ARTICLE 1. FUNDING OF INSURED LOSSES AND
OPERATING EXPENSES OF TEXAS WINDSTORM
INSURANCE ASSOCIATION

Same as House version.

SECTION 1.01. (a) In this section, "association" means the Texas Windstorm Insurance Association.

(b) The legislature finds that the use of public securities would not be an efficient or viable long-term method to fund losses of the association in order for the association to continue to provide windstorm and hail insurance after a catastrophic event. Subchapter B-2, Chapter 2210, Insurance Code, as added by this Act, is intended to replace Subchapter B-1, Chapter 2210, Insurance Code, to provide for funding of excess losses and operating expenses of the association incurred after December 31, 2025.

(c) The legislature finds that:

(1) previous experience has shown that the expense to the association of issuing public securities, and the interest rates for those securities, would be significant and can impose significant long-term expense obligations on coastal property and casualty risks that may be avoided if the legislature provides for financing or investment from available state money to the association before or after a catastrophic event;

(2) the financing or investment described by Subdivision (1) of this subsection would be a more efficient way to provide funding necessary for the association to pay losses after a catastrophic event; and

(3) a loan or other investment from available state money to the association of not more than \$500 million before a catastrophic event and not more than \$1 billion after a catastrophic event would:

- (A) replace the funding levels currently provided by issuing public securities;
- (B) be consistent with sound insurance solvency standards;
- (C) provide a more viable method for the association to have money for losses after a catastrophic event than the issuance of public securities; and
- (D) provide a secured investment for the state that would:
 - (i) yield interest income for the state on state money; and
 - (ii) be adequately secured for repayment through statewide catastrophe surcharges on certain insurance policies in this state.
- (d) The legislature finds that authorizing catastrophe surcharges is a viable method to assure repayment of **loans** or investments of state money after a hurricane and to ensure that the association can continue to provide windstorm and hail insurance in the coastal areas of this state after a catastrophic event to maintain the association's viability for the benefit of the public and in furtherance of a public purpose.
