- “3. Foundation School Program Funding.** In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.

Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2026-27 biennium, a total of \$38,048,682,535 in fiscal year 2026 and \$37,590,669,007 in fiscal year 2027 shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Texas Education Code, Chapters 46, 48 and 49. Any unexpended balances remaining as of August 31, 2026, are appropriated to the Property Tax Relief Fund and may be used only to reduce the State Compression Percentage pursuant to Section 48.255 of the Education Code.

Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 46, 48 and 49 based on:

Actual property value changes are determined by local appraisal districts.

Not later than October 1, 2026, and pursuant to Texas Education Code, Section 48.269, the TEA shall submit to the LBB estimates of student attendance and projections for allotments under Texas Education Code Sections 48.107, 48.110, 48.112, 48.114, 48.151, 48.153, 48.155, 48.156, 48.307, and 48.308.

To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Texas Education Code, Chapters 46, 48, and 49.

For purposes of distributing the Foundation School Program basic tier state aid appropriated above and in accordance with Texas Education Code, Section 48.051, the Basic Allotment is established at \$6,160 in fiscal year 2026 and \$6,160 fiscal year 2027.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, \$100,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the New Instructional Facilities Allotment under Texas Education Code, Section 48.152.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Texas Education Code, Section 48.115, the School Safety Allotment is set at \$10 per student in average daily attendance, plus \$1 per student in average daily attendance for every \$50 by which the district's maximum basic allotment under Section 48.051 exceeds \$6,160, and \$15,000 per campus, estimated to be \$185,000,000 in each fiscal year.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Texas Education Code, Section 48.307, Additional State Aid for State-Approved Instructional Materials is set at \$40 per enrolled student in each fiscal year for procuring instructional materials that have been approved by the SBOE. Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Section 48.308, Additional State Aid For Open Education Resource Instructional Material, is an amount not to exceed \$20 for each student for printing and shipping of open education resource instructional materials. Notwithstanding Rider 19, Limitation on the Transfer and Use of Funds, TEA may transfer amounts from the Foundation School Program under Sections 48.307 and 48.308, estimated to be \$254,899,920 in fiscal year 2026 and \$266,969,717 in fiscal year

2027, to Strategy B.2.1, Technology/Instructional Materials, to implement the provisions of HB1605, Eighty-eighth Legislature, Regular Session.

From the amount appropriated above to the Texas Education Agency for Strategy A.1.1, FSP - Equalized Operations, in each year of the 2026-27 biennium, the Commissioner may not spend more than the amount that, together with all other amounts appropriated from the Foundation School Fund or another source of the Foundation School Program or for paying the costs of school property tax relief, is necessary to achieve a tax rate compression percentage, as defined by Texas Education Code, Sections 48.255, 48.2551, and 48.2552, and fully fund the school funding formulas under Texas Education Code, Chapters 48 and 49, without the prior approval of the Legislative Budget Board.

Pursuant to Texas Education Code, Section 48.2552(c), in fiscal year 2026, the state compression percentage as calculated in Texas Education Code, Section 48.255, shall be reduced by 3.37 percentage points.

Notwithstanding any other provision of this Act, the Texas Education Agency may:

- (a) make transfers as appropriate between Strategy A.1.1, FSP - Equalized Operations, and Strategy A.1.2, FSP - Equalized Facilities; and
- (b) transfer Foundation School Program funds from fiscal year 2027 to 2026 to the extent necessary to avoid reductions in state aid as authorized by Texas Education Code, Section 48.266(f).

The Texas Education Agency shall notify the Legislative Budget Board and the Governor of any such transfers at least 15 business days prior to the transfer.

The Texas Education Agency shall submit reports on the prior month's expenditures on programs described by this rider no later than the 20th day of each month to the Legislative Budget Board and the Governor's Office in a format determined by the Legislative Budget Board in cooperation with the agency.

Contingent on the Commissioner of Education identifying a budget surplus of Foundation School Program funds appropriated above in either fiscal year of the 2026-27 biennium, the Commissioner shall notify the Legislative Budget Board and the Office of the Governor in writing no later than 30 calendar days before taking any action pursuant to the Texas Education Code, Sections 7.062, 48.258, 48.259, 48.260, 48.261, or 48.265.

Amend C.S.S.B. 1 on Page III-8, in the bill pattern of the Texas Education Agency, strike Rider 8, Instructional Materials and Technology, and substitute the following new rider: "8. Instructional Materials and Technology. Except as explicitly allowed elsewhere in this Act, any amount expended pursuant to Texas Education Code, Section 31.021, including expenditures for instructional materials administration, shall be paid out of the State Instructional Materials and Technology Fund (IMTF) appropriated for that purpose. A transfer of funds from the Available School Fund (ASF) to the IMTF is authorized in an amount which, together with other revenues of the IMTF, is sufficient to finance the sum-certain appropriation from the IMTF for each fiscal year. Penalties assessed by the State Board of Education (SBOE) shall be deposited to the credit of the IMTF.

In accordance with Texas Education Code, Sections 31.0211 and 31.0214, the Commissioner shall allocate the funds available in the IMTF to school districts and charter schools for each student enrolled in the district or charter school on a date during the preceding year specified by the Commissioner and shall adjust the State Instructional Materials and Technology Allotment (IMTA) of school districts and charter schools experiencing high enrollment growth (HEG) according to rules adopted by the Commissioner.

Before July 1 of each year, the Commissioner shall notify the Legislative Budget Board and the Office of the Governor, produce and post to the agency's website a report regarding any funding adjustments made under rules adopted by the Commissioner for schools experiencing HEG. The report shall detail the following:

- (1) the HEG methodology and calculations used to determine the distribution of funds and any changes to the methodology and calculations since the last determination of adjustments,
- (2) the number of school districts and open-enrollment charter schools eligible for adjustments, and
- (3) the total amount of adjustments.

It is the intent of the Legislature that for any state fiscal biennium, districts and open-enrollment charter schools do not exceed spending 75 percent of the total IMTA for instructional materials under Texas Education Code, Section 31.0211, for the most recent biennium for which the allotment has been determined.

It is the intent of the Legislature that the SBOE ensure that any instructional materials and technology purchased using funds disbursed from the IMTF meet the requirements for certification under 47 U.S.C. Sections 254(h)(5)(B) and (C) to the extent the certification is applicable to those materials.

It is the intent of the Legislature that the SBOE consider the cost of all instructional materials and technology requirements when determining the disbursement of money to the ASF and the amount of that disbursement that will

be used, in accordance with Texas Education Code, Section 43.001(d), to fund the IMTA under Texas Education Code, Section 31.0211.

From funds appropriated from the IMTF, the Commissioner may set aside an amount not to exceed \$2,500,000 for the 2026-27 biennium for the continued support and delivery of online college readiness materials in English language arts and reading, mathematics, science, and social studies.

From funds appropriated above in Strategy B.2.1, Technology and Instructional Materials, \$1,042,679,721 from the IMTF is allocated in the 2026-27 biennium for instructional materials and technology. In addition to these funds, \$4,541,909 is appropriated in the 2026-27 biennium in the agency's administrative strategies from the IMTF. Total appropriations from the IMTF in the 2026-27 biennium equal \$1,047,221,630.

From funds appropriated above in Strategy B.3.2, Agency Operations, \$22,539,992 from the General Revenue Fund are allocated each fiscal year of the biennium for the annual review of instructional materials as outlined in Texas Education Code, Sections 31.022 and 31.023.

The Commissioner shall provide juvenile justice alternative education programs with instructional materials necessary to support classroom instruction in those programs. The cost of the instructional materials shall be funded with amounts from the IMTF appropriated to the agency for the 2026-27 biennium.

Pursuant to Government Code, Section 322.0082, the amount set aside under Texas Education Code, Section 43.001(d), is estimated to be \$2,407,000,000 for the biennium.

Pursuant to Government Code, Section 322.0082(2), the amount that is remaining in the IMTF from the previous biennium that is available for use is estimated to be \$233,067,672 for the 2026-27 biennium. The amount less than the amount set aside by SBOE under Texas Education Code, Section 46.001(d), is estimated to be \$1,359,360,042. This amount will remain in the ASF for distribution to school districts pursuant to the Texas Constitution, Article VII, Section 5(c) and Texas Education Code, Section 43.001(b).

Any unexpended balances as of August 31, 2025, are appropriated to the Texas Education Agency, Strategy A.1.1, FSP - Equalized Operations, to reduce the State Compression Percentage pursuant to Section 48.255 of the Education Code for fiscal year 2027. The sum-certain appropriation for the Foundation School Program in Rider 3 of the Texas Education Agency bill pattern shall be adjusted accordingly.

Any unexpended balances remaining as of August 31, 2026, are appropriated to the Property Tax Relief Fund and may be used only to reduce the State Compression Percentage pursuant to Section 48.255 of the Education Code.”
