2029	(\$1,500,000)
2030	(\$1,500,000)

Fiscal Analysis

The bill would require the Texas Education Agency (TEA) to develop and maintain a database that includes current information regarding school district bonds, taxes, and bond-related projects. TEA could contract with a third party to develop and maintain the database.

Methodology

TEA assumes that it would be more cost-effective to contract with a third party to develop and maintain the database required under the bill. The agency assumes the fiscal impact of the third party contract would be \$1.5

million each year.

Local Government Impact

School districts would be required to provide information related to bonds, taxes, and tax rate election results, as well as any other information requested by the agency for the purpose of maintaining the database.
