### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The Texas Workforce Commission administers the Jobs and Education for Texans (JET) Grant Program to provide grants to public junior colleges, public technical institutes, public state colleges, school districts, and open-enrollment charter schools. Grants are awarded to defray the start-up costs associated with the development of new career and technical education (CTE) programs.

In 2021, the legislature added the Windham School District to the list of schools that are eligible to apply for these grants. The Windham School District is the school that serves the adult prison system. However, the education programs that serve the juvenile justice system are still not eligible for grants under the JET Grant Program.

S.B. 1728 ensures that education programs in the juvenile justice system at both the state and local level are eligible to apply for grants under the JET Grant Program. This bill only allows juvenile justice entities to apply for these grants, they are not guaranteed to be awarded the funding. This change is critical because almost all juveniles in the juvenile justice system will eventually return to the community and it is the goal of the state to ensure that these juveniles become productive members of society. Juvenile justice CTE programs have seen great successes and additional funding will only help to bolster these programs.

S.B. 1728 amends current law relating to the participation of certain juvenile justice entities in the Jobs and Education for Texans (JET) Grant Program.

### **RULEMAKING AUTHORITY**
