

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 89TH LEGISLATIVE REGULAR SESSION**

**April 28, 2025**

**TO:** Honorable John T. Smithee, Chair, House Committee on Criminal Jurisprudence

**FROM:** Jerry McGinty, Director, Legislative Budget Board

**IN RE: SB988** by Bettencourt (Relating to increasing the criminal penalty for the offense of criminal mischief involving impairment of a motor fuel pump or electric vehicle charging station.), **As Engrossed**

Increasing the penalty for an existing offense may result in additional demands upon state correctional resources due to a possible increase in the number of individuals placed under supervision in the community or sentenced to a term of confinement. The fiscal implications of the bill cannot be determined due to the lack of statewide data necessary to identify cases of criminal mischief involving a retail motor fuel pump or electric vehicle charging station.

The bill would make the criminal penalty for criminal mischief in which the actor causes wholly or partly impairment or disruption to a retail motor fuel pump or electric vehicle charging station, regardless of the amount of pecuniary loss, a third degree felony.

The Office of Court Administration indicates that no significant impact to the state court system is anticipated. The Comptroller of Public Accounts indicates that the fiscal impact cannot be determined but that there could be an increase in state revenue associated with court costs.

The impact on state correctional populations or on the demand for state correctional resources cannot be determined due to the lack of statewide data necessary to identify cases of criminal mischief involving a retail motor fuel pump. Based on the January 2025 Biennial Report on Adult Criminal Justice Populations, the fiscal year 2024 uniform cost per day was \$2.73 for an adult on felony community supervision and \$86.50 for an adult in a systemwide facility.

Increasing a penalty from a misdemeanor to a felony would permit the punishment of juveniles by commitment to the Texas Juvenile Justice Department (TJJD) and may lead to increased populations in juvenile state correctional facilities. Based on the January 2025 Biennial Report on Juvenile Justice Populations, the fiscal year 2024 uniform cost per day was \$770.53 for a juvenile committed to TJJD and placed in a secure residential facility.

**Local Government Impact**

While the fiscal impact cannot be determined, the impact upon local correctional resources would be dependent on the number of individuals placed under supervision in the community compared to the number of individuals sentenced to a term of confinement in a state correctional institution.
