AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Greater uniformity is advisable when certain initiatives are put before the voters in order to ensure fairness for all involved. Home-rule municipalities in Texas have fairly broad discretion to place initiatives before voters for consideration; however, there is little uniformity in the processes used due to local elections being governed by each municipality's charter. The Supreme Court of Texas was tasked, as the result of citizen-led mandamus and recall petitions, with reviewing the actions of local governments and the ballot language used when initiatives were put forth. The court ultimately found that voters were being misled by the ballot language and required that referendums be resubmitted to voters, resulting in additional costs to taxpayers.

S.B. 506 seeks to address these issues by providing for requirements for certain petitions requesting an election and ballot propositions. In order to guarantee citizens uniform and fair elections, S.B. 506 outlines the process that must be followed by home-rule municipalities to propose charter amendments and citizen-driven petition referendums, and establishes safeguards to ensure that ballot language accurately describes the proposition being placed before voters. Specifically, the bill standardizes forms and removes overly broad restrictions when submitting petitions, removes ambiguous statutory language and establishes a uniform process for citizen driven referendums, and allows an objective review of ballot language before being put to voters.

As proposed, S.B. 506 amends current law relating to requirements for certain petitions requesting an election and ballot propositions and to related procedures and provisions.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
