Presbyterian Children's Homes And Services (PCHAS)
Austin, TX

Presbyterian Children's Homes and Services has been providing privately funded services to children and families for the past 25 years. These services are funded by private individuals and groups, and it is becoming more and more difficult to raise adequate funds to continue providing these valuable services. Strong family tax credits will provide one more way for PCHAS to encourage donors to contribute to this important cause. PCHAS provides in home services focused on strengthening the family so that they can reach a higher level of self-sufficiency and family well-being. Please vote "yes" to approve the "Strong Family Tax Credit"

Texas Girls and Boys Ranch
Lubbock, TX

I strongly support House Bill 3232. The "Strong Families Tax Credit" will support the incentivization will organization like Texas Girls and Boys Ranch and other residential and foster care agencies. Approval of this bill will make substantial inroads in helping to improve child welfare outcomes.

Please support this bill on behalf of non-profits and organizations who need support from individuals and organizations in the private sector.

80% of our female residents have no resources to help with their care (mental, physical, emotional, educational) improvement. Supporting organizations in Central Texas that serves women and their families helps improve the community at large.
