(b) If, in an exercise of the district's powers under this subchapter, the district's power of eminent domain, or the district's police power, a district requires the relocation or removal of dredged spoils or materials from a dredged material placement area owned, operated, managed, or established by another district, the district that requires the relocation or removal shall:

(1) comply with all requirements imposed by the United States Army Corps of Engineers related to the dredged material placement area; and

(2) either:

1 (A) pay at the district's sole expense the cost
2 of relocating or removing dredged spoils or materials; or

3 (B) relocate or remove the dredged spoils or
4 materials.

5 (c) If the relocation or removal of dredged spoils or
6 materials under Subsection (b) results in the reduction of another
7 district's rights to capacity in the dredged material placement
8 area, the district that required the relocation or removal shall be
9 obligated to:

10 (1) replace the affected district's lost capacity and
11 provide rights to the replaced lost capacity in an alternative
