

BILL ANALYSIS

S.B. 1939
By: Hinojosa, Juan "Chuy"
Transportation
Committee Report (Unamended)

BACKGROUND AND PURPOSE

The ship channel improvement revolving fund (SCIRF) is a revolving loan fund created through the enactment of S.B. 28 in 2017 to allow the Texas Transportation Commission to finance qualified projects for navigation districts that deepen or widen congressionally approved ship channel projects. During the 88th Legislative Session in 2023, the Texas Legislature funded the SCIRF for the first time with a \$400 million appropriation. Currently, the SCIRF is an account in the general revenue fund, which prohibits the interest earned on deposits and investments of the fund from being returned to the fund for further investment, as was intended. S.B. 1939 aims to realize the intent of the SCIRF by exempting the fund from statutory provisions relating to the reallocation of interest accrued on certain dedicated revenue.

It is the committee's opinion that this bill does not expressly create a criminal offense, increase the punishment for an existing criminal offense or category of offenses, or change the eligibility of a person for community supervision, parole, or mandatory supervision.
