Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Texas public schools utilize a variety of standardized assessment instruments to measure student performance and determine postsecondary readiness. These assessments include state-mandated end-of-course (EOC) exams, as well as nationally recognized tests like the SAT, ACT, PSAT, and PreACT (formerly ACT-Plan). Current Texas Education Code sections, specifically 39.025, 39.0263, and 39.202, reference these assessments in various contexts, including determining student eligibility for course credit and district/campus academic distinction designations.

However, the terminology used to refer to the PreACT assessment (previously known as ACT-Plan) is outdated. This bill aims to update the Education Code to reflect the current name of this assessment instrument, ensuring accuracy and consistency in state educational policies.

S.B. 1418 is primarily a technical correction, so it has minimal direct impact on students' day-to-day educational experiences.

Legislative Intent:

The primary legislative intent of S.B. 1418 is to correct the outdated reference to "ACT-Plan" in the Texas Education Code and replace it with the current name, "PreACT." This ensures that the code accurately reflects the current assessment instrument used in Texas public schools.

Key Provisions:

The replacement of the outdated term "ACT-Plan" with the current term "PreACT" throughout the Texas Education Code.

- This change is found in: Section 39.025(a-2), Section 39.0263(c), Section 39.202.

(Original Author/Sponsor's Statement of Intent)

C.S.S.B. 1418 amends current law relating to the terminology used to refer to certain assessment instruments administered to public school students.
