### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Mechanic's, contractor's, and materialman's liens are legal tools to collect payment for goods and services. Sourced from Chapter 53 of the Texas Property Code, lien rights protect the interest of general contractors, subcontractors, and suppliers in construction projects. However, the complexity and hurdles in Texas lien law pose challenges for claimants who choose to secure their liens, resulting in slow payment and unpaid construction projects.

Current statutes do not prohibit the deadline for submitting notice of mechanic's, contractor's, or materialman's liens from falling on a weekend or a legal holiday. In the 87th Regular Session, H.B. 2237 made several changes to Chapter 53 of the Texas Property Code; however, many deadlines in Chapter 53 are specific dates and do not require counting a period of days.

S.B. 929 would amend Section 53.003(e) of the Texas Property Code to add that the deadline to provide notice must be extended to the next business day if it falls on a weekend or holiday. Changes must be made to standardize procedure and maintain functionality for those in the industry.

S.B. 929 amends current law relating to certain deadlines and other timing factors affecting mechanic's, contractor's, or materialman's liens.
