S.B. 1998 authorizes the Texas Higher Education Coordinating Board to contract with one or more organizations to establish and operate a statewide pediatric subspecialty preceptorship program for medical students in Texas. To qualify for funding, an organization must be either a nonprofit or affiliated with a state-accredited medical school. Medical students must demonstrate an interest in pursuing a career in a pediatric subspecialty to be eligible for the program.

As proposed, S.B. 1998 amends current law relating to a preceptorship program in a pediatric subspecialty for medical students in this state.
