AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Motocross attracts riders of all ages across Texas, even though it involves high-speed movement, challenging terrain, and complex maneuvers that can lead to accidents despite safety precautions. Under current state law, local rodeo grounds enjoy specific legal protections shielding them from liability when injuries occur during the normal course of livestock activities. These laws recognize the inherent dangers of such sports and aim to protect these facilities from burdensome litigation that could threaten their ability to operate. However, comparable protections do not currently exist for motocross tracks in Texas, making these facilities vulnerable to lawsuits that can stem from the very nature of the sport they host. H.B. 5624 seeks to address this issue by providing legal liability protections for motocross tracks in Texas.

H.B. 5624 amends current law relating to the liability of a motorized off-road vehicle entity for injuries arising from certain activities.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
