Special Administration Account No. 165 such amount to the Unemployment Compensation Benefit Account No. 937 to reimburse the Texas Workforce Commission for the payments.

(c) The Unemployment Compensation Special Administration Account No. 165 shall be reimbursed as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165 for one-half of the unemployment benefits paid from appropriations made in this Act to the agency that previously employed each respective former state employee whose payroll warrants were originally issued in whole or part from the General Revenue Fund, any dedicated General Revenue Fund accounts, Federal Funds, or Other Funds.

(d) From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue-Dedicated accounts, Federal Funds, or Other Fund appropriations made elsewhere in this Act to agencies. The Comptroller shall transfer such amounts to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed pursuant to this subsection are appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937 as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165. The reimbursement requirements established by this subsection may be waived, either in whole or in part, by the Legislative Budget Board.

(e) In addition to other reimbursement provided by this section, the Unemployment Compensation Special Administration Account No. 165 shall be reimbursed for one-half of the unemployment benefits paid from amounts appropriated to the Reimbursements to the Unemployment Compensation Benefit Account item in this Act out of dedicated General Revenue Fund accounts or Other Funds and shall be fully reimbursed from monies held in local bank accounts for all former state employees whose payroll warrants were originally issued in whole or part from dedicated General Revenue Fund accounts, Other Funds, Federal Funds, or local bank accounts respectively. From information provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from funds other than the General Revenue Fund and transfer such monies to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed from local funds pursuant to this subsection are appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. Such transfers and payments authorized under law shall be made not later than the 30th calendar day after the date of receipt of the statement of payments due.

(f) The Comptroller may prescribe accounting procedures and regulations to implement this section.

(g) The Comptroller, upon certification of amounts due from the Texas Workforce Commission, including the sources of the amounts due, may transfer monies from the agencies or other units of state government as the Texas Workforce Commission certifies remain due more than 30 calendar days from receipt of the statement of payments due. The Texas Workforce Commission shall also determine the amounts due from funds held outside the state Treasury and notify the State Auditor and Comptroller of those amounts.

Sec. 15.02. Payments to the State Office of Risk Management (SORM).

(a) In this section:

(1) "SORM" means the State Office of Risk Management.

(2) "Agency" includes a state agency as defined under Government Code, Section 2151.002, which includes an institution of higher education (except a public junior college) as

defined under Education Code, Section 61.003, and may also include any other unit of state government as defined by the rules of SORM, which participates in cost allocation plan provided under this section;

(3) "Assessment" means the amount of the workers' compensation assessment placed on an agency by SORM and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in SORM's Strategy A.1.1, Risk Management and Claims Administration, as provided by this section and other relevant law; and

(b) At the beginning of each fiscal year, SORM shall prepare a statement reflecting the assessments due from all agencies and present it to the Comptroller.

(c) (1) Notwithstanding other provisions in this Act, agencies shall transfer to SORM 75 percent of their assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in SORM's Strategy A.1.1, Risk Management Program and Claims Administration.

(2) Not later than May 1 of each year, SORM shall determine the remaining assessment due from each agency based on actual costs since the beginning of the fiscal year and other estimated costs. SORM shall prepare a statement reflecting the remaining assessments due from each agency and present the statement to the Comptroller. Each agency shall transfer to SORM the remaining assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds, or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in SORM's Strategy A.1.1, Risk Management Program and Claims Administration.

(d) Transfers and payments as are authorized under law shall be made not more than 30 calendar days from receipt of the statement of payments due.

(e) The Comptroller may prescribe accounting procedures and regulations to implement this section.

(f) Upon certification by SORM of amounts due, the Comptroller may transfer monies from an agency if the assessment amount due remains unpaid after more than 30 calendar days from receipt of the statement of payments due.

(g) All monies recovered by SORM from third parties by way of subrogation are appropriated to SORM to be used for the payment of workers' compensation benefits to state employees and shall be retained in SORM's Strategy B.1.1, Workers' Compensation Payments, in whole for that purpose.

(h) Amounts not to exceed 2 percent in total of workers' compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that collections in SORM's Strategy B.1.1, Workers' Compensation Payments, funded by the annual assessments to agencies, exceed 110 percent of the expected annual payments, the portion of the excess over 110 percent funded from all funding sources shall be returned to agencies. The excess returned to the agencies by SORM is appropriated to the agencies for expenditures consistent with the original funding source. Any funding less than 110 percent of collections in SORM's Strategy B.1.1, Workers' Compensation Payments, not used for workers' compensation payments shall be used by SORM to lower the cumulative assessments to agencies the following fiscal year.

(i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, after providing written notice to the Legislative Budget Board, temporarily utilize additional General Revenue Funds in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional General Revenue Funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller.

(j) The reimbursement requirements established by this section may be waived or delayed, either in whole or in part, by the Legislative Budget Board.

(k) SORM shall require agencies to provide to SORM and agencies shall submit to SORM information regarding the specific funding sources from which agencies pay their assessed allocation amounts for workers' compensation coverage for their employees.

Sec. 15.03. Contingency Appropriation Reduction.

(a) After considering all other contingency riders in this Act and all legislation passed by the Eighty-eighth Legislature that affects revenue, if the appropriations made by Articles I through X of this Act exceed the limitation specified in Texas Constitution, Article III, Section 49a or the limitation on consolidated general revenue appropriations established by the Legislative Budget Board pursuant to Government Code, Section 316.002, all appropriations made under this Act out of the General Revenue Fund and General Revenue-Dedicated accounts are automatically reduced on a pro-rata basis by the amount necessary, if any, to ensure that the total amount appropriated does not exceed either of these limitations; provided, however, that appropriations described under Subsection (c) shall not be reduced.

(b) The Comptroller shall report the amount of the automatic reductions, if any, to the Governor and Legislative Budget Board.

(c) Appropriations described under this subsection that may not be reduced by an action taken pursuant to this section are as follows:

(1) Appropriations identified in Section 6.07 of this article (Employee Benefit and Debt Service Items);

(2) Appropriations made to the Texas Education Agency for the Foundation School Program in Strategies A.1.1, FSP-Equalized Operations, and A.1.2, FSP-Equalized Facilities;

Sec. 15.04. Appropriation Transfers: Billings for Statewide Allocated Costs. As provided by Government Code, Chapter 2106, relating to billings to state agencies for the costs of support services allocated to agencies under the statewide cost allocation plan, the Comptroller shall transfer appropriations made to state agencies and institutions of higher education by this Act to the General Revenue Fund, under Articles I-VIII of this Act, in amounts which total an estimated $30 million for the biennium.

At least 30 calendar days prior to making transfers of agency appropriations to the General Revenue Fund pursuant to this provision, the Comptroller shall develop and prepare a plan of reductions and notify the Legislative Budget Board and Governor of the amounts proposed for reduction by each agency.

Part 16. LEGAL REPRESENTATION AND JUDGMENTS PROVISIONS

Sec. 16.01. Court Representation and Outside Legal Counsel.

(a) (1) Except as otherwise provided by the Texas Constitution or general or special statutes, and only as consistent with Government Code, Section 402.0212 and Government Code, Chapter 2254, the Attorney General shall have the primary duty of representing the State in the trial of civil cases. The provisions of this section apply to the representation of a state governmental entity by outside legal counsel in all legal matters.

(2) Monies appropriated by this Act may not be used by a state governmental entity for retaining outside legal counsel before the state governmental entity requests the Attorney General to perform those legal services.

(3) If the Attorney General determines that outside legal counsel is in the best interest of the State, the Attorney General shall so certify to the Comptroller and to the requesting state governmental entity which may then utilize appropriated monies to retain outside legal counsel.

(4) Monies appropriated by this Act may not be used by a state governmental entity to contract with an outside legal counsel who represents clients before the state governmental entity or who has, during a six-month period preceding the initiative of the contract and a six-month period following the termination of the contract, represented clients before the state governmental entity.

(b) Monies appropriated by this Act may not be expended by a state governmental entity to initiate a civil suit or defend itself against a legal action without the consent of the Attorney General. Absent this consent, the state governmental entity shall be represented in that particular action by the Attorney General.

(c) On receipt of a request by a state governmental entity to retain outside legal counsel, the Attorney General shall decide on the request as expeditiously as possible, but in no event later than 10 business days after receiving the request.

(d) Monies appropriated by this Act may not be used to pay compensation to outside legal counsel for representing a state governmental entity in the trial of a civil suit if the Attorney General, district attorney, criminal district attorney, county attorney, or other lawyer is required by constitutional or statutory provision to represent a state governmental entity except in those cases where the Attorney General consents to the representation or the district attorney, criminal district attorney, county attorney, or other lawyer has requested that the attorneys employed by the particular state governmental entity assist with the trial of the particular civil suit.

(e) (1) This section does not restrict a state governmental entity in the investigation and assembling of evidence in connection with a pending or prospective civil suit.

(2) This section does not prohibit a state governmental entity or its employees from investigating, filing, or presenting to any person a claim, owing to the State.

(f) This section does not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations made to the Attorney General.

(g) If a state governmental entity requests the Attorney General to take legal action in court against another state governmental entity, the Attorney General shall give special consideration to permitting one of the state governmental entities to employ, from the permitted state governmental entity's monies, outside legal counsel to represent that state governmental entity in that action in order to avoid a conflict of interest by the Attorney General in the representation of both state governmental entities.

(h) If the Attorney General initiates legal action against another state governmental entity on behalf of the Attorney General rather than another state governmental entity, the Legislature hereby determines that a conflict of interest exists and the state governmental entity against which the Attorney General takes action may expend appropriated monies for outside legal counsel to represent that state governmental entity without the prior approval or consent of the Attorney General.

(i) Subsections (a) - (h) do not apply to monies appropriated to:

(1) Office of the Governor;

(2) Comptroller;

(3) Department of Agriculture;

(4) General Land Office and Veterans' Land Board; or

(5) Railroad Commission of Texas.

(j) Monies appropriated by this Act may not be expended to pay the legal fees or expenses of outside legal counsel that represents the State or any of its state governmental entities in a contested matter if the outside legal counsel is representing a plaintiff in a proceeding seeking monetary damages from the State or any of its state governmental entities.

(k) For purposes of this section, "state governmental entity" means a board, commission, department, office, or other agency in the executive branch of state government created under the constitution or a statute, including an institution of higher education.

Sec. 16.02. Contingent Fee Contract for Legal Services.

(a) Except to carry out the purposes of Education Code, Chapter 153, monies appropriated by this Act may not be expended by a state governmental entity for payment of legal fees or expenses under a contingent fee contract for legal services without the prior approval of the Legislative Budget Board, as provided by Government Code, Chapter 2254.

(1) for legal services performed for a state governmental entity in relation to the entity's actions as a receiver, special deputy receiver, liquidator, or liquidating agent in connection with the administration of the assets of an insolvent entity, including actions under Insurance Code, Chapter 443, or Finance Code, Chapters 36, 66, 96, or 126; or

(2) under which recoveries from more than one entity are contemplated and the expected amount of each recovery and the actual amount of each recovery does not exceed $100,000.

Sec. 16.03. Proceeds of Litigation.

(a) Any litigation that results in settlement, court order, or other arrangement providing revenues or financial benefits to a state governmental entity or the State of Texas shall be structured to require the entire amount due to be paid to the state Treasury.

(b) None of the money paid to a state governmental entity because of a settlement of litigation or other arrangement providing revenues or financial benefits because of an incident that could reasonably result in a claim or litigation may be expended by any state government entity unless the Legislative Budget Board is notified in writing by the Attorney General regarding the terms of the settlement or other arrangement and the Legislative Budget Board is notified in writing by the state governmental entity receiving the money regarding the plans for the use of the money. The written notice must be delivered to the Legislative Budget Board as soon as practicable, but no later than the 20th calendar day of the month following the first to occur of:

(1) receipt of the money or other benefit; or

(2) approval of the settlement or arrangement by a court.

(c) This section does not apply to a settlement of litigation, court order resulting from litigation, or other arrangement providing revenues or financial benefits because of litigation:

(2) under which recovery to the state governmental entity does not exceed $500,000.

(d) For purposes of this section, "state governmental entity" means a board, commission, department, office, or other agency in the executive branch of state government created under the constitution or a statute, including an institution of higher education.

Sec. 16.04. Judgments and Settlements.

(a) The monies appropriated by this Act, including appropriations made in Article X of the Act, may not be expended for payment of a judgment or settlement prosecuted by or defended by the Attorney General and obtained against the State or a state agency, except:

(1) pursuant to this section; or

(2) where it is specifically provided in an item of appropriation that the monies appropriated or expenditures authorized may be used for the payment of judgments or settlements.

(b) State agencies appropriated monies by this Act may expend monies appropriated elsewhere in this Act for the purposes of paying settlements and judgments against the state for causes brought in a federal court or a court in this state under specific statutory authority. Payments made pursuant to this subsection are subject to the following processes and limitations:

(1) monies are to be paid out by the Comptroller on vouchers drawn by the agency settling the lawsuit or paying the judgment, subject to the approval of the Governor and of the Attorney General according to Subsection (d);

(2) for purposes of this subsection, "judgment" means a judgment order rendered in a federal court or a court in this state for which an appeal or rehearing, or application therefore, is not pending and for which the time limitations for appeal or rehearing have expired;

(3) the payment of a settlement or judgment may not exceed $250,000;

(4) the payment of a settlement or judgment may not exceed one percent of the total amount of monies (not including federal funds) appropriated by this Act for expenditure by that agency for that fiscal year;

(5) the payment of the settlement or judgment would not cause the total amount of settlement and judgment payments made by the payer agency for that fiscal year to exceed 10 percent of the total amount of monies available for expenditure by that agency for that fiscal year; and

(6) the payment of a settlement or judgment may be made only with a complete release from any and all related claims and causes against the State, and in the case of a judgment, the payment may be made only in full satisfaction of that judgment.

(c) (1) A state agency shall report a claim for property damage to the Attorney General not later than the second business day after the date the agency receives the claim.

(2) A state agency shall prepare a voucher for payment of a claim not later than the 10th business day after the date an agreement to settle the claim has been reached.

(d) Payment of all judgments and settlements prosecuted by or defended by the Attorney General is subject to approval of the Attorney General as to form, content, and amount, and certification by the Attorney General that payment of the judgment or settlement is a legally enforceable obligation of the State. This subsection applies equally to monies appropriated for expenditure through the state Treasury, as well as monies appropriated for expenditure from monies held in local banks.

(e) The Attorney General shall report to the Legislative Budget Board and the Governor not less than monthly, a listing of all settlements and judgments of more than $5,000 submitted to the Comptroller for payment. The document delivered to the Legislative Budget Board and Governor by the Attorney General must contain only information that may be published on the internet, by a newspaper, or published by other means and shall contain at least the following information unless all or part of the information may not be disclosed to the public under state or federal law or by court order:

(1) a summary of the cause of action;

(2) a summary of the terms of the settlement;

(3) the style of the case;

(4) the name and business address of each attorney representing the opposing litigants at the time of the settlement;

(5) the amount of the judgment or settlement;

(9) the date of judgment or settlement; and

(10) other information as the Legislative Budget Board may request and in the form requested by the Legislative Budget Board.

(f) The State Auditor may verify compliance with this section for all monies appropriated in this Act, including monies that are retained and expended from accounts held outside the state Treasury and that are not subject to reimbursement through funds held in the state Treasury. On verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor may certify that fact to the Comptroller. The Comptroller may withhold all appropriations for administrative expenses for the involved agency until the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes have been made.

Sec. 16.05. Professional Legal Services.

(a) It is the intent of the Legislature that in providing professional legal services to officials and entities of the legislative branch of state government using money appropriated by this Act, the Attorney General shall abide by the official's or entity's decisions concerning the objectives and general methods of representation and whether to accept or reject an offer of settlement of a matter. If circumstances prevent the Attorney General from abiding by the official's or entity's decisions, the official or entity may expend from General Revenue Funds appropriated to the Legislature in Article X of this Act amounts necessary to pay for professional legal services, including legal advice, assistance, and representation.

(b) To the extent this section conflicts with another provision of this Act, this section prevails.

Part 17. MISCELLANEOUS PROVISIONS

Sec. 17.01. Contingency Rider. It is the intent of the Legislature that appropriations made in this Act be expended only for purposes and programs specifically funded in the Act, and contingency appropriations made for legislation adopted by the Eighty-eighth Legislature be the primary source of funding for implementation of that legislation. No state agency or institution is required to significantly reallocate or redistribute monies appropriated in this Act to provide funding for programs or legislation adopted by the Eighty-eighth Legislature for which there is not specific appropriation or contingency provision identified in this Act.

Sec. 17.02. Limitation on Substitution of General Obligation Bond Funded Projects. Following initial Legislative Budget Board approval of projects for which monies are appropriated to an agency elsewhere in this Act or monies are appropriated to Texas Public Finance Authority (TPFA) for payment of debt service on outstanding Proposition 4 and Proposition 8 bonds, an agency may substitute projects for those approved by submitting a written request for project substitution to the Legislative Budget Board, with a copy to TPFA. The request shall be considered to be approved unless the Legislative Budget Board issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the monies and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

Sec. 17.03. Payroll Contribution for Group Health Insurance.

(a) Notwithstanding any other provision of this Act, out of appropriations made elsewhere in this Act to state agencies and institutions of higher education for the state fiscal biennium beginning September 1, 2023, each agency and institution of higher education shall contribute to the Employees Retirement System's Group Benefits Program in an amount equal to 1.0 percent of the total base wages and salaries for each benefits eligible employee of a state agency or institution of higher education during the state fiscal biennium beginning September 1, 2023.

(b) For purposes of this section "state agencies and institutions of higher education" does not include components within the University of Texas and Texas A&M Systems.

(d) The calculation of base salary for purposes of the reductions made under this section excludes longevity pay, hazardous duty pay, benefit replacement pay, overtime pay, and other payments that are not part of the base salary of the employee.

(e) Transfers made under this section shall be consistent with provisions requiring salaries and benefits to be proportional to the source of monies.

(f) The Texas Higher Education Coordinating Board shall administer the requirements of this section for public community/junior colleges.

(g) The Comptroller of Public Accounts shall promulgate rules and regulations as necessary to administer this section.

Sec. 17.04. Veterans Services at Other State Agencies. Out of monies appropriated elsewhere in this Act, any state agency or institution of higher education, including the Veterans Commission, Department of State Health Service, Texas Military Department, Texas Workforce Commission, General Land Office, or any other state agency or institution that receives funding in this Act and provides specific services to veterans, shall provide information to veterans seeking assistance from that state agency or institution of other state agencies or institutions that provide additional veterans specific services, as identified by the Texas Coordinating Council for Veterans Services. In addition to all modes of communication, that information shall be made available on each of the agencies' websites.

Sec. 17.05. Agency Coordination for Youth Prevention and Intervention Services. From monies appropriated above for the purpose of juvenile delinquency prevention and dropout prevention and intervention services, the Department of Family and Protective Services, the Juvenile Justice Department, the Texas Education Agency, and the Texas Military Department shall coordinate the delivery of juvenile delinquency prevention and dropout prevention and intervention services. Juvenile delinquency prevention and dropout prevention and intervention services are programs or services that

are aimed at preventing academic failure, failure on state assessments, dropout, juvenile delinquency, truancy, runaways, and children living in family conflict. Each of the agencies listed above shall coordinate services with the others to prevent redundancy and to ensure optimal service delivery to youth at risk of engaging in delinquency and/or dropping out of school. Programs shall demonstrate effectiveness through established outcomes.

Not later than October 1 of each year, the agencies shall provide to the Legislative Budget Board detailed monitoring, tracking, utilization, outcome, and effectiveness information on all juvenile delinquency prevention and dropout prevention and intervention services for the preceding five fiscal year period. The reports shall include information on the impact of all juvenile delinquency and dropout prevention and intervention services and programs delivered or monitored by the agencies.

Sec. 17.06. Additional Payroll Contribution for Retirement Contribution.

(a) Notwithstanding any other provision of this Act, out of appropriations made elsewhere in this Act to state agencies for the state fiscal biennium beginning September 1, 2023, each agency shall contribute to the Employees Retirement System's Retirement Program in an amount equal to 0.5 percent of the total base wages and salaries for each eligible employee of a state agency during the state fiscal biennium beginning September 1, 2023.

(b) State agencies shall contribute pursuant to this section to the Employees Retirement System to increase the state contribution for retirement by the value of the 0.5 percent contribution, estimated to be $87,938,613 for state agencies for the 2024-25 biennium.

(c) The calculation of base salary for purposes of the reductions made under this section excludes longevity pay, hazardous duty pay, benefit replacement pay, overtime pay, and other payments that are not part of the base salary of the employee.

(d) Transfers made under this section shall be consistent with provisions requiring salaries and benefits to be proportional to the source of monies.

(e) The Comptroller of Public Accounts shall promulgate rules and regulations as necessary to administer this section.

Sec. 17.07. Use of the Sporting Goods Sales Tax Transfer to the General Revenue-Dedicated State Parks Account No. 64.

(a) Appropriations made elsewhere in this Act to the Texas Public Finance Authority (TPFA) for General Obligation (GO) Bond Debt Service include $6,903,551 in fiscal year 2024 and $6,031,076 in fiscal year 2025 from the General Revenue Fund for debt service payments on GO bonds issued and authorized but unissued for statewide park repairs. Contingent upon review described below, the General Revenue Fund shall be reduced and an equal amount of the Sporting Goods Sales Tax (SGST) transfer to General Revenue-Dedicated State Parks Account No. 64 is appropriated to TPFA for debt service expenditures on GO bonds issued and authorized for statewide park repairs.

(1) Before October 1 of each year, Texas Parks and Wildlife Department (TPWD) in cooperation with TPFA shall use expenditure schedules and any other necessary documentation to determine the actual amount of debt service expended from both sources on statewide park repairs and submit the findings of this review to the Comptroller of Public Accounts and the Legislative Budget Board.

(2) Before October 31 of each year, TPWD shall transfer an amount equal to the actual costs of debt service to TPFA from the SGST allocation in General Revenue-Dedicated State Parks Account No. 64. In the event that the sum of the actual costs for debt service exceeds SGST cash available for these purposes, the additional amounts shall be funded from the available remaining balance of General Revenue-Dedicated State Parks Account No. 64. The Comptroller shall authorize the necessary expenditure transfers at TPFA needed to credit the General Revenue Fund from General Revenue-Dedicated State Parks Account No. 64 for the actual costs of debt service.

(b) In the event that actual costs of debt service for statewide park repairs exceed the available remaining balance of General Revenue-Dedicated State Parks Account No. 64, the Comptroller shall adjust debt service payments to be made from other revenues deposited to the credit of the General Revenue Fund accordingly.

Sec. 17.08. Reporting Requirement for Funds Held Outside the Treasury.

(a) The Comptroller of Public Accounts and the Legislative Budget Board shall jointly prepare a report on funds held outside the Treasury on a biennial basis. The report should contain the following information for operating funds and any other funds held outside the Treasury selected by the Comptroller of Public Accounts and the Legislative Budget Board:

(1) the legal/statutory basis for the fund or revenue held outside the Treasury;

(2) the allowable uses of the fund or revenue held outside the Treasury;

(3) a listing of programs for which the fund or revenue held outside the Treasury is currently expended or could be expended;

(4) the estimated or actual revenues and expended or budgeted amounts by fiscal year for the most recently completed and current fiscal biennia; and

(5) the estimated or actual balance as of August 31 of each year in the most recently completed and current fiscal biennia.

(b) Any state agency that receives, expends, or administers funds or revenues held outside the Treasury, either by the Comptroller of Public Accounts, the Texas Treasury Safekeeping Trust Company, or a private financial institution shall assist the Comptroller of Public Accounts and the Legislative Budget Board in preparing this report and shall submit all data and information as prescribed by the Comptroller of Public Accounts or the Legislative Budget Board.

(c) In prescribing data to be reported and reporting deadlines, the Comptroller of Public Accounts and the Legislative Budget Board shall collaborate with state agencies to maximize the use of existing data sources and minimize work required to compile and submit information.

(d) The report shall be available to the Governor, members of the Legislative Budget Board, the Senate Finance Committee and the House Appropriations Committee no later than the last day in February of each year in which a regular session of the Texas Legislature convenes.

Sec. 17.09. Contract Management and Oversight.

(a) It is the intent of the Legislature that all agencies and institutions of higher education establish effective processes and controls to manage contracts and ensure the cost-effective use of state appropriations for contracted goods and services.

(b) Agencies and institutions should manage contracts consistent with state statute, the General Appropriations Act, and the State of Texas Procurement and Contract Management Guide and ensure proper oversight of contract processes including:

(1) provide adequate time for applicable external reviews by the Quality Assurance Team (QAT) and Contract Advisory Team when establishing procurement timelines;

(2) follow recommendations made by the Contract Advisory Team or adequately explain any deviations from the recommendations and why the deviation is necessary;

(3) ensure proper justification for proprietary purchases and that contracts are established and approved by the Statewide Procurement Division of the Office of the Comptroller;

(4) ensure that contract award decisions are determined based on best value criteria established in solicitation documents to ensure fair and open competition;

(5) ensure that staff involved in contract management or administration duties are adequately trained to perform those duties;

(6) periodically review internal contracting practices and manuals to ensure that they are current and updated with current regulations and best practices;

(7) ensure that provisions related to service level and pricing mechanisms in existing contracts are correctly enforced;

(8) enforce damage provisions for vendor non-performance and collect monetary refunds for improper payments to vendors;

(9) ensure dollar values of performance bonds and insurance are consistent with risk of non-performance; and

(10) ensure that vendor performance is reported to the Vendor Performance Tracking System (VPTS) and that VPTS data is used in selecting vendors for contract awards.

(c) Agencies shall make a good faith effort to identify and execute savings and efficiencies in their use of contracted goods and services. An agency or institution of higher education may not use monies appropriated elsewhere in this Act to pay for a contract for goods or services unless it:

(1) Seeks competitive bids or proposals before renewing or extending a contract that has been in effect more than five years and is valued at the lesser of $10 million or 10 percent of the agency's All Funds budget for the 2024-25 biennium. The following contracts are exempt from the requirements of this Subsection (c)(1):

(A) TxSmartBuy, term, and cooperative contracts administered by the Comptroller or Department of Information Resources;
(B) grants;
(C) interagency contracts;
(D) contracts that relate to a construction project as defined by Government Code, Section 2166.001;

(H) managed care contracts in the Medicaid and CHIP program.

(2) Conducts a cost-benefit analysis to compare canceling or continuing any major information resource project and related contracts subject to QAT monitoring that is more than 50 percent over budget or over schedule. QAT must approve the cost-benefit analysis for the project to continue. If this requirement is not met, corrective actions in Section 9.02 apply.

(d) An agency or institution may request, with regards to a contract, an additional exemption from the requirements of Subsection (c)(1) by submitting a request to the Legislative Budget Board which outlines the justification for requesting the exemption. The request shall be considered to be approved unless the Legislative Budget Board issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to exempt the contract and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House of Representatives, and Lieutenant Governor.

The request shall state that the agency or institution agrees to enhanced oversight of the contract upon Legislative Budget Board approval of the exemption. The Legislative Budget Board shall determine the level of enhanced oversight that is necessary or may choose to waive oversight. Enhanced oversight may include, but is not limited to, the following elements: additional reporting requirements, increased monitoring of the contract, and the formation of an executive steering committee for the project to which the contract relates. For information technology related contracts, an executive steering committee may include members of QAT and/or its designee(s). Responsibilities of an executive steering committee may include, but are not limited to, review of procurement and contract terms prior to solicitation/execution and ongoing oversight of the management of the contract. The Legislative Budget Board shall determine whether an agency or institution has met the requirements of enhanced oversight. If the Legislative Budget Board determines that the requirements have not been met, additional corrective actions, including but not limited to those specified in Section 9.02, may be applied.

(e) It is the intent of the Legislature that agencies and institutions minimize the use of extensions that extend a contract beyond the base term and any optional extensions provided in a contract. An agency or institution may not use monies appropriated elsewhere in this Act to pay for an extension to an existing agency contract beyond the base term and optional extensions provided for in that contract unless all the following conditions are met:

(1) The extension is limited in duration and cost to not more than one additional option period, as defined in the contract, to address the immediate operational or service delivery needs. If a contract does not contain a defined option period, the extension is limited to one year.

(2) The agency or institution provides notice of the extension at least 30 calendar days prior to execution of the extension by uploading required information to the Legislative Budget Board contracts database on a form prescribed by the Legislative Budget Board. Required information includes but is not limited to: the cost of the contract; the duration of the contract; the reason for the extension of the contract; and a plan to ensure that the contract can be completed within the extension period, signed by the executive director or other similar agency or institution administrator, or designee of the agency or institution.

(3) The agency or institution ensures, prior to providing notice pursuant to Subsection (e)(2), that all information and documents specified in Section 7.11(d) have been uploaded to the Legislative Budget Board contracts database regardless of whether the information and documents are otherwise required to be uploaded under Section 7.11.

(f) Each agency and institution of higher education that receives appropriations in this Act, shall provide a report to the Legislative Budget Board and the Governor that details the steps taken to ensure compliance with state procurement requirements and any other information required by the Legislative Budget Board. The report for activities undertaken in fiscal year 2024 is due not later than September 30, 2024, and a summary report for the 2024-25 biennium is due August 31, 2025.

(b) It is the intent of the Legislature that a state agency that is appropriated money by this Act with charge and control over a facility shall have a remote or on-site assessment of the facility performed by the Energy Systems Laboratory at Texas A&M Engineering Experiment Station or another qualified provider to determine whether implementation of continuous commissioning or existing building commissioning practices would result in estimated savings of at least 10 percent in utility costs for the facility. A state agency shall supply any documents necessary to perform the assessment. The state agency shall report to the Legislative Budget Board on the results of the assessment.

(c) If the results of an assessment performed under Subsection (b) show estimated utility cost savings of at least 10 percent, the state agency shall have the Energy Systems Laboratory at Texas A&M Engineering Experiment Station or another qualified provider prepare a plan for implementation of continuous commissioning or existing building commissioning practices and monitoring of the implementation for the state agency.

Sec. 17.18. Appropriation for a Salary Increase for General State Employees.

(a) As used in this section, "salary increase" shall mean:

(1) a 5.0 percent increase in annual salary with a minimum of $3,000 per annum increase in salary, to begin on September 1, 2023, and another increase in annual salary to occur on September 1, 2024, consisting of an additional 5.0 percent increase with a minimum of $3,000 per annum increase in salary;

(b) In addition to other amounts appropriated elsewhere in this Act which can be found in an individual strategy item contained in the bill pattern for each agency, for the biennium the Comptroller of Public Accounts is appropriated an amount estimated to be $0 out of the General Revenue Fund, an amount estimated to be $0 out of the General Revenue-Dedicated, an amount estimated to be $0 out of State Highway Fund No. 006, an amount estimated to be $0 out of Other Funds and accounts, and an amount estimated to be $0 out of federal funds to fund a salary increase as described in Subsection (a) for all employee positions of state agencies paid according to the Schedules A, B, and C Classification Salary Schedules, including employees of the Higher Education Coordinating Board and the employees of a Texas A&M University System service agency, as such a salary increase is reflected in the salary rates authorized elsewhere in this Act. Included in the amounts above and in the other amounts appropriated elsewhere in this Act which can be found in an individual strategy item contained in the bill pattern for each agency are General Revenue Funds, General Revenue-Dedicated Funds, State Highway Fund No. 006, and Other Funds that are intended to provide the salary increase for certain FTE positions currently paid from federal fund sources that would not be available for this purpose.

(c) The amounts appropriated by this section and elsewhere in this Act that are intended to be used for the salary increase described by Subsection (a) and which can be found in an individual strategy item contained in the bill pattern for each agency may not be used to provide a salary increase for statewide elected officials, justices and judges of the appellate and district courts, district attorneys, criminal district attorneys, county attorneys performing the duties of a district attorney, line item exempt (non-classified) employees, employees of institutions of higher education (except the employee positions of the Higher Education Coordinating Board and of a Texas A&M University System service agency), or the compensatory per diem of board or commission members.

Each agency shall pay the increase in compensation from funds held in the state Treasury and from local funds in the same proportion as the employee's regular compensation unless their salary is paid from those federal funds deemed unavailable in Subsection (b).

(e) The Comptroller of Public Accounts shall promulgate rules and regulations as necessary to administer this section and the appropriations made elsewhere in this Act that are intended to be used for the salary increase described by Subsection (a) and which can be found in an individual strategy item contained in the bill pattern for each agency. Funds appropriated in this section and the appropriations made elsewhere in this Act that are intended to be used for the salary increase described by Subsection (a) and which can be found in an individual strategy item contained in the bill pattern for each agency shall be allocated to each agency, and to the appropriate employee benefit appropriation items, in accordance with these rules and regulations and may be used for the purpose of providing a salary increase and paying associated benefit costs.

(f) Notwithstanding other restrictions on transfers of appropriations from one strategy to another, the funds appropriated for the salary increase may be transferred to other strategies without limitation only for the purpose of implementing the salary increase.

(g) This section and the appropriations made elsewhere in this Act that are intended to be used for the salary increase described by Subsection (a) and which can be found in an individual strategy item contained in the bill pattern for each agency do not authorize an increase of classified salary rates or exempt salary rates above the rates listed in the applicable schedule in this Act.

(h) State agencies appropriated monies under this Act may not increase fees or taxes during fiscal years 2024 or 2025 to offset the appropriations made by this section or elsewhere in this Act that are intended to be used for the salary increase described by Subsection (a). The monies necessary for the salary increase described by Subsection (a) for employees of agencies subject to appropriations limited to revenues collected provisions are included in the totals appropriated by this section and elsewhere in this Act that are intended to be used for the salary increases described by Subsection (a) and which can be found in an individual strategy item contained in the bill pattern for each agency. If any section, sentence, clause or part of this Act shall for any reason be held to be invalid, such decision shall not affect the remaining portions of this Act; and it is hereby declared to be the intention of the Legislature to have passed each sentence, section, clause, or part thereof irrespective of the fact that any other sentence, section, clause or part thereof may be declared invalid.

ARTICLE XIII. EMERGENCY CLAUSE

The importance of the legislation to the people of the State of Texas and the crowded condition of the calendars in both Houses of the Legislature create an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three separate days in each House be suspended, and said Rule is hereby suspended; and this Act shall take effect and be in force from and after its passage, and it is so enacted.

LEGISLATIVE BUDGET BOARD
Austin, Texas

DYNAMIC ECONOMIC IMPACT STATEMENT

88TH LEGISLATIVE REGULAR SESSION

March 23, 2023

TO: Honorable Greg Bonnen, Chair, House Committee on Appropriations

FROM: Jerry McGinty, Director, Legislative Budget Board

IN RE: HB1 by Bonnen (General Appropriations Bill.), **Committee Report 1st House, Substituted**

House Bill 1, Committee Report 1st House, Substituted (HCSHB 1) would appropriate $202,040.2 million from state funds during the 2024-25 biennium. This represents an increase of $29,587.9 million, or 17.2 percent, from the 2022-23 estimated/budgeted level.

As required under House Rule 4, Section 34 (a-1), the Legislative Budget Board has analyzed the dynamic economic impact of the bill. The effects on employment, personal income, GSP, and other economic variables, assuming appropriation changes under HCSHB 1 were analyzed using the REMI Tax-PI model, a dynamic forecasting and policy analysis tool that applies a combination of econometric, input-output, and computable general equilibrium methodologies.

The analysis estimated the predicted impact on the number of state employees and the impact on employment by the private sector and local governments in Texas as a result of the changes in state expenditures resulting from the 2024-25 appropriation levels in HCSHB 1 relative to a baseline scenario where 2024-25 state expenditures were held constant at 2022-23 estimated/budgeted levels.

It is important to note that the numbers are not all new jobs; rather they are changes in employment levels relative to the baseline scenario where state government expenditures remained constant at previously adopted 2022-23 levels. Further, note that the employment concept used in the analysis is non-farm payroll employment calculated using source data from the U.S. Bureau of Economic Analysis (BEA) and the Bureau of Labor Statistics (BLS), and differs from state FTE levels used in the General Appropriations Bill. For instance, two halftime workers would be counted as 1 FTE in the GAB, but two jobs in the REMI employment data.

The state expenditures in the 2024-25 biennium are expected to increase private sector employment levels by 190,611, or 1.1 percent, during the 2024-25 biennium relative to the baseline scenario, while simultaneously increasing local government employment by 91,908, or 6.6 percent, and state government employment by 26,386, or 6.1 percent, during the 2024-25 biennium relative to the baseline scenario where government spending remained constant at previously adopted 2022-23 levels.

TO: Honorable Greg Bonnen, Chair, House Committee on Appropriations

FROM: Jerry McGinty, Director, Legislative Budget Board

IN RE: HB1 by Bonnen (General Appropriations Bill.), **As Introduced**

House Bill 1, As Introduced, (HB 1) would appropriate $194,989.9 million from state funds during the 2024-25 biennium. This represents an increase of $22,537.6 million, or 13.1 percent, from the 2022-23 estimated/budgeted level.

As required under House Rule 4, Section 34 (a-1), the Legislative Budget Board has analyzed the dynamic economic impact of the bill. The effects on employment, personal income, GSP, and other economic variables, assuming appropriation changes under HB 1 were analyzed using the REMI Tax-PI model, a dynamic forecasting and policy analysis tool that applies a combination of econometric, input-output, and computable general equilibrium methodologies.

The analysis estimated the predicted impact on the number of state employees and the impact on employment by the private sector and local governments in Texas as a result of the changes in state expenditures resulting from the 2024-25 appropriation levels in HB 1 relative to a baseline scenario where 2024-25 state expenditures were held constant at 2022-23 estimated/budgeted levels.

The state expenditures in the 2024-25 biennium are expected to increase private sector employment levels by 148,179, or 0.9 percent, during the 2024-25 biennium relative to the baseline scenario, while simultaneously increasing local government employment by 69,483, or 5.0 percent, and state government employment by 19,948, or 4.6 percent, during the 2024-25 biennium relative to the baseline scenario where government spending remained constant at previously adopted 2022-23 levels.
