### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

This bill will amend Chapter 144 of the Texas Agriculture Code to update the brand registration process to an electronic filing system housed at the Texas Animal Health Commission that can be accessed online.

Every ten years, Texas livestock producers are required to physically visit their local county clerk's office to reregister their brands using a paper-based system. This process, while ensuring compliance with existing regulations, is time-consuming for both producers and clerks. The proposed online platform would house registered brands in a centralized database at the Texas Animal Health Commission, ensuring they remain accessible to law enforcement, producers, and county clerks. Most importantly, this update will not alter the role of county clerks but rather simplify the process of brand registration for all parties involved.

With a digital, centralized brand registry, law enforcement would be able to identify stray or stolen livestock quicker, reducing the need to hold animals for extended periods and expedite the return of livestock to their rightful owner.

S.B. 503 amends current law relating to the establishment of an electronic registry of livestock marks and brands.

### **RULEMAKING AUTHORITY**

Rulemaking authority is expressly granted to the Texas Animal Health Commission in SECTION 5 (Section 144.102, Agriculture Code) of this bill.

(h) Requires, rather than authorizes, a county clerk to accept electronic filing or rerecording of an earmark, brand, tattoo, electronic device, or other type of mark for which a recording is required under Chapter 144 (Marks and Brands) or other law.

(d) Requires TAHC to adopt rules and procedures to implement this section, including a process for:

(1) a person to record a mark or brand with a county clerk through an electronic method, in a form and manner prescribed by TAHC; and

SECTION 8. Effective date: September 1, 2025.
